Site Category: Place

**SiteComments:**

Portion 23/7 of the Farm Uitkomst Paternoster (at approximately set on map datum WGS 84) is located directly alongside Mosselbank Road in Paternoster. The property comprises a high, prominent sand dune, which has been bisected by construction of Mosselbank Road, an activity that in itself should have required an archaeological assessment given the known (archaeological) sensitivity of the area.

Damage Types:
