Site Category: Burial Grounds & Graves

Directions:

The local municipal cemetery is situated within the south-western quadrant of the development area and lies within the impact zone.

SiteComments:

The local municipal cemetery is situated within the south-western quadrant of the development area and lies within the impact zone. The cemetery is currently fenced, and the development is planned around it. However, care should be taken to minimise the effects of construction activities. All graves are of high significance and care should be taken to protect them. The graves are of Local significance with Field Rating/Grade IIIA.

Damage Types:
