	CaseNID	117263
	Coords	-31.796667, 23.278889

Page No: 1

SiteAutoID: 34668

AlternateCode:

S21-RA3

Site Category: Deposit, Rock Art

SiteComments:

All of the paintings were painted using red ochre and consist of finger painted images of six human figures, in procession and possibly holding hands as well as three finger painted strips. The paintings are relatively weathered. The rock shelter contained no archaeological deposit, however, a few broken ostrich eggshell fragments were observed.

Damage Types:
