

Archaeological Site Report	SiteNo	2427DB/Infrastructure/Groenfontein 458KQ/Verdrag
	Site Name	Training camp
	Date	19/11/2019 - 09:00
	Project	
	CaseNID	
	Coords	-24.549110, 27.781520

Page No: 1 **SiteAutoID:** 129697

Site Category: Building

Directions:

The study area is located approximately 30 km east of Thabazimbi in Limpopo Province. This structure is located just east of the area of proposed new E Training camp with coordinates S 24.54911; E 27.78152.

SiteComments:

The geology is mostly made up of arenite, whereas the ridges to the south made up of dolomite and granite and norite in the south. The topography of the area can be described as low mountains, form by the abovementioned ridge that run in an east-west direction. The vegetation is classified as Waterberg Moist Mountain Bushveld, changing to Mixed Bushveld west of the study area. A number of small unnamed streams pass through the area, running in a south westerly direction to later link up with the Sandrivier. The cultural landscape qualities of the region essentially consist of a rural setup.
