Site Category: Building

SiteComments:

Archive Import History: The foundation stone of this church was laid on 15 January 1861, but because of financial and other problems it could only be consecrated on 7 June 1879. George Wallace was responsible for the building plans, although the well-known Carl Hager had to complete the building. The church was built of the local sandstone in the neo-Gothic style and also has an impressive interior.
