	Date	18/07/2023 - 13:35
	Project	
	CaseNID	
	Coords	-32.206815, 18.977774

Page No: 1 **SiteAutoID:** 141601

Physical Type: Cave

W(m):
8.00

D(m):
5.00

H(m):
1.20

BroadAgeCategory: LSA, MSA

Site Category: Artefacts

Directions:

Boskloof Swemgat, cottage upslope and south of office, take path leading east up Die Toring, until first proper rock band, and look for a boulder perched above a low cliff. Site is in fact marked by a garish sign painted on rock "cave".

SiteComments:

Space underneath a boulder. More a shelter from rain or sun type of place than a liveable space. Nice potential painting panel outside on "E" side, but nothing seen on it.

Stone Artefact Types: Quartzite, Silcrete

StoneArtefactNotes:

Thin scatter of MSA seen on floor within cave, but possible that LSA elements present as well.

Damage Types:
