**AlternateName:**

Site G5

Site Category: Burial Grounds & Graves

**SiteComments:**

Site G5 (S31°33'16.9"; E28°12'51.9") comprises of a single grave, characterized by what seems to be a fairly recent earth mound only. The grave is situated immediately to the north of the proposed line route and between the gravel access track and a neighboring agricultural field. Residents consulted from the immediate vicinity reported that the grave was of 'unknown' origin, interpreted as being that of a 'stranger' to the area, thus not belonging to a member of the local community.

Damage Types:
