Site Category: Burial Grounds & Graves

SiteComments:

Farm workers' graves. ~29 but hard to tell due to very poor condition and variety of styles. Open area but with one grave fenced. One grave has a big stone mound but rest are all smaller or have only head and/or foot stones. A peculiar feature is that half the graves are aligned NW/SE while most of the others are aligned SW/NE. Two are aligned closer to E/W.

Damage Types:
