S44

Site Category: Stone walling

SiteComments:

One area containing three stone wall structures was documented on the farm Nobelsfontein at the area marked S44 overlooking the flat floodplain. Three circular stone-packed structures averaging between 2.5mx2.5m in extent and 1m-1.5m in height are situated about 20m in distance from each other. Each stone walled structure has an entrance of about 1m.

Damage Types:
