Page No: 1 **SiteAutoID:** 60019

AlternateCode: S.35_23 **AlternateName:** PLA2162/2328BD/S....

Site Category: Artefacts

SiteComments:

Site S.35_23 was located on the eastern escarpment of the Makgabeng plateau. The site comprised surface scatters of lower grinding stones, The grindstones were predominantly flat with polished surfaces, although some had shallow circular grinding hollows. No other artefacts, deposits or structures were noted.

Damage Types:
