Site Category: Structures

**SiteComments:**

Site 4 & 5 is represented by the remains (foundations) of structures that could be associated with Site 3 (the refuse midden). Both these structures seem to have been built with bricks and stones. The age of these are not known, but is probably also between the late 19th and mid20th century. With so little of these structures remaining they are not significant and can be demolished. It is recommended that they be recorded (mapped) however as part of the investigation on the refuse midden (Site 3).
