Site Category: Burial Grounds & Graves

SiteComments:

Informal cemetery comprises of 2 graves situated in close proximity to one another, more or less 60m from the proposed line route. Graves are those of adults of the Ntshuntswane(?) family. An exact date for the graves could not be obtained, but graves are of fairly recent origin and expected to safely post-date 60 years of age. Immediately to the south of the homestead is a child's grave (G4.1 - S31Å33'18.2"; E28Å12'51.7"). A woman at the Ntshuntswane(?) homestead reported that it is the grave of her 7 month old child, Ntombi Njebe, who was buried in 2006.
