	Site Name	TETRA4 CLUSTER 1
	Date	28/04/2017 - 08:31 to 21/07/2021 - 08:31
	Project	
	CaseNID	387381
	Coords	-28.117550, 26.719460

Page No: 1 **SiteAutoID:** 138352

AlternateName:

SITE 38

Site Category: Bridge

SiteComments:

The site comprises the concrete drift and adjacent bridge over the Sand River at Blaauwdrift. The drift predates the bridge and was embedded by two rocks. At least the drift is believed to be older than 60 years, although the possibility does exist for the bridge to be as old.
