Page No: 1      **SiteAutoID:** 140215

**CommonName:**

CVR2

Site Category: Shell Midden

**Directions:**

This site is located  $\pm 70$  m north from CVR1 on a flat area on top of the hill.

**SiteComments:**

The site consists of at least four shell middens over a  $\pm 30$  m radius. The middens and archaeological deposit appears to have been previously extensively damaged by afforestation. The middens have a variety of shell species

Damage Types:
