Page No: 1 **SiteAutoID:** 138952

Physical Type: Open Site

BroadAgeCategory: Historical

Site Category: Archaeological

SiteComments:

Stone structures (SS01) from the historical period occur near some of the tributaries of the Steenkoolspruit. These remains possibly comprise a small village which date from the late nineteenth century and most probably housed a small extended family. The historical remains represent the foundations of dwellings and possible enclosures in which stock such as sheep and goat were penned.

DetailsOfCulturalMaterial:

Stone walls
