	Coords	-27.534657, 31.978697

Page No: 1 **SiteAutoID:** 135829

CommonName:

MKU01

BroadAgeCategory: LIA

Site Category: Artefacts

SiteComments:

MKU01 is located at the southern end and just outside of the study area. It probably extends into the study area and was thus recorded. The site is an ephemeral scatter of pottery sherds, a sorghum lower grinding stone, an upper grinding stone (not for sorghum), and general stone tools. There is an E. ingens nearby the artefacts and this could relate to a LIA, or Historical Period (HP) grave.

Manufactured Artefact Types: Pottery

Damage Types:
