Site Category: Burial Grounds & Graves

SiteComments:

four graves were also found near the western entrance to the kraal. The graves comprise fairly obvious mounds of packed stone, which are obscured by thick vegetation. At least one of the graves has a head and footstone indicating that it is a Christian burial. Fragments of white porcelain and some glass (possibly grave goods) were noted scattered about.

StoneArtefactNotes:

Fragments of white porcelain and some glass.

Manufactured Artefact Types: Glass

Damage Types:
