SiteNo	KRP 7a
Site Name	Karooport 7a
Date	24/10/2011 - 13:46
Project	
CaseNID	
Coords	-33.183351, 19.719616

Page No: 1

SiteAutoID: 99147

Site Category: Artefacts

SiteComments:

Three GPS points were taken on an amorphous artefact scatter across an area of c. 40m. Several cores and flakes worked from dark grey, coarse grained quartzite are probably MSA in date (Plate 2). One LSA hornfels flake, with possible retouch or use wear (Plate 3), and some unmodified ochre fragments were also found within c. 15m of KRP 7a.

Damage Types:
