Page No: 1 SiteAutoID: 130148		

Physical Type: Open Site

BroadAgeCategory: LIA

Site Category: Archaeological

SiteComments:

A number of Late Iron Age stone walled sites and features were identified during the survey in the area. The sites are located around rocky outcrops and close to the existing Water Reservoir in the area, and fairly close to the preferred and Alternative Substation locations. The sites probably form part of a large LIA settlement complex, representing individual settlement units or homesteads with features such as cattle kraals (livestock enclosures), hut bays and other related features. It possibly date to the same time period as the Hurutshe settlement complexes at Kaditshwene and other sites close to Zeerust, and around the late 18th to early 19th century. Very little cultural material was observed, and only fragments of undecorated pottery were identified during the field assessment.

Manufactured Artefact Types: Pottery

DetailsOfCulturalMaterial:

The sites probably form part of a large LIA settlement complex, representing individual settlement units or homesteads with features such as cattle kraals (livestock enclosures), hut bays and other related features.
