Site Category: Building

SiteComments:

Three-bay semi-detached (see 88b) Karoo-type cottage with straight parapet with heavy edge-moulding and heavy drip-moulding over door and windows. Four-panel door with two-paned fanlight. Windows have been removed and the openings boarded up. Of environmental value as part of a group as well as of local architectural value and should be restored.

AdminComments:

Difficult to locate on the map as there are new developments in this area.

Damage Types:
