Page No: 1      **SiteAutoID:** 129585

**AlternateCode:**

AGT5B

Physical Type: Overhang

BroadAgeCategory: LSA

Site Category: Artefacts

**Directions:**

Series of rocky outcrops/platforms on western edge of Agtersfontein se kloof, east of track (just south of fork in the road, taking left track). Small outcrop opposite AGT5A.

**SiteComments:**

Shallow overhang on small outcrop with artefacts but no rock art. Moderate scatter with quartzite MSA pieces, very weathered hornfels, a few CCS pieces and one silcrete flake. Also two large chunks of heavy glossy haematite, flaked roughly as cores.

Stone Artefact Types: CCS, Hornfels, Quartz

Damage Types:
