Site Category: Building

**SiteComments:**

Behind the Anglican church. Three-bay hipped-roofed cottage. Verandah with stripped (blue and grey) ogee roof on trelliswork friezes and supports with dipped verandah wall possibly more recent. Four-panelled door (upper ones arched) with two-paned fanlight. 2x2 paned sash windows with louvred shutters. Small coach-house to the right. This is a fine cottage of local architectural value.

**AdminComments:**

I could not locate the house as the street was not available on the map due to changing of street names.
