	Date	23/10/2017 - 09:12 to 26/10/2017 - 09:12
	Project	
	CaseNID	487599
	Coords	-29.195102, 19.402115
Page No: 1 SiteAutoID: 128555		

Physical Type: Rock Wall

BroadAgeCategory: Indeterminate

Site Category: Stone walling

Directions:

The site D011 is located in the Cape Spring proposed quarry in the northern section of the mining area (Pofadder).

SiteComments:

A large rectangular stone kraal with a lambing section to the one side and a rock outcrop incorporated into the wall of the main kraal. Sandy floor deposit. However, the kraal seems to still be in use.

Deposit Info: Sandy

DepositComment:

Sandy floor deposit.

Damage Types:
