Dear Chris Haw

**RE: PROPOSED CONSTRUCTION AND OPERATION OF NAOS 2 PV  
PROJECT AND ASSOCIATED INFRASTRUCTURE.**

This letter is in response to the proposed solar development and its possible impact on the Square Kilometre Array radio telescopes.

SARAO has undertaken a high-level impact assessment and based on the information provided it was determined that the project represents a low risk of interference to the SKA radio telescope with a compliance surplus of 360.05 dBm/Hz. As such, we do not have any objection to the proposed development.

Thank you for your correspondence, our office remains open to discuss any matter relating to the above.

Regards,

Mr Selaelo Matlhane

Spectrum & Telecommunication Manager

South African Radio Astronomy Observatory (SARAO)
