BroadAgeCategory: Historical

Site Category: Archaeological

**SiteComments:**

Historic period mine adit. Adit, was in use during the 1920's during prospecting for gold. (NSH1). No previous occupation was recorded in the area. However, the adit that is proposed to be mined was established in the 1920's and is thus considered a structure- relating to early mining in South African history. Although its relative importance to the history of mining is minor- Act 25 of 1999, prevents its alteration or destruction without suitable permits, issued by the Hertiage AuthoritySAHRA.

**StoneArtefactNotes:**

historic period mine adit.
