Site Category: Burial Grounds & Graves

SiteComments:

A cemetery situated next to the mining road of approximately 45 graves. the oldest inscription dates to 1947. Approximately 25 graves are situated between a fallen fence and the road. The remaining graves fall outside of the fence. Various objects are found in the graves including glass, ceramics and a sewing machine. There are signs of recent visits to these graves, evidenced by ceramic bowls that may play a religious role.

Damage Types:
