N	100.00	4.50	6.00

BroadAgeCategory: LSA

Site Category: Rock Art, Artefacts, Deposit

Directions:

Along southern bank of stream, opposite proteas and jeep track

SiteComments:

Long overhang on edge of stream on the east/south bank. Rock art is in various places along the length of the overhang which is around 100 metres in length. Lots of artefacts in front of shelter.

AdminComments:

Previous recorded by Jonathan Kaplan during an HIA for CTS Heritage. Heritage Western Cape requested a detailed rock art recording following the submission of the report. Recommendations made to move the dam away from the site. Kaplan recorded HMY1 and HMY2. Decided to merge these into one recording under HMY1 - HMY2 is on the far left (northern end) so the coordinates for the fine line images there can be taken as the starting point of the site.
