Archive Import History: The farm Schoonderzicht was originally granted to P. J. Theron in 1796 although the main gable of the homestead bears the date 1795. A striking feature of the homestead is its concavo-convex ("holbol") gable with fine decorations. The house was built in the shape of a T with three gables, and much of its original woodwork and other materials are still intact. Historically and architecturally, the adjacent barn is an integral part of the complex.
