Page No: 1 **SiteAutoID:** 93025

AlternateName:

WPT: 248

Site Category: Building

SiteComments:

A small WW2 period concrete building that was once surrounded by a sturdy fence. Within is a mounting for a power plant and some machinery that may indicate the presence of a revolving antenna. Outside are cable stretchers indicating that some form of wireless/radar/or radio direction finder was set up here. Nearby toilet (wpt 249) contains urinal and bucket toilet with wooden seat in good order.

Damage Types:
