Archive Import History: These Settler cottages were erected by artisans during the eighteen-twenties on land granted to them by the Government on the understanding that a house of burnt brick or stone be erected within 18 months. Most of the properties were, however, only transferred to their owners in 1827. The cottages form a unique historical and architectural complex which is closely associated with the British Settlers of 1820. Visual Description: Double pile plan shop built with main facade on splay. Corrugated iron flat roof. Walls brick plastered with parapet and cornice. Small pane sash windows and shop windows.
