Page No: 1 **SiteAutoID:** 87161

AlternateName:

Site 5

Site Category: Structures

SiteComments:

This site consists of rectangular stone foundations of a number of labourers houses. Two upper grinders and some potshards were also identified, but these were undecorated. The site is located to the western side of the road between the fourth area investigated and the house on the farm.

Manufactured Artefact Types: Pottery

Damage Types:
