AlternateCode:

Site 9/004

Site Category: Structures

SiteComments:

Very large settlement built with dry-stone walling. At least six structures, some built up against a south-facing sandstone outcrop. All walls are built with two skins and a rubble fill. Two enclosures have been recently damaged by a road being pushed through them. In the area to the north of the southernmost structure there was blue, green, black, purple and clear glass, stoneware and some iron (including a bedpost).

Damage Types:
