SiteComments:

The site consists of a cemetery (approximately 30 x 30 metres in extent) with ± 23 graves, which are mostly demarcated by stone and cement bases, and a few by packed stones. The graves have an east-west orientation with headstones on the western side. Most of the headstones have been broken and damaged. Although the cemetery contains mostly adultgraves, about 5 graves are that of juveniles. Apart from the stone-packed graves (no headstones) all graves with cement bases and headstones have inscriptions.
