APPLICATION FOR ENVIRONMENTAL AUTHORISATION FOR THE CUCHRON MINE DEVELOPMENT AND THE STEAMBOAT BENEFICIATION PLANT

Dear Stakeholder,

You are hereby notified of the submission of a Mining Right and Environmental Authorisation Application by Cuchron (Pty) Ltd and an Environmental Authorisation Application by Steamboat Graphite (Pty) Ltd.

The Mining Right Application was submitted in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) and two Environmental Authorisation Applications in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environment Impact Assessment Regulations promulgated in Government Notice No. R. 982-986 of 4 December 2014, as amended in 2017 by Government Notice No. 324-327 of 7 April 2017 (EIA Regulations).

The Two Environmental Authorisation Applications submitted include:

- Cuchron (Pty) Ltd has applied for Environmental Authorisation for the Mine Development and Associated Infrastructure; and
- Steamboat Graphite (Pty) Ltd has applied for the Environmental Authorisation for the Beneficiation Plant and associated infrastructure.

Approval has been received from DMRE to follow a joint and consolidated approach for the two Applications and therefore conduct a combined Environmental Impact Assessment Process in terms of Regulation 11(4) of the EIA regulations 2014 (as amended).

The projects are located on the farms Steamboat 306MR and Inkom 305MR, which is situated approximately 36km south-west of Alldays and 54km north-west of Vivo in the Blouberg Local Municipality, Capricorn District of Limpopo Province. The total extent of the properties is 1453.5761ha. The projects will require the following footprints: a) Mining Open Pit and Associated infrastructure: 14ha (1% of properties); and b) Beneficiation Plant and Associated infrastructure: 13ha (1% of properties). The combined size of the two projects are 27ha in total.

The application for a Mining Right and the two Environmental Authorisation applications triggers a number of listed activities, and therefore require a Scoping and Environmental Impact Reporting (S&EIR) process as contemplated in regulation 21 to regulation 24 of the EIA Regulations.

Interested and Affected Parties (IAPs) are hereby notified of the applications, are requested to register as an Interested and Affected Party, and are notified of the availability of the Draft Scoping Report for comment. Access to the Scoping Report can be obtained from the Ga-Kibi Traditional Authority or requested from the Public Participation Office, and comments should be submitted on or before **23 January 2021.**

For further information on the applications or to register as an IAP, please contact or send your information to the Public Participation Office: 012 543 9093 (t); 086 602 5566 6243 (f) or email at steamboat@participation.co.za

Regards

3 December 2020

SCOPING REPORT SUMMARY INFORMATION DOCUMENT

APPLICATION FOR ENVIRONMENTAL AUTHORISATION FOR THE CUCHRON MINE DEVELOPMENT AND THE STEAMBOAT BENEFICIATION PLANT

1 INTRODUCTION

Notice of the Mining Right Application in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) and two Environmental Authorisation Applications in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environment Impact Assessment Regulations promulgated in Government Notice No. R. 982-986 of 4 December 2014, as amended in 2017 by Government Notice No. 324-327 of 7 April 2017 (EIA Regulations).

The Two Environmental Authorisation Applications submitted include:

- Cuchron (Pty) Ltd has applied for Environmental Authorisation for the Mine Development and Associated Infrastructure; and
- Steamboat Graphite (Pty) Ltd has applied for the Environmental Authorisation for the Beneficiation Plant and associated infrastructure.

Approval has been received from DMR to follow a joint and consolidated approach for the two Applications and there conduct a combined Environmental Impact Assessment Process in terms of Regulation 11(4) of the EIA regulations 2014 (as amended)

2 PROJECT LOCATION

The projects are located on the farms Steamboat 306MR and Inkom 305MR, which is situated approximately 36km south-west of Alldays and 54km north-west of Vivo in the Blouberg Local Municipality, Capricorn District of Limpopo Province. The total extent of the properties is 1453.5761ha. The projects will require the following footprints: a) Mining Open Pit and Associated infrastructure: 14ha (1% of properties); and b) Beneficiation Plant and Associated infrastructure: 13ha (1% of properties). The combined size of the two projects are 27ha in total.

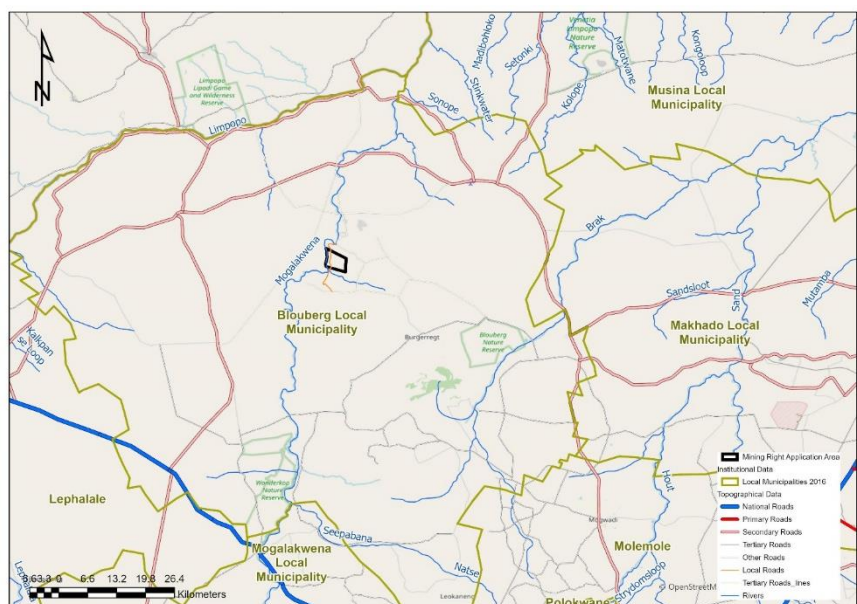

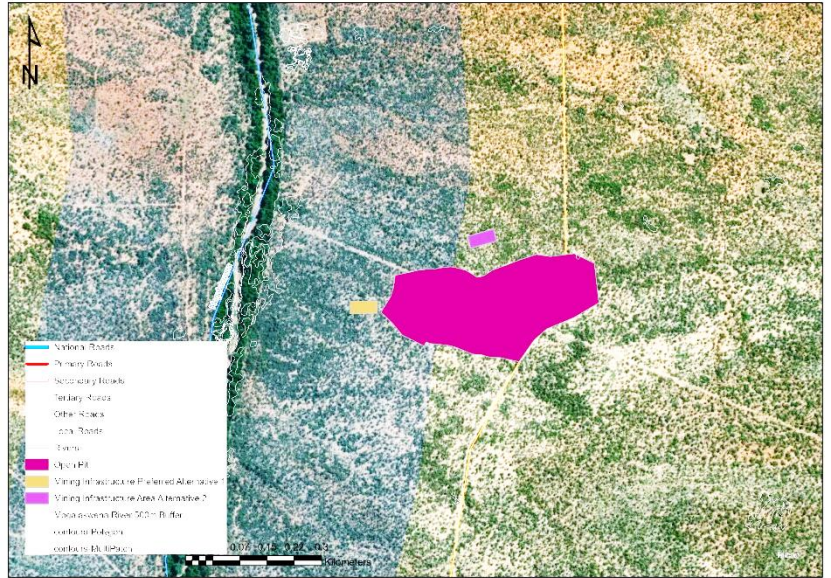

Figure 1: Locality Map

3 PROJECT DESCRIPTION

3.1 Mine Development – Cuchron (Pty) Ltd

In support of its application to the Department of Mineral Resources for a mining right over Steamboat 306MR and Inkom 305MR. Cuchron submitted the application for an environmental authorisation for opencast mining and ancillary surface activities. The following components are included:

- Open pit;
- Internal Roads;
- Mining Office, Workshop and Storage Area
- Access Road;
- Storm water and pollution control infrastructure;
- Pipelines for transportation of clean water;
- Potable water storage facilities;

Alternative Locations of the infrastructure will be considered.

3.2 Beneficiation Plant – Steamboat Graphite (Pty) Ltd

In addition, and related to an application to the Department of Mineral Resources for a mining right by Cuchron (Pty) Ltd over Steamboat 306MR and Inkom 305MR, Steamboat Graphite will be the primary customer of Cuchron, and will establish the Graphite Beneficiation Plant on the Mining Right Area. Steamboat Graphite submitted the application for an environmental authorisation for the Graphite Beneficiation Plant and associated infrastructure. The following components are included:

- Graphite Beneficiation Plant
- Electricity Generation Facility
- Discard Dump
- Potable Water Pipelines
- Stormwater channels
- Process Water Pipeline
- Pollution Control Dam
- Internal Service Roads
- New Access Road
- Upgrade of existing Access Road

Alternative Locations of the infrastructure will be considered.

Alternative 1

Alternative 2 (preferred)

3.3 Project Development Timeframes

The diagram below indicates that the mine will only commence operating during Stage 3, estimated to be around 2024, mainly due to licencing and construction of infrastructure for the Mine. This is only an estimated timeframe and may be earlier, depending on the approval process.

The project is divided into different stages:

4 LEGISLATIVE PROCESS

The project will trigger activities under the Environmental Impact Assessment (EIA) Regulations of 2014 (as amended) promulgated under the National Environmental Management Act, No. 1998 (Act 107 of 1998) (NEMA), and therefore the Applicant is required to conduct a Scoping and EIA (S&EIA) process and compile the associated Scoping and EIA Reports (EIAR) that need to be submitted to the DMR for adjudication.

There are three phases, namely the application / scoping phase, the EIA phase and the Authority review and decision-making phase.

Application and Scoping Phase: Notification of Interested and Affected Parties (IAPs) of the submission of the Application and the availability of the draft Scoping Report (DSR) to communities and registered IAPs. The DSR will identify the key issues and alternatives to be assessed and recommend the approach to be followed during the EIA Phase to follow (Plan of Study). Comments received from IAPs are incorporated in the DSR and the Final Scoping Report (FSR) is submitted to the Competent Authority, whereupon they accept or refuse it.

EIA Phase: Upon acceptance of the FSR and Plan of Study, the EIA Phase can commence. This includes the preparation of the Environmental Impact Assessment Report (EIAR), which provides detailed assessments of the significance of biophysical and social impacts, as well as the Environmental Management Programme (EMPr). The draft EIAR and EMPr are again provided to registered IAPs for comment. Comments are responded to in the Final EIAR and EMPr, which is submitted to the Competent Authority for decision-making.

Authority Review and Decision-making Phase: The Competent Authority reviews the information and recommendations provided in the Final EIAR and EMPr and is required to issue a decision to authorise (or refuse to authorise) the project within 107 days of submission of the documents.

The total timeframe for a “non-substantive” EIA process is legislated to take no more than 300 calendar days (excluding public holidays and the December break). This implies an EIA process where all issues could be satisfactorily resolved, and no substantive changes needed to be made or new and unexpected information needed to be added to the environmental reports.

5 EXPECTED BENEFITS AND IMPACTS

5.1 Benefits

The mine development will mine the first graphite deposit in South Africa. Benefits may include:

- Capital Investment and expected Revenue generation with a contribution to economic growth.
- Community ownership participation in Cuchron
- Employment and the generation of household income, including in supporting shops and suppliers.
- Secondary benefits in the creation of electricity to supply the domestic demand.
- Asset base: The capital expenditure outlaid into the land in the area will result in an asset base upon which future development can occur.
- Skills Development;
- Community development;
- Local procurement and SMME opportunities

5.2 Potential Impacts

The projects may also have environmental and social impacts, these will be further investigated during the Environmental Impact Assessment Phase and ways to mitigate and manage the impacts will be proposed. Preliminary impacts include:

- Geology:
 - *Disturbance of natural geology*
- Topography:
 - *Alteration of topography*
- Soils, Land use and Capability
 - *Loss of the original spatial distribution of natural soil forms and horizon sequences which cannot be reconstructed similarly during rehabilitation.*
 - *Loss of original soil depth and soil volume.*
 - *Loss of original fertility and organic carbon content.*
 - *Soil compaction from heavy machinery*
 - *Alteration of land use and capability of the project area (27ha)*
- Terrestrial Ecology
 - *Loss of habitat and biodiversity*
 - *Loss of animal, plant and medicinal species*
 - *Increased soil erosion*
 - *Alien plant invasion*
- Surface Water
 - *Reduction in storm water runoff*
 - *Decrease of surface water quality*
 - *Pollution as a result of leachate and runoff from the stockpile*
- Groundwater
 - *Lowering of groundwater levels*
 - *Effect on groundwater quality*
- Air Quality
 - *Increased of dust levels because of construction and hauling operations*
 - *Increased Particulate Matter, Sulphur Dioxide, Oxides or Nitrogen from the Syngas facility*
- Noise
 - *Increased total noise levels in the area, changing existing ambient sound levels at receptors*
- Archaeological and Cultural Interest
 - *Deterioration/damage of archaeological and cultural interest*
- Visual
 - *Visual intrusion of mining activities, impacting on the sense of place*
 - *Impact due to night-time lighting*
- Socio-economic Aspects
 - *Impact on land use and livelihoods from reduction in grazing area*
 - *Influx of Job seekers and Population growth pressures*
- Traffic
 - *Increased traffic on the Product Transport Route*
 - *Disruption of daily living and movement patterns and safety of road users*

6 SPECIALIST STUDIES

The impact assessment is divided into several fields of specialist study. The following specialist inputs to the EIA process include:

- Soil, Land Use, and Land Capability
- Terrestrial Ecological Impact Assessment (including Faunal and Floral);
- Surface Water Assessment;
- Groundwater Assessment;
- Heritage Assessment - Phase 1 Heritage Impact Assessment
- Palaeontology Impact Assessment – Desktop study as required by SAHRA
- Socio-economic Assessment:

7 PUBLIC PARTICIPATION PROCESS

The objectives of the Public Participation Process are to:

- Provide IAPs with an opportunity to voice their support, concerns and comments regarding the project, application, or decision.
- Provide an opportunity for IAPs, the EAP and the Competent Authority to obtain clear, accurate and understandable information about the environmental, social, and economic impacts of the proposed activity or implications of a decision.
- Provide IAPs with the opportunity of suggesting ways of reducing or mitigating negative impacts of an activity and for enhancing positive impacts.
- Enable the applicant to incorporate the needs, preferences, and values of affected parties into the application.

7.1 Getting Involved

You and/or your organisation are hereby invited to register as an IAP and provide input with regard the proposed project. You can become involved as follows:

- By registering as an IAP (see attached Registration Form).
- By reading this document and letting us know of any comments that you may have.
- By providing us with contact particulars of any other organisations or persons who may be affected by or interested in the proposed project.
- By attending Public Participation meetings to be scheduled during the EIA Phase.
- Review the draft Scoping Report and provide comments on or before **23 January 2021**.
- Contact the Public Participation Team regarding any query, comment, or request for further project information.

7.2 Who to contact?

The Public Participation Office can be contacted on 012 543 9093 (t); 086 602 5566 6243 (f) or email at steamboat@participation.co.za

8 STAKEHOLDER REGISTRATION AND COMMENT FORM

To register as an Interested and Affected Party, thereby ensuring that you are given an opportunity to comment on the documents and receive updated project information, please complete the form below and send your registration form with comments back to: **Lizinda Dickson / Lucky Ngale: Public Participation Office: Tel: 012 543 9093; Fax: 086 602 5566** or steamboat@participation.co.za

16 February 2021

PUBLIC PARTICIPATION NOTIFICATION

CUCHRON MINE DEVELOPMENT AND THE STEAMBOAT BENEFICIATION PLANT

Dear Stakeholder,

The Mining Right Application was submitted in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) and two Environmental Authorisation Applications in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environment Impact Assessment Regulations promulgated in Government Notice No. R. 982-986 of 4 December 2014, as amended in 2017 by Government Notice No. 324-327 of 7 April 2017 (EIA Regulations). Two Environmental Authorisation Applications were submitted and includes:

- Cuchron (Pty) Ltd has applied for Environmental Authorisation for the Mine Development and Associated Infrastructure; and
- Steamboat Graphite (Pty) Ltd has applied for the Environmental Authorisation for the Beneficiation Plant and associated infrastructure.

Approval has been received from DMRE to follow a joint and consolidated approach for the two Applications and therefore conduct a combined Environmental Impact Assessment Process in terms of Regulation 11(4) of the EIA regulations 2014 (as amended). The application for a Mining Right and the two Environmental Authorisation applications triggers several listed activities, and therefore require a Scoping and Environmental Impact Reporting (S&EIR) process as contemplated in regulation 21 to regulation 24 of the EIA Regulations.

The projects are located on the farms Steamboat 306MR and Inkom 305MR, which is situated approximately 36km south-west of Alldays and 54km north-west of Vivo in the Blouberg Local Municipality, Capricorn District of Limpopo Province. The total extent of the properties is 1453.5761ha. The projects will require the following footprints: a) Mining Open Pit and Associated infrastructure: 14ha (1% of properties); and b) Beneficiation Plant and Associated infrastructure: 13ha (1% of properties). The combined size of the two projects are 27ha in total.

Interested and Affected Parties (IAPs) are hereby notified of the availability of the Final Scoping Report as submitted to Department Mineral Resources and Energy. Comments has previously been invited and the report is now finalized and available to registered Interested and Affected Parties ("IAPs") to be downloaded from the following link: <https://diphororo.sharefile.com/d-sd39edd302c1e42838f84d112a3bcb076>

We look forward to your participation in the EIA process. Should you have any further questions, need more information or wish to comment, please contact our Public Participation office; Fransis de la Rosa / Lizinda Dickson at: Tel: (012) 543 9093, Fax: 086 602 5566 (f) or email at steamboat@participation.co.za

PUBLIC PARTICIPATION NOTIFICATION

CUCHRON MINE DEVELOPMENT AND THE STEAMBOAT BENEFICIATION PLANT

Dear Stakeholder,

The Mining Right Application was submitted in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act 28 of 2002) and two Environmental Authorisation Applications in terms of the National Environmental Management Act, 1998 (Act 107 of 1998) and the Environment Impact Assessment Regulations promulgated in Government Notice No. R. 982-986 of 4 December 2014, as amended in 2017 by Government Notice No. 324-327 of 7 April 2017 (EIA Regulations). Two Environmental Authorisation Applications were submitted and includes:

- Cuchron (Pty) Ltd has applied for Environmental Authorisation for the Mine Development and Associated Infrastructure; and
- Steamboat Graphite (Pty) Ltd has applied for the Environmental Authorisation for the Beneficiation Plant and associated infrastructure.

Approval has been received from DMRE to follow a joint and consolidated approach for the two Applications and therefore conduct a combined Environmental Impact Assessment (EIA) Process in terms of Regulation 11(4) of the EIA regulations 2014 (as amended). The application for a Mining Right and the two Environmental Authorisation applications triggers several listed activities, and therefore require a Scoping and Environmental Impact Reporting (S&EIR) process as contemplated in regulation 21 to regulation 24 of the EIA Regulations.

The projects are located on the farms Steamboat 306MR and Inkom 305MR, which is situated approximately 36km south-west of Alldays and 54km north-west of Vivo in the Blouberg Local Municipality, Capricorn District of Limpopo Province. The total extent of the properties is 1453.5761ha. The projects will require the following footprints: a) Mining Open Pit and Associated infrastructure: 14ha (1% of properties); and b) Beneficiation Plant and Associated infrastructure: 13ha (1% of properties). The combined size of the two projects are 27ha in total.

Interested and Affected Parties (IAPs) are hereby notified that the DMR has **approved the Final Scoping Report** on 29 March 2021 and has given **permission to commence with the EIA Process**. You will be notified once this report is available for comments.

We look forward to your participation in this process. Should you have any further questions, need more information, please contact our Public Participation office; Fransis de la Rosa / Lizinda Dickson at: Tel: (012) 543 9093, Fax: 086 602 5566 (f) or email at steamboat@participation.co.za
