Page No: 1 **SiteAutoID:** 140221

CommonName:

CVR6

BroadAgeCategory: LIA

Site Category: Shell Midden

Directions:

This site is located on the hill to the south of CVR5 (between chain markers 15800 and 15760)

SiteComments:

The site consists of two small shell middens that have been exposed by bush clearance. The shell is mainly brown mussel. One pottery fragment was recorded. The site probably dates to the Late Iron Age or Historical Period.

Damage Types:
