SiteComments:

The site consists of a cemetery (approximately 200 x 30 metres in extent) with ±800 graves, which are mostly demarcated by packed stones, except for a few with cement bases and headstones. The graves have an east-west orientation with headstones on the western side. The graves are mostly that of adults (not always clear). Most of the graves have no inscriptions on the headstones therefore their age could not be determined.
