	CaseNID	
	Coords	-28.867778, 31.459139

Page No: 1 **SiteAutoID:** 31792

CommonName:

stone tools

Physical Type: Open Site

BroadAgeCategory: LSA

Site Category: Artefacts

Directions:

Take R66 to Eshowe, turn right into Kangena St. and pass the hospital (on LHS). Turn Right into Weber St. and this becomes Clark St. Continue along this road to the end (near a primary school). There is a row of prefabricated houses to the left of the school and the site is located on the hill in front (north) of these houses.

SiteComments:

Site consists of an ephemeral LSA scatter. 1 flake on white quartz. Would be more artefacts in sugar cane.

AdminComments:

Phumlani Housing Development Conservation Comments: Merits conservation - no Threats? yes What threat?
Housing Significance: Low Mitigation: None Require mitigation: None

Stone Artefact Types: Quartz

StoneArtefactNotes:

Other Stone

Damage Types:
