

Archaeological Site Report	SiteNo	2023DB/Wind/Farm Zwartkoppies/Site 095
	Site Name	Stone artefacts
	Date	09/03/2020 - 12:35
	Project	
	CaseNID	
	Coords	-30.716933, 23.903800

Page No: 1 **SiteAutoID:** 129977

Physical Type: Open Site

BroadAgeCategory: MSA

Site Category: Archaeological

Directions:

Site 095 is located outside the footprint area of the proposed (new) construction yard.

SiteComments:

Low density scatter of weathered, indurated shale MSA flake tools on heavily eroded and trampled gravel near fence. Diffuse scatter of tools occur over the remainder of the site, between the powerline servitude and the boundary fence (below the kopje) about 50m to the north. The tools comprise a range of triangular shaped flakes, large blunted flakes, blades, chunks, flaked chunks, retouched, and partially retouched pieces.

Damage Types:
