

## Appendix G1 – Background Information Document

# Background Information Document (BID)

NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT 107 OF 1998, WATER USE LICENCE IN TERMS OF THE NATIONAL WATER ACT 36 OF 1998, AND HERITAGE PERMIT IN TERMS OF NATIONAL HERITAGE RESOURCES ACT NO. 25 OF 1999 FOR THE PROPOSED CONSTRUCTION OF THE PULIDA BATTERY ENERGY STORAGE SYSTEM (BESS) AND ASSOCIATED INFRASTRUCTURE, LETSEMENG LOCAL MUNICIPALITY, FREE STATE PROVINCE

## PURPOSE OF THIS DOCUMENT

This Background Information Document (BID) aims to provide:

- A brief background and introduction to the project.
- A brief motivation and description of the project.
- A brief description of the affected environment.
- A description of the EIA process.
- An invitation for public involvement throughout the EIA.

## PROJECT OVERVIEW

Pulida Energy (RF) (Proprietary) Limited (Pulida) plans to submit a tender for the retrofitting of a Battery Energy Storage System (BESS) to the existing Pulida Solar photovoltaic facility located in Letsemeng Local Municipality in the Free State province. Part of the submission requirements is an approved Environmental Authorisation (EA).

## ROLE PLAYERS

### APPLICANT

The applicant is the Pulida Energy (RF) (Pty) Ltd, a renewable energy company located in South Africa

### ENVIRONMENTAL PRACTITIONERS (EAP's)

NCC Environmental Services (Pty) Ltd (NCC), an independent environmental consultancy, has been appointed by Pulida Energy (RF) (Pty) Ltd to undertake the Environmental Impact Assessment (EIA) and associated Public Participation Process.

## PROJECT NEED AND DESIRABILITY

The general purpose and utilisation of a Battery Energy Storage System (BESS) is to save and store excess electrical output as it is generated, allowing for a timed release of electricity to the grid when the capacity is required. BESS systems therefore provide flexibility in the efficient operation of the electricity grid through decoupling of the energy supply and demand.

## PROJECT DESCRIPTION

The proposed Battery Energy Storage System (BESS) will be housed inside containers or similar structures with a total footprint of up to 4ha in extent. Both Lithium-ion and Redox-flow technology are being considered for the project, depending on which is most feasible at the time of implementation. Possible associated infrastructure includes:

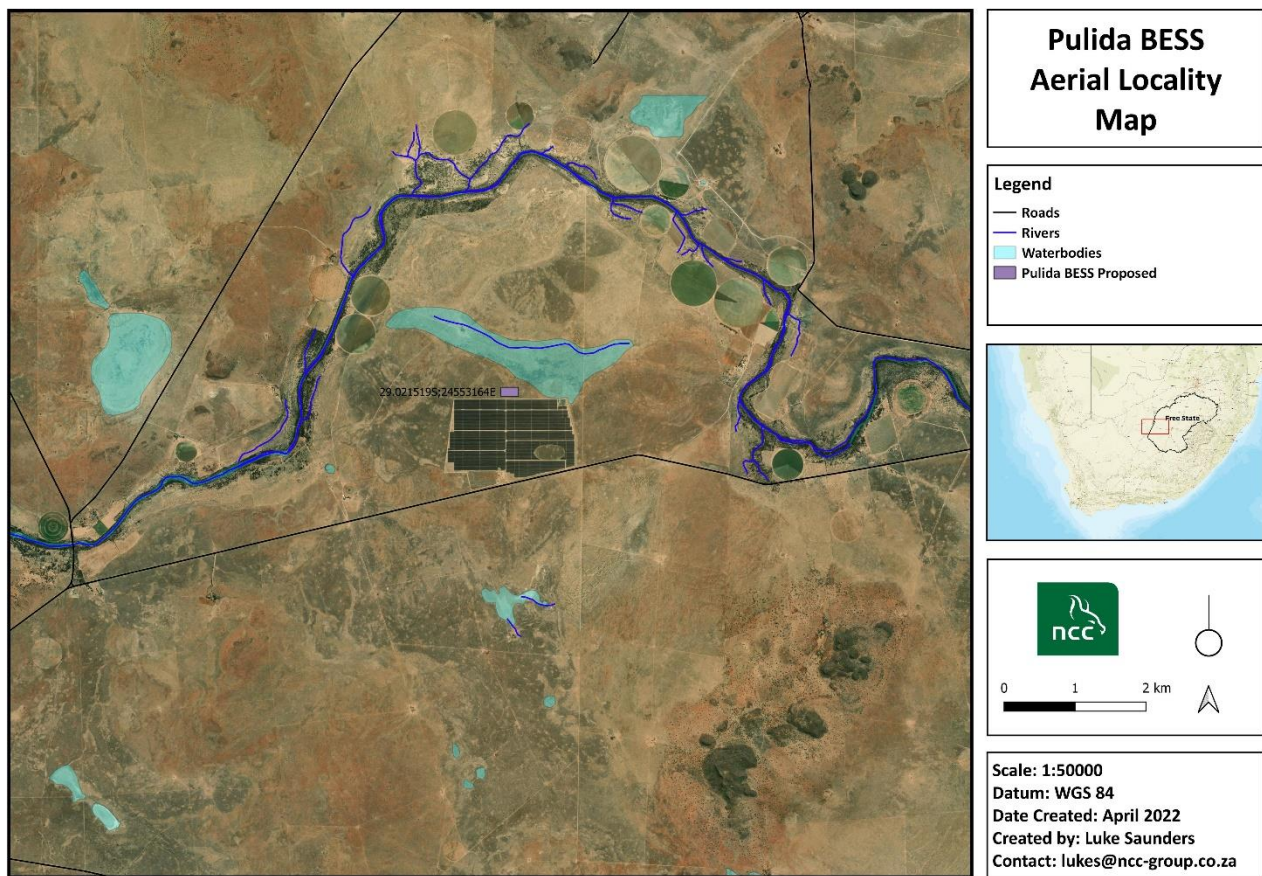

- A Substation with a maximum height of - HV busbar up to 10 m max and an HV Building up to 4 m max.
- Access road to the BESS (6m wide road surface with side ditch drainage on each side of the road) branching off existing roads, and internal roads (up to 8m wide) within the footprint of the BESS, as needed.
- MV Cabling (underground or overhead) between the BESS and the HV/MV BESS substation.

- HV Cabling (underground or overhead) between the HV/MV BESS substation and the HV substation
- Fencing around the BESS and the substation for increased security measures.
- Temporary laydown area within the 4ha footprint of the BESS.
- Possible firebreak around the BESS facility which is to be located within the 4ha BESS footprint.

## PROJECT LOCATION

The project is in the Letsemeng Local Municipality in the Free State province about 50 km southeast from Kimberley.

- Co-ordinates: 29°02'16.3"S 24°55'35.1"E

**Figure 1:** Overview of project location

## PROJECT ACTIVITIES

The project will include the following activities:

- Construction of Battery Energy Storage System (BESS)
- Site Establishment
- Clearing and Grubbing
- Installing of MV Cabling (underground or overhead) between the BESS and the PV substation.
- Installation of fencing
- Access Roads

## WHAT IS A BASIC ASSESSMENT?

A Basic Assessment (BA) is a process of collecting, organising, analysing, interpreting and communicating information that is relevant for the consideration of a particular environmental application. BAs are undertaken where the impacts are less likely to have significant impacts on the receiving environment. BAs are used by planning authorities and developers to obtain an independent and objective view of the potential environmental (biophysical, ecological and social) impacts that could arise during the construction and operation of a proposed development. This information needs to provide the Competent Authority (CA) with a sound basis for their decision-making. Environmental management and mitigation measures are also identified through the BA process.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

The Environmental Impact Assessment (EIA) for the proposed construction the BESS is being conducted in terms of the National Environmental Management Act, 2008 (Act No 107 of 1998) and will take into consideration the regulatory requirements as per the EIA Regulations contained in Government Notice (GN) No. R982 of 2014 as promulgated in terms of the NEMA [“EIA Regulations”] as amended up to and including GN 326 in GG 40772 of 07 April 2017, which provides the legislative framework for EIA applications in South Africa.

One activity associated with the project have been identified as listed activities in terms of the EIA Regulations GN. R983, R984 and GN. R985.

The proposed EIA Processes is outlined below:

### GNR 983 Listing Notice 1 - Basic Assessment Report (BAR)

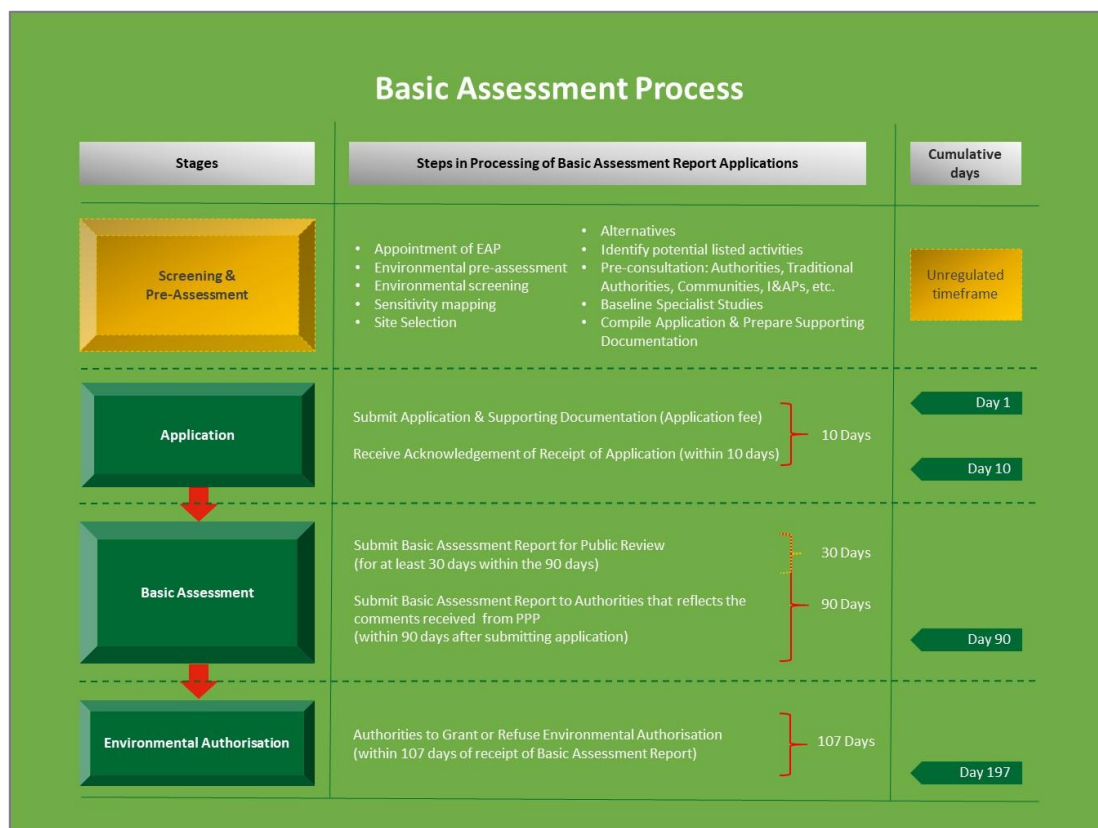

11	<p>The development of facilities or infrastructure for the transmission and distribution of electricity—</p> <ul style="list-style-type: none"> <li>(i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts; or</li> <li>(ii) ..</li> </ul> <p>excluding the development of bypass infrastructure for the transmission and distribution of electricity where such bypass infrastructure is—</p> <ul style="list-style-type: none"> <li>(a) temporarily required to allow for maintenance of existing infrastructure</li> <li>(b) 2 kilometres or shorter in length</li> <li>(c) within an existing transmission line servitude; and</li> <li>(d) will be removed within 18 months of the commencement of development.</li> </ul>
12.	<p>The development of—</p> <ul style="list-style-type: none"> <li>(ii) Infrastructure or structures with a physical footprint of 100 square metres or more;</li> </ul> <p>where such development occurs—</p>

	(a) within a watercourse (c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse
14	The development and related operation of facilities or infrastructure, for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80 cubic metres or more but not exceeding 500 cubic metres
19.	The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse
27	The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.
28	Commercial developments where such land was used for agriculture purposes on or after 01 April 1998 and where such development:  (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;

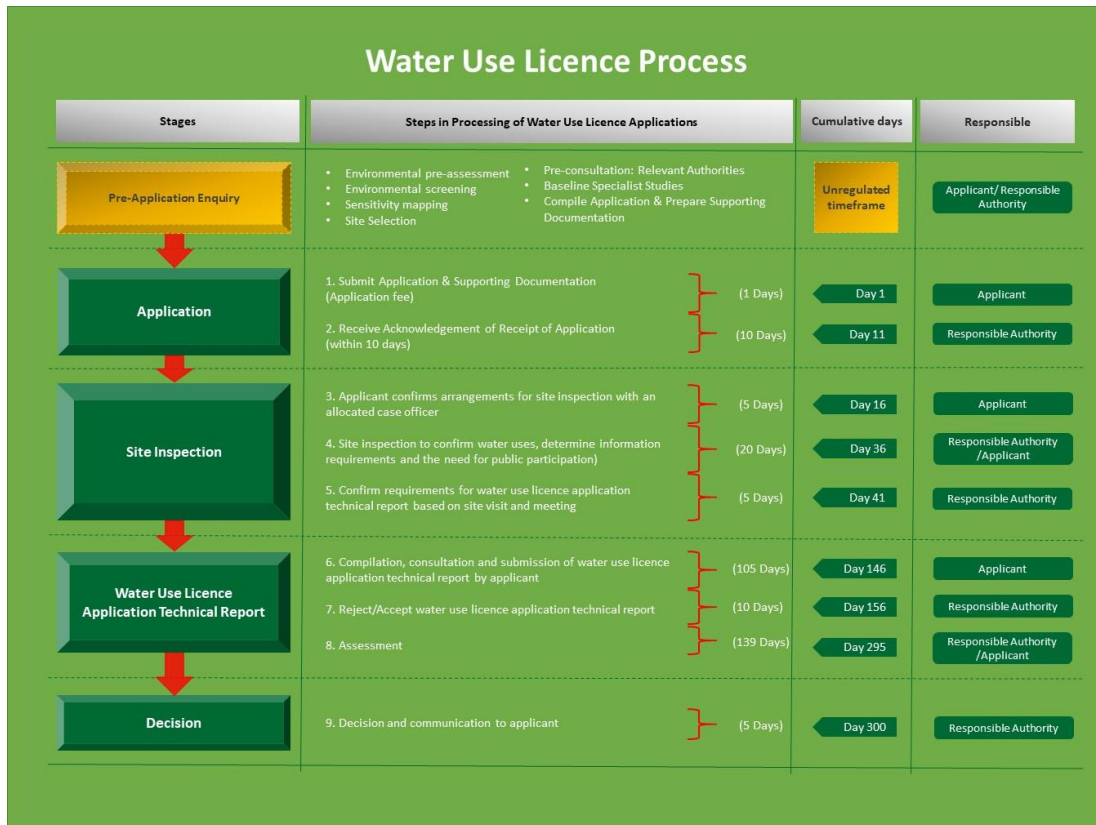

### GNR 985 Listing Notice 3 - Basic Assessment Report (BAR)

12	The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.  <b>b. Free State</b> <b>iv. Areas within a watercourse or wetland; or within 100 metres from the edge of a watercourse or wetland.</b>
----	--

The EIA and WUL Processes is outlined below:

## Water Use Licence Process

## OPPORTUNITY TO PARTICIPATE

Interested and Affected Parties (I&APs) are invited to register interest as I&APs and/or submit comment with regards to the proposed application.

To register and/or submit comment, I&APs must reference the project title, full name, contact details, plus indication of any direct business, financial, personal, or other interest, you may have in this application described in full.

Documents will be available at:

- <https://ncc-group.co.za/public-participation-overview/>
- Pulida Solar Park Offices

If you would like to register and/or provide comment as an interested and affected party, please complete the registration and comments form and return by 25th July 2022

# Agtergrondinligtingsdokument

KENNISGEWING VAN AANSOEK OM OMGEWINGSMAGTIGING INGEVOLGE DIE WET OP NASIONALE OMGEWINGSBESTUUR 107 VAN 1998, WATERGEBRUIKSLISENSIE INGEVOLGE DIE NASIONALE WATERWET 36 VAN 1998, EN ERFENISPERMIT INGEVOLGE DIE WET OP NASIONALE ERFENISHULPBRONNE NO. 25 VAN 1999 VIR DIE VOORGESTELDE KONSTRUKSIE VAN 'N BATTERYENERGIEBERGINGSTELSEL (BESS) EN GEPAARDGAANDE INFRASTRUKTUUR, LETSEMENG PLAASLIKE MUNISIPALITEIT, VRYSTAAT PROVINSIE

## DOEL VAN DIE DOKUMENT

Hierdie Agtergrondinligtingsdokument (BID) het ten doel om:

- 'N Kort agtergrond en inleiding tot die projek.
- 'N Kort motivering en beskrywing van die projek.
- 'N Kort beskrywing van die geaffekteerde omgewing.
- 'N Beskrywing van die OIE-proses.
- 'n Uitnodiging vir openbare betrokkenheid regdeur die OIE.

## PROJEK OORSIG

Pulida Energy (RF) (Proprietary) Limited (Pulida) beplan om 'n tender vir die terugwerking van 'n batteryenergiebergingstelsel (BESS) by die bestaande Pulida Solar-fotovoltaïese fasiliteit in die Letsemeng Plaaslike Munisipaliteit in die Vrystaat in te dien. Deel van die indieningsvereistes is 'n goedgekeurde Omgewingsmagtiging (EA).

## ROLSPELERS

### AANSOEKER

Die aansoeker is die Pulida Energy (RF) (Edms) Bpk, 'n hernubare-energiemaatskappy in Suid-Afrika.

### OMGEWINGSPRAKTISYNS (EAP's)

NCC Environmental Services (Pty) Ltd (NCC), 'n onafhanklike omgewingskonsultasie, is deur Pulida Energy (RF) (Edms) Bpk aangestel om die Omgewingsimpakstudie (OIE) en gepaardgaande Openbare Deelnameproses te onderneem.

## PROJEKBEHOEFTE EN WENSLIKHEID

Die algemene doel en benutting van 'n batteryenergiebergingstelsel (BESS) is om oortollige elektriese uitset te bespaar en te stoor soos dit gegenerereer word, wat voorsiening maak vir 'n tydige vrystelling van elektrisiteit aan die rooster wanneer die kapasiteit benodig word. BESS-stelsels bied dus buigsaamheid in die doeltreffende werking van die elektrisiteitsnetwerk deur die ontkoppeling van die energievoorsiening en vraag.

## PROJEK BESKRYWING

Die voorgestelde Battery Energy Storage System (BESS) sal binne houers of soortgelyke strukture gehuisves word met 'n totale voetspoor van tot 4ha in omvang. Beide Litium-ioon- en Redox-vloeitegnologie word vir die projek oorweeg, afhangende van wat die haalbaarste is ten tyde van die implementering. Moontlike gepaardgaande infrastruktuur sluit in:

- 'N **Substasie** met 'n maksimum hoogte van - HV-busbalk tot 10 m maksimum en 'n HV-gebou tot 4 m maksimum.
- Toegangspad na die BESS (6m wye padoppervlak met sy sloot dreinerings aan elke kant van die pad) vertakking van bestaande paaie, en interne paaie (tot 8m breed) binne die voetspoor van die BESS, soos nodig.
- MV Cabling (ondergronds of oorhoofse) tussen die BESS en die HV / MV BESS substasie.

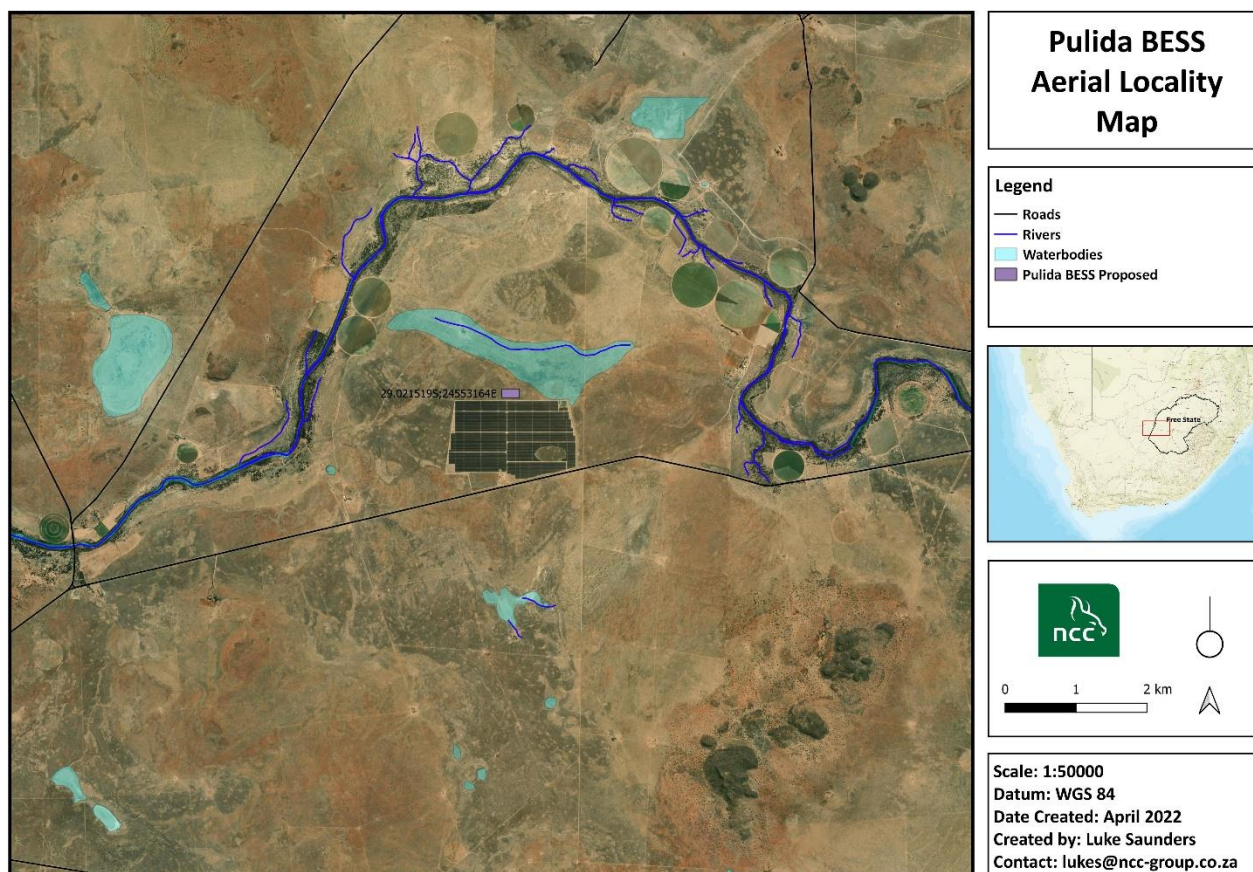

- HV Cabling (ondergronds of oorhoofs) tussen die HV / MV BESS substasie en die HV substasie Omheining rondom die BESS en die substasie vir verhoogde sekuriteitsmaatreëls.
- Tydelike afleggingsgebied binne die 4ha-voetspoor van die BESS.
- Moontlike brandbreek rondom die BESS-fasiliteit wat binne die 4ha BESS-voetspoor geleë is.

## PROJEK LIGGING

Die projek is in die Letsemeng Plaaslike Munisipaliteit in die Vrystaat, sowat 50 km suidoos van Kimberley.

- Koördinate: 29°02'16.3"S 24°55'35.1"E

**Figuur 1:** Oorsig van projek gebied

## PROJEK AKTIWITEITE

Die projek sal die volgende aktiwiteite insluit:

- Konstruksie van battery energie stoor stelsel (BESS)
- Webwerf Vestiging
- Skoonmaak en grubbing
- Die installering van MV Cabling (ondergronds of oorhoofs) tussen die BESS en die PV-substasie.
- Installasie van omheining
- Toegangspaie

## WAT IS 'N BASIESE ASSESSERING?

'n Basiese assessering (BA) is 'n proses om inligting in te samel, te organiseer, te analiseer, te interpreteer en te kommunikeer wat relevant is vir die oorweging van 'n spesifieke omgewingstoepassing. BAs word onderneem waar die impak minder geneig is om 'n beduidende impak op die ontvangsomgewing te hê. BAs word deur beplanningsowerhede en ontwikkelaars gebruik om 'n onafhanklike en objektiewe siening van die potensiële omgewings- (biofisiese, ekologiese en sosiale) impakte te verkry wat tydens die konstruksie en werking van 'n voorgestelde ontwikkeling kan ontstaan. Hierdie inligting moet die Bevoegde Owerheid (CA) 'n goeie basis vir hul besluitneming verskaf. Omgewingsbestuur en versagtingsmaatreëls word ook deur die BA-proses geïdentifiseer.

## OMGEWINGSIMPAKSTUDIE PROSES

Die omgewingsimpakstudie vir die voorgestelde konstruksie van die BESS word uitgevoer in terme van die Nasionale Omgewingsbestuurswet, 1998 (Wet No. 107 van 1998) en sal die OIS-regulasies vereistes in ag neem soos vervat in Regaringskennisgewing No. R982 van 2014 soos afgekondig in die Omgewingsbestuurswet NEMA OIS Regulasies soos gewysig insluitend GN 326 in GG 40772 van 07 April 2017, wat wetgewende raamwerk bied vir OIS-aansoeke in Suid Afrika.

Een van die aktiwiteite geassosieer met die projek is geïdentifiseer as gelysde aktiwiteite in terme van die OIS Regulasies GNR983, 984 en GNR985.

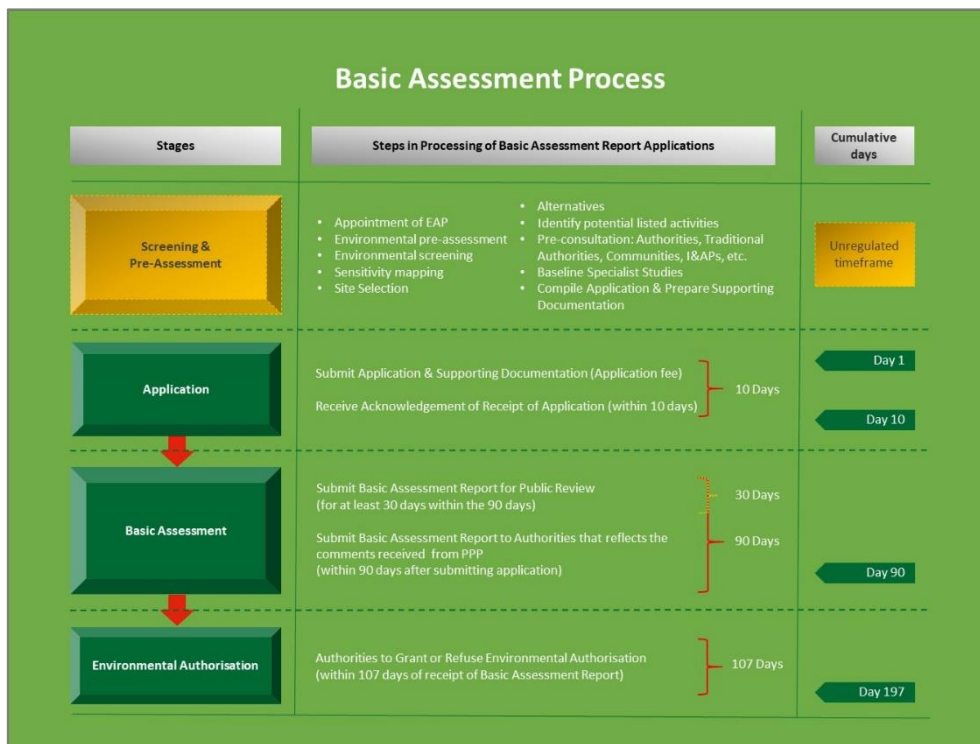

Die voorgestelde omgewingsimpakstudie OIS prosesse is hieronder uiteengesit:

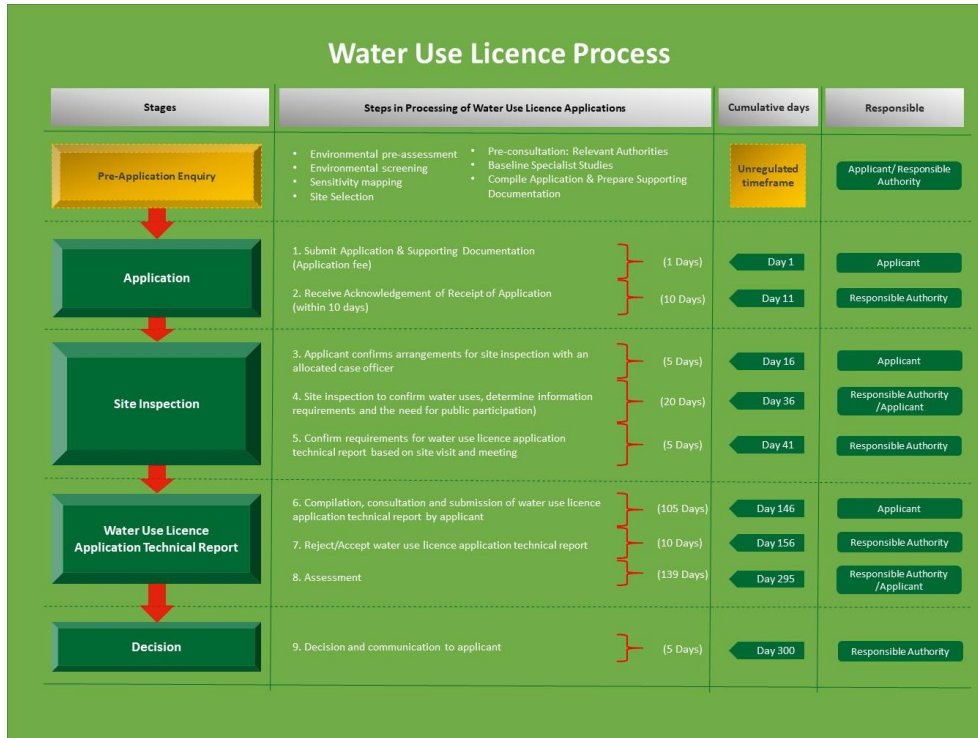

### GNR 983 Listing Notice 1 - Basic Assessment Report (BAR)

11.	The development of facilities or infrastructure for the transmission and distribution of electricity— (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts; or (ii) .. excluding the development of bypass infrastructure for the transmission and distribution of electricity where such bypass infrastructure is— (a) temporarily required to allow for maintenance of existing infrastructure (b) 2 kilometres or shorter in length (c) within an existing transmission line servitude; and (d) will be removed within 18 months of the commencement of development.
12.	The development of— a) <i>Infrastructure or structures with a physical footprint of 100 square metres or more;</i> where such development occurs— (a) <i>within a watercourse</i> (c) <i>if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse</i>
14	The development and related operation of facilities or infrastructure, for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80 cubic metres or more but not exceeding 500 cubic metres
19.	The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles, or rock of more than 10 cubic metres from a watercourse
27	The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.

28	Commercial developments where such land was used for agriculture purposes on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;
<b>GNR 985 Listing Notice 3 - Basic Assessment Report (BAR)</b>	
12	The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.  <b>b. Free State</b> <b>iv. Areas within a watercourse or wetland; or within 100 metres from the edge of a watercourse or wetland.</b>

Diagram wat OIS en watergebruikslisensie prosesse illustreer:

## GELEENTHEID OM DEEL TE NEEM

Belangstellendes en geaffekteerde partye (I&APs) word uitgenooi om rente as I&APs te registreer en/of kommentaar met betrekking tot die voorgestelde aansoek in te dien. Om kommentaar te registreer en/of in te dien, moet I&APs verwys na die projekttitel, volle naam, kontakbesonderhede, plus aanduiding van enige direkte besigheid, finansiële, persoonlike of ander belang, wat jy in hierdie aansoek ten volle beskryf het.

Dokumente sal beskikbaar wees by:

- <https://ncc-group.co.za/public-participation-overview/>
- Pulida Solar Park Kantore

Indien u wil registreer en / of kommentaar wil lewer as 'n belanghebbende en geaffekteerde party, voltooi asseblief die registrasie- en kommentaarvorm en keer teen 25th Julie 2022 terug

# Background Information Document (BID)

NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT 107 OF 1998, WATER USE LICENCE IN TERMS OF THE NATIONAL WATER ACT 36 OF 1998, AND HERITAGE PERMIT IN TERMS OF NATIONAL HERITAGE RESOURCES ACT NO. 25 OF 1999 FOR THE PROPOSED CONSTRUCTION OF THE PULIDA BATTERY ENERGY STORAGE SYSTEM (BESS) AND ASSOCIATED INFRASTRUCTURE, LETSEMENG LOCAL MUNICIPALITY, FREE STATE PROVINCE

## PURPOSE OF THIS DOCUMENT

This Background Information Document (BID) aims to provide:

- A brief background and introduction to the project.
- A brief motivation and description of the project.
- A brief description of the affected environment.
- A description of the EIA process.
- An invitation for public involvement throughout the EIA.

## PROJECT OVERVIEW

Pulida Energy (RF) (Proprietary) Limited (Pulida) plans to submit a tender for the retrofitting of a Battery Energy Storage System (BESS) to the existing Pulida Solar photovoltaic facility located in Letsemeng Local Municipality in the Free State province. Part of the submission requirements is an approved Environmental Authorisation (EA).

## ROLE PLAYERS

### APPLICANT

The applicant is the Pulida Energy (RF) (Pty) Ltd, a renewable energy company located in South Africa

### ENVIRONMENTAL PRACTITIONERS (EAP's)

NCC Environmental Services (Pty) Ltd (NCC), an independent environmental consultancy, has been appointed by Pulida Energy (RF) (Pty) Ltd to undertake the Environmental Impact Assessment (EIA) and associated Public Participation Process.

## PROJECT NEED AND DESIRABILITY

The general purpose and utilisation of a Battery Energy Storage System (BESS) is to save and store excess electrical output as it is generated, allowing for a timed release of electricity to the grid when the capacity is required. BESS systems therefore provide flexibility in the efficient operation of the electricity grid through decoupling of the energy supply and demand.

## PROJECT DESCRIPTION

The proposed Battery Energy Storage System (BESS) will be housed inside containers or similar structures with a total footprint of up to 4ha in extent. Both Lithium-ion and Redox-flow technology are being considered for the project, depending on which is most feasible at the time of implementation. Possible associated infrastructure includes:

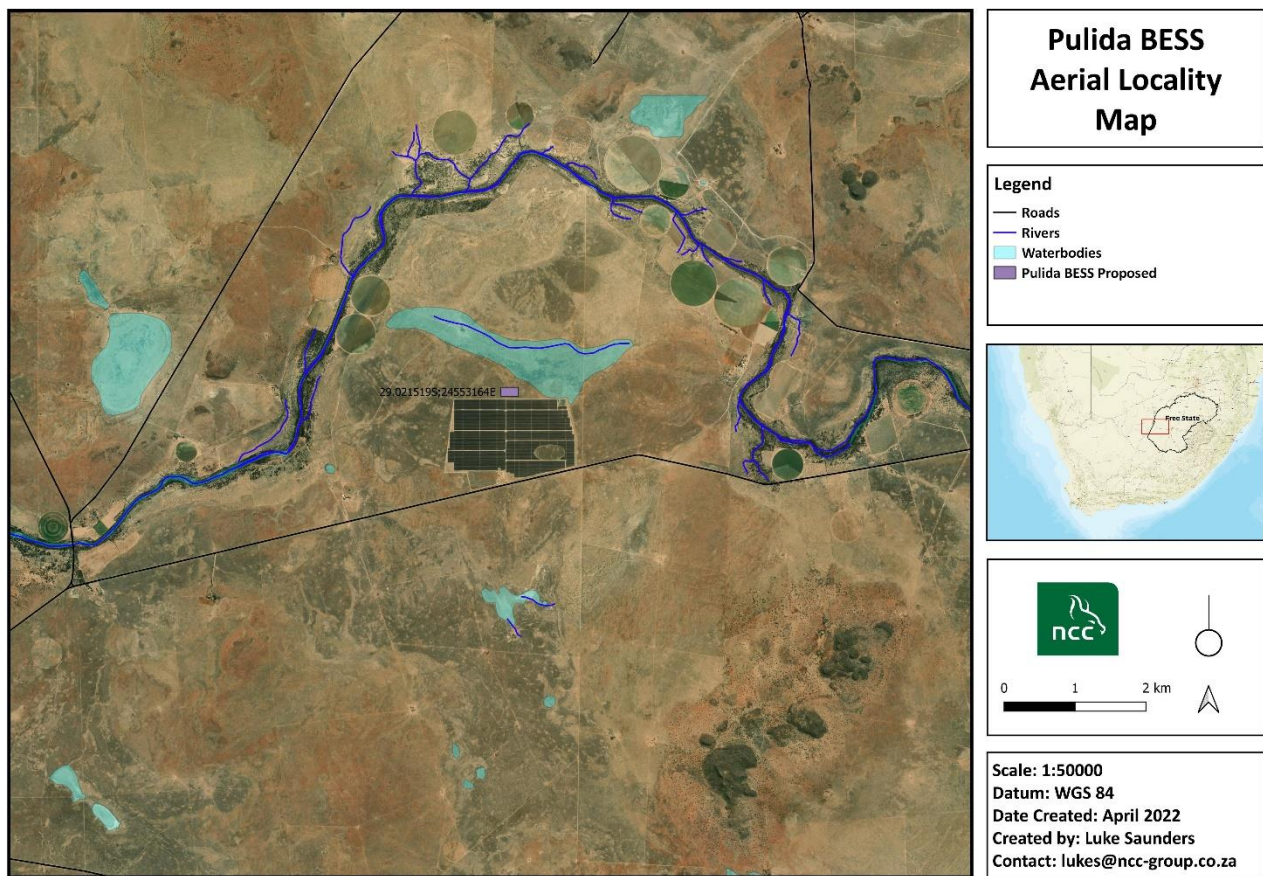

- A Substation with a maximum height of - HV busbar up to 10 m max and an HV Building up to 4 m max.
- Access road to the BESS (6m wide road surface with side ditch drainage on each side of the road) branching off existing roads, and internal roads (up to 8m wide) within the footprint of the BESS, as needed.
- MV Cabling (underground or overhead) between the BESS and the HV/MV BESS substation.

- HV Cabling (underground or overhead) between the HV/MV BESS substation and the HV substation
- Fencing around the BESS and the substation for increased security measures.
- Temporary laydown area within the 4ha footprint of the BESS.
- Possible firebreak around the BESS facility which is to be located within the 4ha BESS footprint.

## PROJECT LOCATION

The project is in the Letsemeng Local Municipality in the Free State province about 50 km southeast from Kimberley.

- Co-ordinates: 29°02'16.3"S 24°55'35.1"E

**Figure 1:** Overview of project location

## PROJECT ACTIVITIES

The project will include the following activities:

- Construction of Battery Energy Storage System (BESS)
- Site Establishment
- Clearing and Grubbing
- Installing of MV Cabling (underground or overhead) between the BESS and the PV substation.
- Installation of fencing
- Access Roads

## WHAT IS A BASIC ASSESSMENT?

A Basic Assessment (BA) is a process of collecting, organising, analysing, interpreting and communicating information that is relevant for the consideration of a particular environmental application. BAs are undertaken where the impacts are less likely to have significant impacts on the receiving environment. BAs are used by planning authorities and developers to obtain an independent and objective view of the potential environmental (biophysical, ecological and social) impacts that could arise during the construction and operation of a proposed development. This information needs to provide the Competent Authority (CA) with a sound basis for their decision-making. Environmental management and mitigation measures are also identified through the BA process.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

The Environmental Impact Assessment (EIA) for the proposed construction the BESS is being conducted in terms of the National Environmental Management Act, 2008 (Act No 107 of 1998) and will take into consideration the regulatory requirements as per the EIA Regulations contained in Government Notice (GN) No. R982 of 2014 as promulgated in terms of the NEMA [“EIA Regulations”] as amended up to and including GN 326 in GG 40772 of 07 April 2017, which provides the legislative framework for EIA applications in South Africa.

One activity associated with the project have been identified as listed activities in terms of the EIA Regulations GN. R983, R984 and GN. R985.

The proposed EIA Processes is outlined below:

### GNR 983 Listing Notice 1 - Basic Assessment Report (BAR)

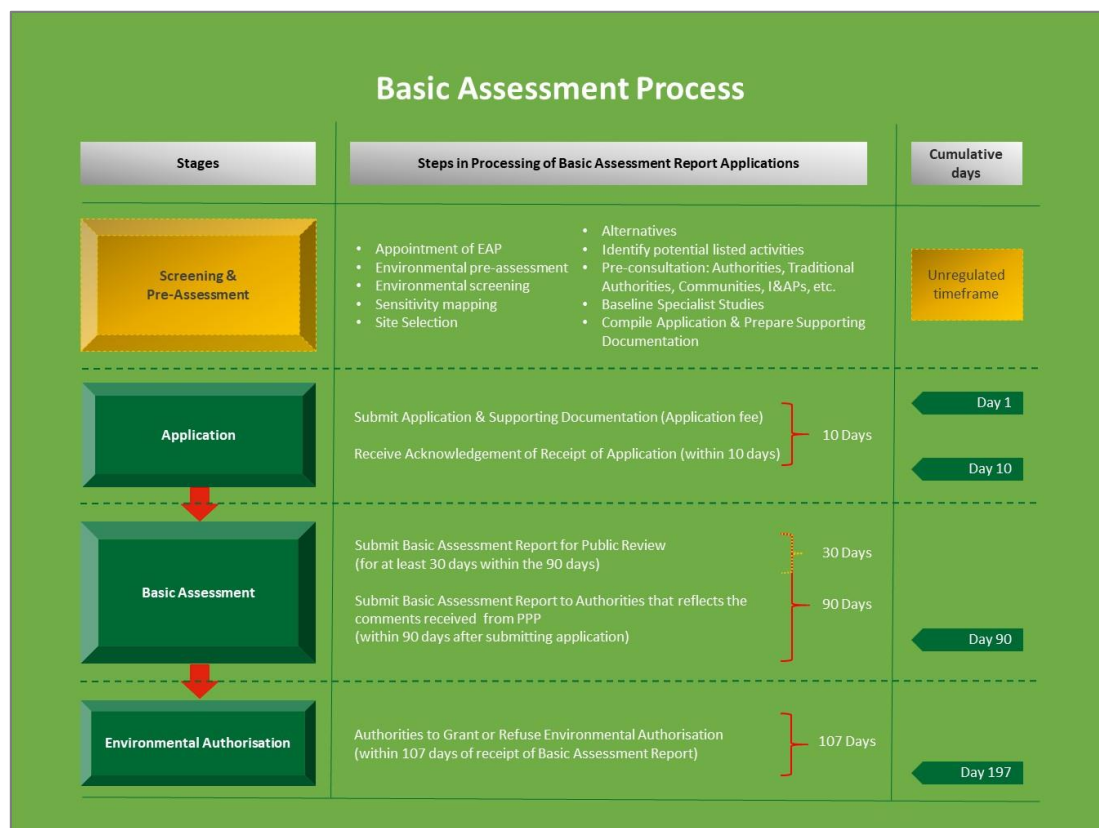

11	<p>The development of facilities or infrastructure for the transmission and distribution of electricity—</p> <ul style="list-style-type: none"> <li>(i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts; or</li> <li>(ii) ..</li> </ul> <p>excluding the development of bypass infrastructure for the transmission and distribution of electricity where such bypass infrastructure is—</p> <ul style="list-style-type: none"> <li>(a) temporarily required to allow for maintenance of existing infrastructure</li> <li>(b) 2 kilometres or shorter in length</li> <li>(c) within an existing transmission line servitude; and</li> <li>(d) will be removed within 18 months of the commencement of development.</li> </ul>
12.	<p>The development of—</p> <ul style="list-style-type: none"> <li>(ii) Infrastructure or structures with a physical footprint of 100 square metres or more;</li> </ul> <p>where such development occurs—</p>

	(a) within a watercourse (c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse
14	The development and related operation of facilities or infrastructure, for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80 cubic metres or more but not exceeding 500 cubic metres
19.	The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse
27	The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.
28	Commercial developments where such land was used for agriculture purposes on or after 01 April 1998 and where such development:  (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;

### GNR 985 Listing Notice 3 - Basic Assessment Report (BAR)

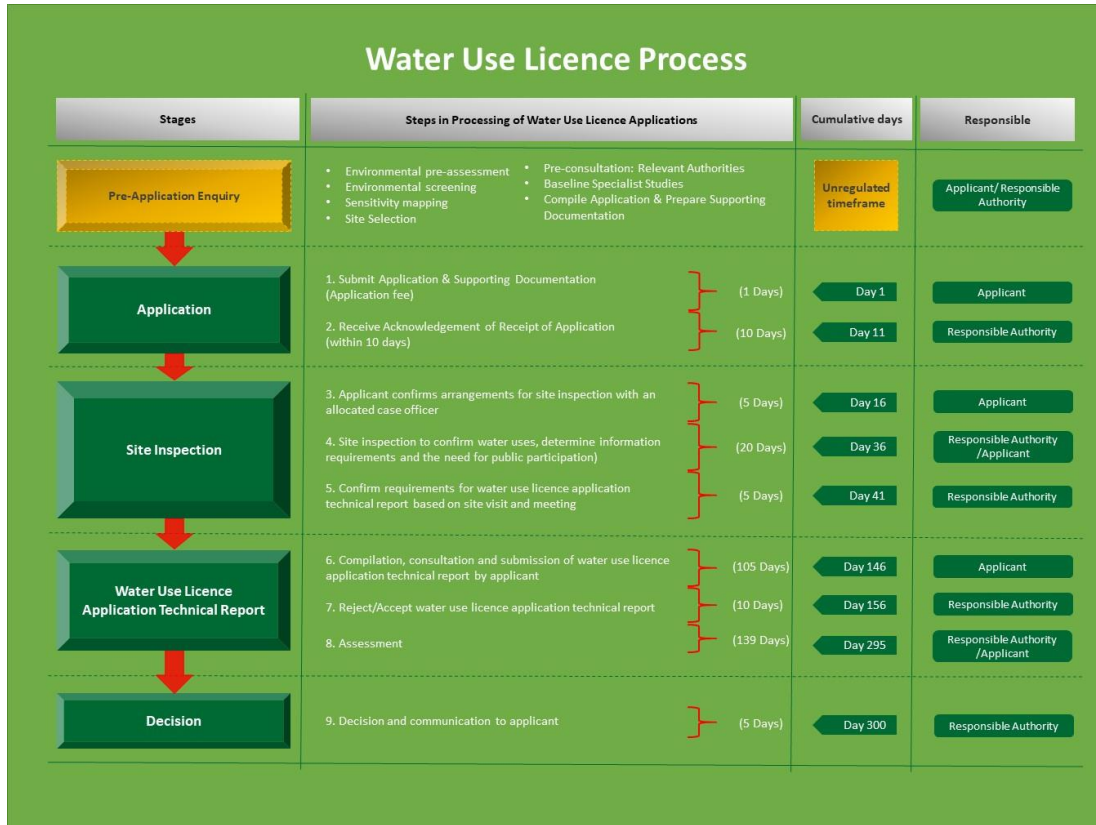

12	The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.  <b>b. Free State</b> <b>iv. Areas within a watercourse or wetland; or within 100 metres from the edge of a watercourse or wetland.</b>
----	--

The EIA and WUL Processes is outlined below:

## Water Use Licence Process

## OPPORTUNITY TO PARTICIPATE

Interested and Affected Parties (I&APs) are invited to register interest as I&APs and/or submit comment with regards to the proposed application.

To register and/or submit comment, I&APs must reference the project title, full name, contact details, plus indication of any direct business, financial, personal, or other interest, you may have in this application described in full.

Documents will be available at:

- <https://ncc-group.co.za/public-participation-overview/>
- Pulida Solar Park Offices

- 'N Beskrywing van die OIE-proses.
- 'n Uitnodiging vir openbare betrokkenheid regdeur die OIE.

## PROJEK OORSIG

Pulida Energy (RF) (Proprietary) Limited (Pulida) beplan om 'n tender vir die terugwerking van 'n batteryenergiebergingstelsel (BESS) by die bestaande Pulida Solar-fotovoltaïese fasiliteit in die Letsemeng Plaaslike Munisipaliteit in die Vrystaat in te dien. Deel van die indieningsvereistes is 'n goedgekeurde Omgewingsmagtiging (EA).

## ROLSPELERS

### AANSOEKER

Die aansoeker is die Pulida Energy (RF) (Edms) Bpk, 'n hernubare-energiemaatskappy in Suid-Afrika.

### OMGEWINGSPRAKTISYNS (EAP's)

NCC Environmental Services (Pty) Ltd (NCC), 'n onafhanklike omgewingskonsultasie, is deur Pulida Energy (RF) (Edms) Bpk aangestel om die Omgewingsimpakstudie (OIE) en gepaardgaande Openbare Deelnameproses te onderneem.

## PROJEKBEHOEFTE EN WENSLIKHEID

Die algemene doel en benutting van 'n batteryenergiebergingstelsel (BESS) is om oortollige elektriese uitset te bespaar en te stoor soos dit gegenerereer word, wat voorsiening maak vir 'n tydige vrystelling van elektrisiteit aan die rooster wanneer die kapasiteit benodig word. BESS-stelsels bied dus buigsaamheid in die doeltreffende werking van die elektrisiteitsnetwerk deur die ont koppeling van die energievoorsiening en vraag.

## PROJEK BESKRYWING

Die voorgestelde Battery Energy Storage System (BESS) sal binne houers of soortgelyke strukture gehuisves word met 'n totale voetspoor van tot 4ha in omvang. Beide Litium-ioon- en Redox-vloeitegnologie word vir die projek oorweeg, afhangende van wat die haalbaarste is ten tyde van die implementering. Moontlike gepaardgaande infrastruktuur sluit in:

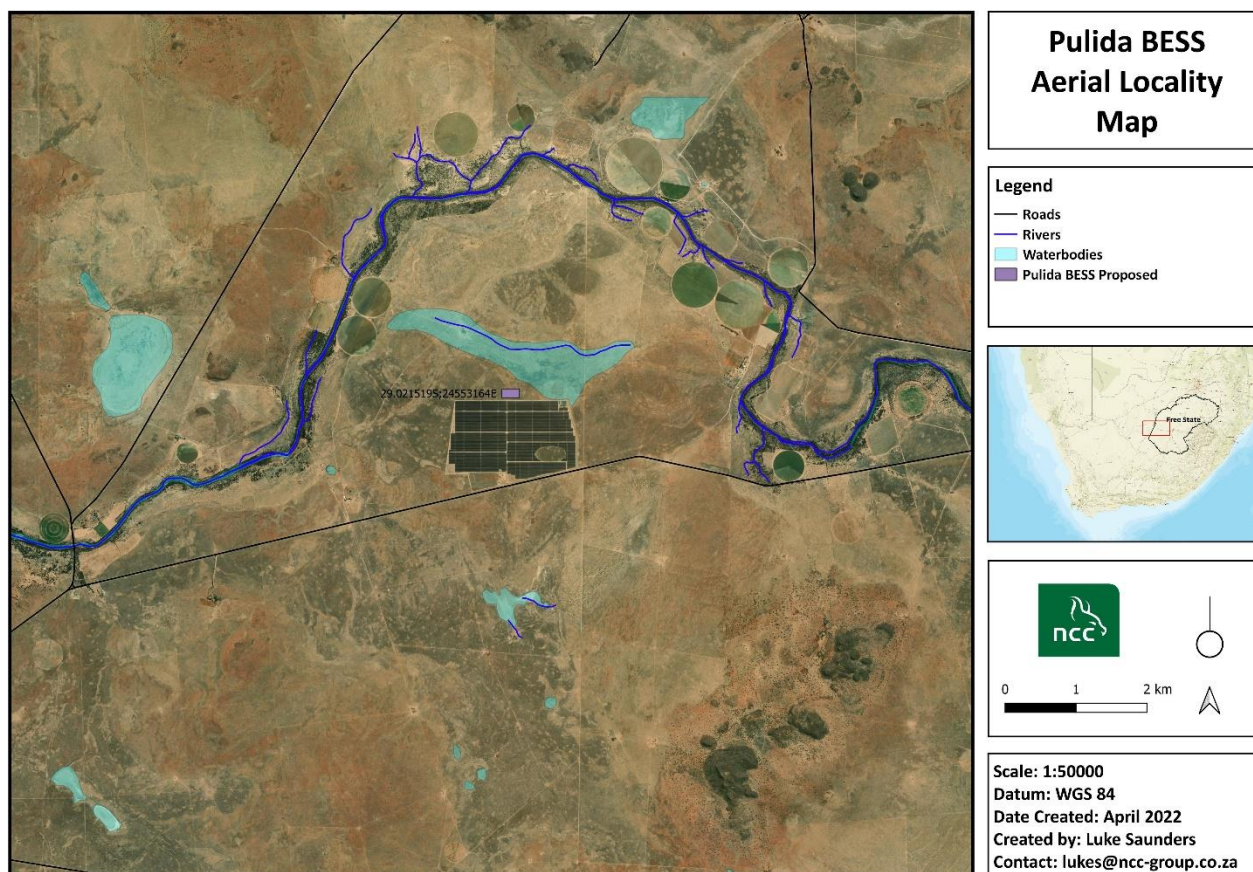

- 'N **Substasie** met 'n maksimum hoogte van - HV-busbalk tot 10 m maksimum en 'n HV-gebou tot 4 m maksimum.
- Toegangspad na die BESS (6m wye padoppervlak met sy sloot dreinerings aan elke kant van die pad) vertakking van bestaande paaie, en interne paaie (tot 8m breed) binne die voetspoor van die BESS, soos nodig.
- MV Cabling (ondergronds of oorhoofse) tussen die BESS en die HV / MV BESS substasie.

- HV Cabling (ondergronds of oorhoofs) tussen die HV / MV BESS substasie en die HV substasie Omheining rondom die BESS en die substasie vir verhoogde sekuriteitsmaatreëls.
- Tydelike afleggingsgebied binne die 4ha-voetspoor van die BESS.
- Moontlike brandbreek rondom die BESS-fasiliteit wat binne die 4ha BESS-voetspoor geleë is.

## PROJEK LIGGING

Die projek is in die Letsemeng Plaaslike Munisipaliteit in die Vrystaat, sowat 50 km suidoos van Kimberley.

- Koördinate: 29°02'16.3"S 24°55'35.1"E

**Figuur 1:** Oorsig van projek gebied

## PROJEK AKTIWITEITE

Die projek sal die volgende aktiwiteite insluit:

- Konstruksie van battery energie stoor stelsel (BESS)
- Webwerf Vestiging
- Skoonmaak en grubbing
- Die installering van MV Cabling (ondergronds of oorhoofs) tussen die BESS en die PV-substasie.
- Installasie van omheining
- Toegangspaie

## WAT IS 'N BASIESE ASSESSERING?

'n Basiese assessering (BA) is 'n proses om inligting in te samel, te organiseer, te analiseer, te interpreteer en te kommunikeer wat relevant is vir die oorweging van 'n spesifieke omgewingstoepassing. BAs word onderneem waar die impak minder geneig is om 'n beduidende impak op die ontvangsomgewing te hê. BAs word deur beplanningsowerhede en ontwikkelaars gebruik om 'n onafhanklike en objektiewe siening van die potensiële omgewings- (biofisiese, ekologiese en sosiale) impakte te verkry wat tydens die konstruksie en werking van 'n voorgestelde ontwikkeling kan ontstaan. Hierdie inligting moet die Bevoegde Owerheid (CA) 'n goeie basis vir hul besluitneming verskaf. Omgewingsbestuur en versagtingsmaatreëls word ook deur die BA-proses geïdentifiseer.

## OMGEWINGSIMPAKSTUDIE PROSES

Die omgewingsimpakstudie vir die voorgestelde konstruksie van die BESS word uitgevoer in terme van die Nasionale Omgewingsbestuurswet, 1998 (Wet No. 107 van 1998) en sal die OIS-regulasies vereistes in ag neem soos vervat in Regaringskennisgewing No. R982 van 2014 soos afgekondig in die Omgewingsbestuurswet NEMA OIS Regulasies soos gewysig insluitend GN 326 in GG 40772 van 07 April 2017, wat wetgewende raamwerk bied vir OIS-aansoeke in Suid Afrika.

Een van die aktiwiteite geassosieer met die projek is geïdentifiseer as gelysde aktiwiteite in terme van die OIS Regulasies GNR983, 984 en GNR985.

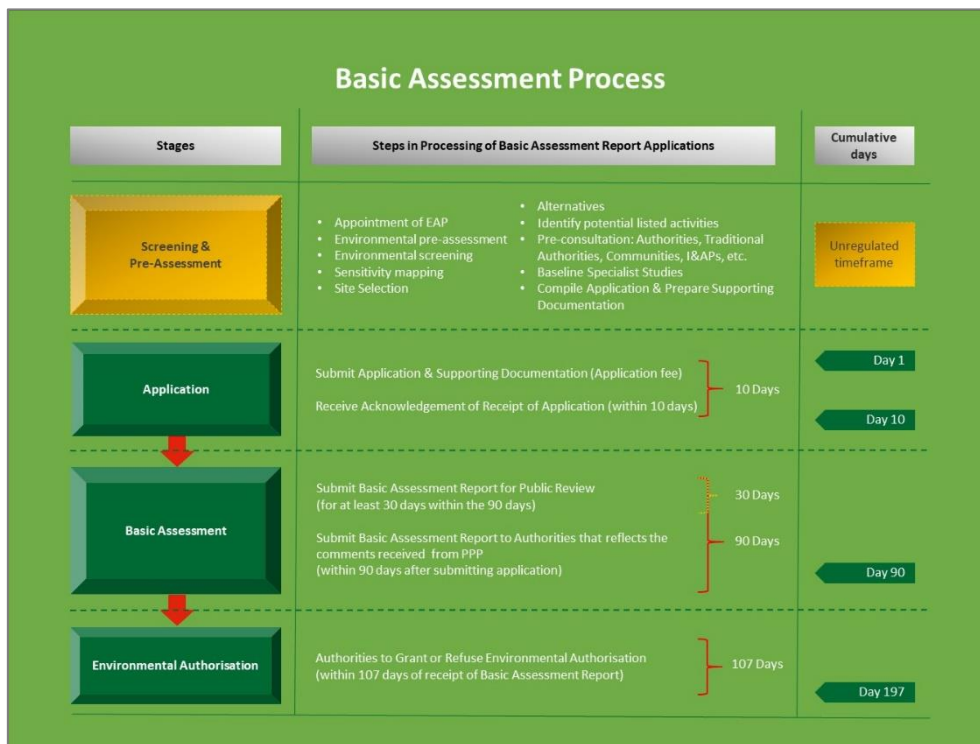

Die voorgestelde omgewingsimpakstudie OIS prosesse is hieronder uiteengesit:

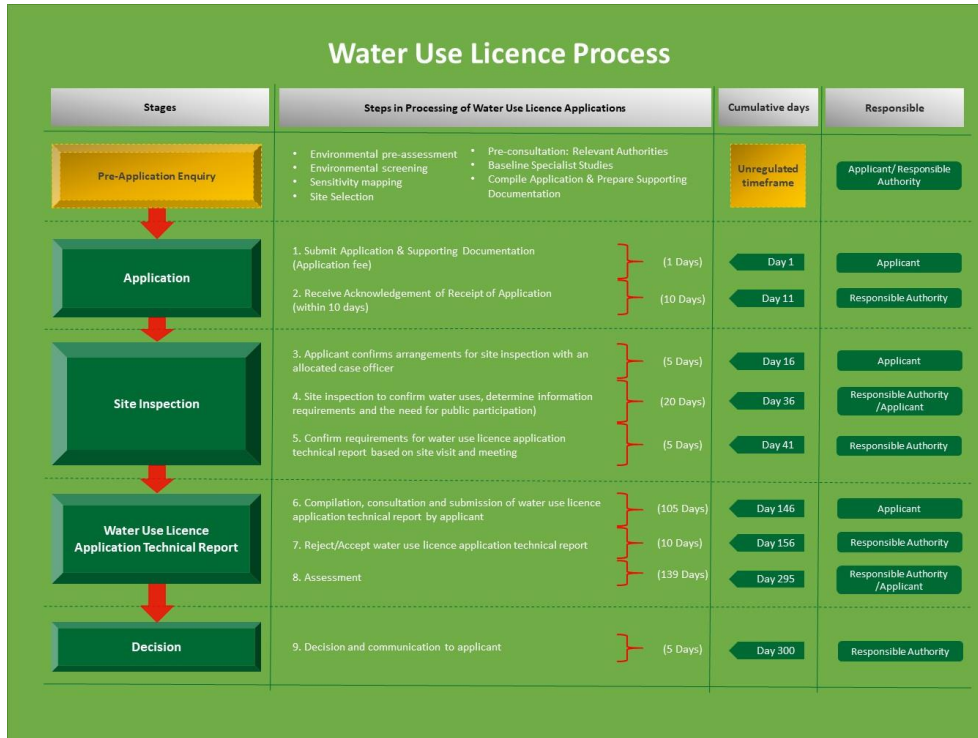

### GNR 983 Listing Notice 1 - Basic Assessment Report (BAR)

11.	The development of facilities or infrastructure for the transmission and distribution of electricity— (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts; or (ii) .. excluding the development of bypass infrastructure for the transmission and distribution of electricity where such bypass infrastructure is— (a) temporarily required to allow for maintenance of existing infrastructure (b) 2 kilometres or shorter in length (c) within an existing transmission line servitude; and (d) will be removed within 18 months of the commencement of development.
12.	The development of— <i>a) Infrastructure or structures with a physical footprint of 100 square metres or more;</i> where such development occurs— <i>(a) within a watercourse</i> <i>(c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse</i>
14	The development and related operation of facilities or infrastructure, for the storage, or for the storage and handling, of a dangerous good, where such storage occurs in containers with a combined capacity of 80 cubic metres or more but not exceeding 500 cubic metres
19.	The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles, or rock of more than 10 cubic metres from a watercourse
27	The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.

28	Commercial developments where such land was used for agriculture purposes on or after 01 April 1998 and where such development: (ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare;
<b>GNR 985 Listing Notice 3 - Basic Assessment Report (BAR)</b>	
12	The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.  <b>b. Free State</b> <b>iv. Areas within a watercourse or wetland; or within 100 metres from the edge of a watercourse or wetland.</b>

## GELEENTHEID OM DEEL TE NEEM

Belangstellendes en geaffekteerde partye (I&APs) word uitgenooi om rente as I&APs te registreer en/of kommentaar met betrekking tot die voorgestelde aansoek in te dien. Om kommentaar te registreer en/of in te dien, moet I&APs verwys na die projekttitel, volle naam, kontakbesonderhede, plus aanduiding van enige direkte besigheid, finansiële, persoonlike of ander belang, wat jy in hierdie aansoek ten volle beskryf het.

Dokumente sal beskikbaar wees by:

**ADVERTISER NEWS**

**Determining three winners at draw**

**Outdoors in the Diamond Pavilion Mall Kimberley held a Father's Day Competition in cooperation with the mall. On Tuesday (21/06) the names of three persons who entered the competition were drawn in the store. The winner and two runners-up will each win a high quality prize from Outdoors, with a total value of R5 000. At the draw are Jacques Cilliers (store manager), Philadelphia Pabi (marketing Diamond Pavilion Mall) and Yente Labuschagne (auditor).** PHOTO: HELENA BARNARD

**Health train visits NC**

The Phelophepa Healthcare Train has brought some relief to communities who do not have access to medical care. The train arrived in Kimberley early in June and later departed for Upington and De Aar.

The roaming medical facility offers various types of health care, such as dentistry, optometry, pharmacy and psychology.

The 450 m long train, housing a corporate social investment (CSI) project of Transnet with assistance from the Department of Health, travels year-round across the country – spending eight weeks in each province. The project was started in 1994.

The mobile hospital was flooded by community members in urgent need of medical care while it was parked at the Kimberley station. Some of its medical units received visits from, on average, between 100 and 120 patients a day.

Patients, who were issued with ticket numbers, arrived from surrounding areas in the early hours of the morning – while some slept at the station the night before to ensure their place in the queue.

Services at all medical units were facilitated by students doing their practical work, under the supervision of the resident

**Pharmacy translator Ronald Ngubane accepts medicine to be handed to a patient. He speaks six languages – English, Afrikaans, Zulu, Tswana, Xhosa and Sotho.** PHOTO: EMILE HENDRICKS

staff members.

The 19-coach train generates its own power. Half of it is used for clinical purposes, while the other half is used for storage and accommodation for personnel.

**SOUTH AFRICAN NATIONAL PARKS  
ADMINISTRATION & FINANCE MANAGER:  
ARID REGION  
PATERSON GRADING: D2  
SALARY SCALE: R 458 041.19 – 742 703.80  
K GALAGADI TRANSFRONTIER PARK  
CLOSING DATE: 4 JULY 2022**

A challenging vacancy exists for a dynamic, team-orientated and highly motivated Administration & Finance Manager for the Arid Region comprising of Kgalagadi Transfrontier Park, Augrabies Falls, Meerkat, Mokala, Namaqua and Richtersveld. Stationed at Kgalagadi Transfrontier Park, reporting to the Park Manager of Kgalagadi. The successful candidate will be closely involved with the implementation and maintenance of sound Financial, Administration and Human Resources systems, policies and procedures within the different operational units of the Region.

**Specific responsibilities:**

- Support the Regional Manager and Park Manager to draft operational plans for the Region and Parks.
- Coordinating the budgets for the region.
- Ensure effective, efficient and accurate administration of finance functions within the region
- Adhere to corporate deadlines.
- Ensure compliance with procedures and policies
- Ensure that the region is audit ready.
- Provide training to the admin and finance officials within the region.
- To plan, implement and direct day to day financial accounting functions
- Responsible for an accounting system that is sufficient to provide timely and accurate financial reports in order to assist management to perform their responsibilities.
- To enhance, implement and enforce internal controls, policies and procedures of the organization so that it improves the overall operation and effectiveness of the region and safeguarding assets.
- To administer payroll activities in line with HCM guidelines.
- To maintain an appropriate SCM process to realize a cost effective procurement system.

**Requirements:**

- Be in possession of a Bachelor's degree in Finance, or Accounting or equivalent registration.
- Registration with a professional body will be an added advantage (SAIPA, CIMA, SAICA).
- 5 Years of relevant working experience
- A working knowledge of all relevant legislation, PFMA, general financial and human resources policies, guidelines and practices.
- Computer literate – knowledge of MS Great Plains will be an advantage, Microsoft Office, specifically Excel.
- Excellent communication skills
- Valid driver's license

**Please forward a copy of CV, Covering letter, Certified copy of ID, Driver's License and Certified copies of relevant qualifications to the following address:**  
Kgalagadi Transfrontier Park

**PROJECT DESCRIPTION**

A Basic Assessment and Water Use Authorisation process is required in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) and with EIA Regulations, 2014 (as amended), and National Water Act 36 Of 1998 for the proposed a Battery Energy Storage System (BESS) and associated infrastructure; which includes the clearing of vegetation, placement of MV cabling and access road in a water course, construction of an access road, and associated activities in the Letsemeng Local Municipality, Free State Province.

The project consists of:

- Conducting a basic assessment process, environmental management plan and relevant specialist studies in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) with EIA Regulations 2014 (as amended).
- Conducting a water use licence application in terms of the National Water Act, 1998 (Act No. 36 of 1998) in terms of Section 21.
- Application for a Notice of Intent to Development in terms of the National Heritage Resource Act 1999 (Act No. 25 of 1999)

**LISTED ACTIVITIES**

The listed activities applied for in respect of the Environmental Impact Assessment Regulations, 2014 include:

- **GN R.983: Activities:**  
11, 12, 14, 19, 27, 28(ii)
- **GN R.985: Activities:**  
12(b)(iv)

The proposed development might require the following applications to be submitted to the respective competent authorities.

- Water Use Licence Application in terms of Section 21 of the National Water Act, 1998 (Act No. 36 of 1998).
- Heritage permit under Section 38(1) of National Heritage Resources Act, 1999 (Act No. 25 of 1999) (Submitted and received)

**NOTICE OF PUBLIC PARTICIPATION PROCESS**

Members of public are invited to register interest as an Interested & Affected Party (I&AP) and submit comment with regards to the proposed application.

Only registered I&APs will be notified during the remainder of the public participation process. In order to register and/or submit comment, I&APs must

- Respond to contact details provided below.
- Respond by submitting your name, contact details (address, telephone number, fax number and/or email address) and interests with regard to the project.

Please make use of the **Pulida BESS 2022-01-0007** in all correspondence **by 25<sup>th</sup> July 2022** to the person at the address below.

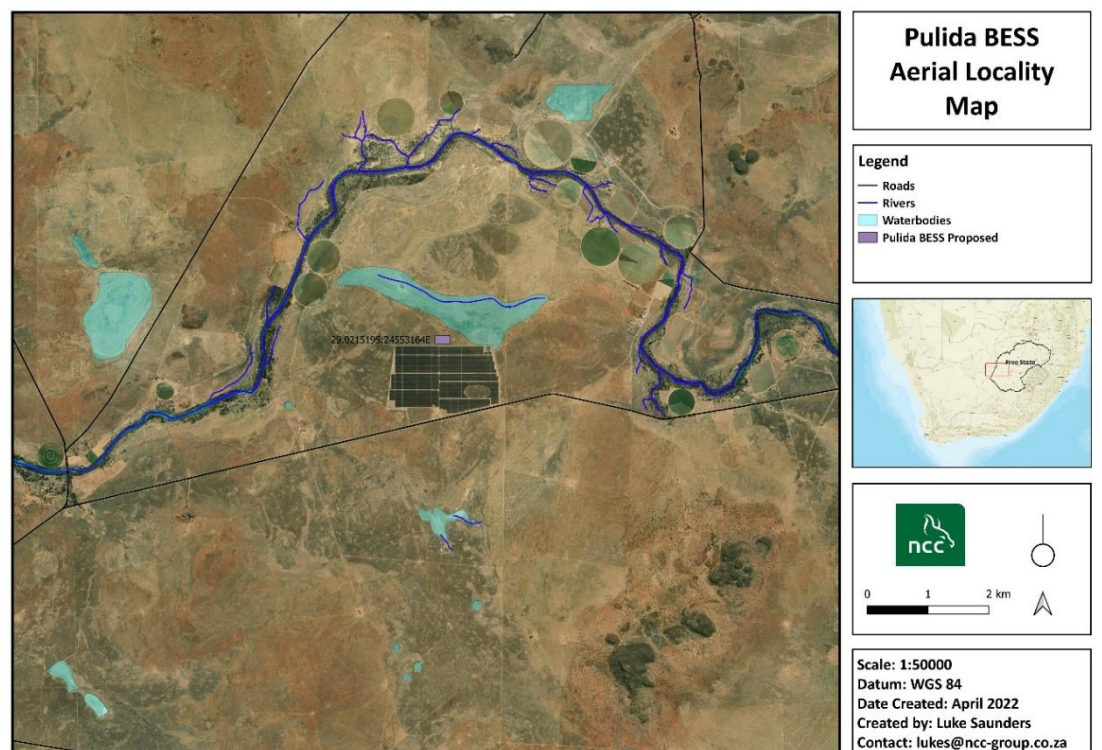

I&APs have 30-days to register and provide comments in the public participation process, ending Monday 25<sup>th</sup> July 2022.

**CONTACT DETAILS AND REPORT AVAILABILITY**

A copy of the First Draft Basic Assessment Report is available on request using the contact details below.

The document will be available:

ON:	FROM:	AVAILABLE AT:

**KENNISGEWING VAN AANSOEK OM OMGEWINGSMAGTIGING INGEVOLGE DIE WET OP NASIONALE OMGEWINGSBESTUUR 107 VAN 1998, WATERGEBRUIKSLISENSIE INGEVOLGE DIE WET OP NATIONALE WATER 36 VAN 1998, EN ERFENISVERLENING INGEVOLGE WET OP NATIONALE ERFHULPBRONNE 25 VAN 1999 VIR DIE VOORGESTELDE ONTWIKKELING VAN 'N PULIDA BATTERY ENERGIE STOOR STELSEL (BESS) EN GEPAARDGAANDE INFRASTRUKTUUR, LETSEMENG LOCAL MUNISIPALITEIT, VRYSTAAT PROVINSIE**

<b>PROJEK AARD:</b>	Die voorgestelde konstruksie van 'n batteryenergiebergingsstelsel (BESS) en gepaardgaande infrastruktuur wat die volgende insluit: <ul style="list-style-type: none"> <li>• 'N Substasie met 'n maksimum hoogte van - HV-busbalk tot 10 m maksimum en 'n HV-gebou tot 4 m maksimum. Toegangspad na die BESS (6m wye padoppervlak met sy sloot dreinerings aan elke kant van die pad) vertakking van bestaande paaie, en interne paaie (tot 8m breed) binne die voetspoor van die BESS, soos nodig.</li> <li>• MV Cabling (ondergronds of oorhoofse) tussen die BESS en die HV / MV BESS substasie.</li> <li>• HV Cabling (ondergronds of oorhoofse) tussen die HV / MV BESS substasie en die HV substasie</li> <li>• Omheining rondom die BESS en die substasie vir verhoogde sekuriteitsmaatreëls.</li> <li>• Tydelike afleggingsgebied binne die 4ha-voetspoor van die BESS.</li> <li>• Moontlike brandbreek rondom die BESS-fasiliteit wat binne die 4ha BESS-voetspoor geleë moet wees</li> </ul>
<b>AANSOEKER:</b>	Pulida Energy (RF) (Pty) Ltd
<b>LIGGING:</b>	Farm Klipdrift No. 20 Ptn. Remainder
<b>HOOF EAP:</b>	NCC Environmental Services (PTY) Ltd.

**PROJEK BESKRYWING**

'n Basiese assesserings- en watergebruiklisensieproses word vereis ingevolge die Nasionale Omgewingsbestuurswet, 1998 (Wet No. 107 van 1998) en met OIS-regulasies, 2014 (soos gewysig), en die Nasionale Waterwet 36 van 1998 vir die voorgestelde ontwikkeling van 'n nuwe Batteryenergiebergingsstelsel (BESS) en gepaardgaande infrastruktuur; wat insluit die skoonmaak van plantegroei, plasing van MV-kajuit- en toegangstaaf in 'n waterkursus, die bou van 'n toegangspad en gepaardgaande aktiwiteite in die Letsemeng Plaaslike Munisipaliteit, Vrystaat.Provinsie.

Die projek bestaan uit:

- Die uitvoering van 'n basiese assesseringsproses, omgewingsbestuursplan en toepaslike spesialisstudies in terme van die Wet op Nasionale Omgewingsbestuur, 1998 (Wet No. 107 van 1998) met die OIS-regulasies 2014 (soos gewysig).
- Die uitvoering van 'n lisensie-aansoek vir watergebruik ingevolge die Nasionale Waterwet, 1998 (Wet No. 36 van 1998) in terme van Artikel 21.
- Aansoek om 'n kennisgewing van voorneme vir ontwikkeling ingevolge die Wet op die Nasionale Erfenishulpbron 1999 (Wet No. 25 van 1999).

**GELYSSTE AKTIWITEITE**

Die gelyste aktiwiteite waarvoor aansoek gedoen word met betrekking tot die regulasies vir die evaluering van omgewingsimpak, 2014, sluit in:

- **GNR.983: Aktiwiteite:**  
11, 12, 14, 19, 27, 28(ii)
- **GNR.985: Aktiwiteite:**  
12(b)(iv)

Die voorgestelde ontwikkeling kan vereis dat die volgende aansoeke by die betrokke bevoegde owerhede ingedien word

- Aansoek om lisensie vir watergebruik ingevolge artikel 21 van die Nasionale Waterwet, 1998 (Wet No. 36 van 1998).
- Erfenispermit ingevolge artikel 38 (1) van die Wet op Nasionale Erfenishulpbronne, 1999 (Wet No. 25 van 1999) (ingedien en ontvang).

**KENNISGEWING VAN OPENBARE DEELNAMEPROSES**

Lede van die publiek word uitgenooi om belangstelling as 'n Belangstellende en Geaffekteerde Party (**I&AP**) te registreer en kommentaar met betrekking tot die voorgestelde aansoek in te dien.

Slegs geregistreerde I&APs sal tydens die res van die openbare deelnameproses in kennis gestel word. Ten einde kommentaar te registreer en/of in te dien, moet I&APs

- Reageer op kontakbesonderhede wat hieronder verskaf word.
- Reageer deur jou naam, kontakbesonderhede (adres, telefoonnommer, faksnommer en/of e-posadres) en belangstellings met betrekking tot die projek in te dien.

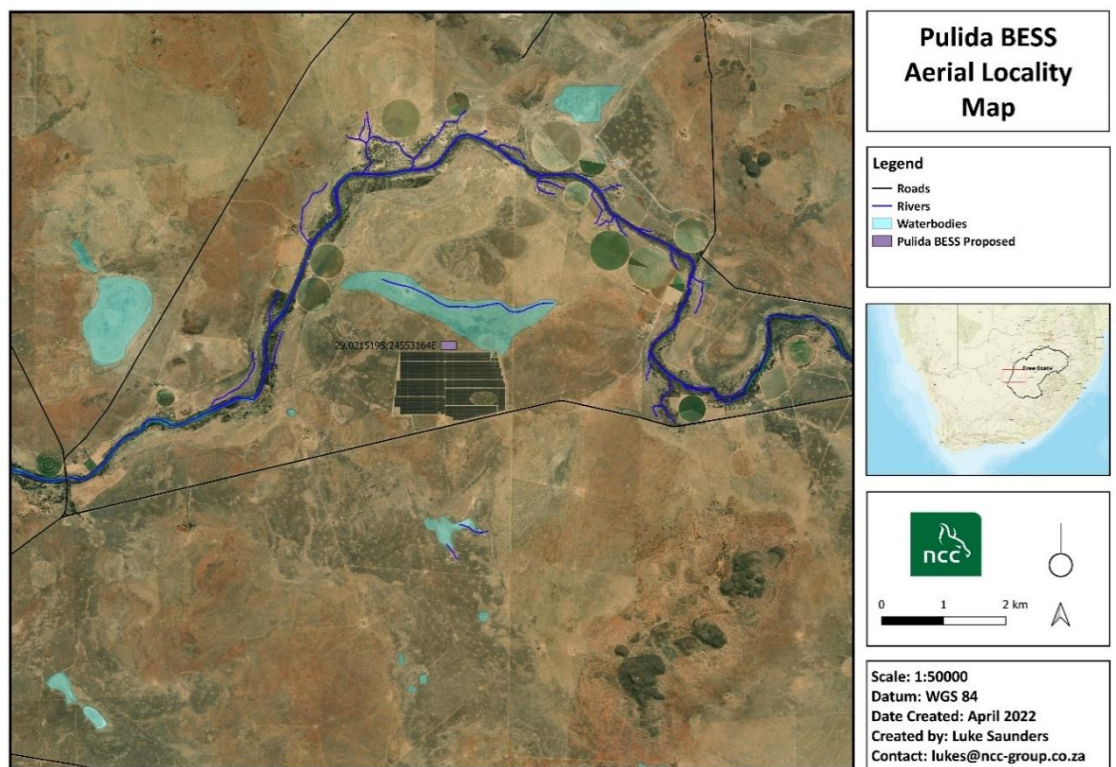

Maak asseblief gebruik van die **Pulida BESS 2022-01-0007** in alle korrespondensie deur nie later nie as **25<sup>th</sup> Julie 2022** aan die persoon by die adres hieronder.

APs het 30 dae om te registreer en kommentaar te lewer in die openbare deelnameproses, wat Maandag 25 Julie 2022 eindig.

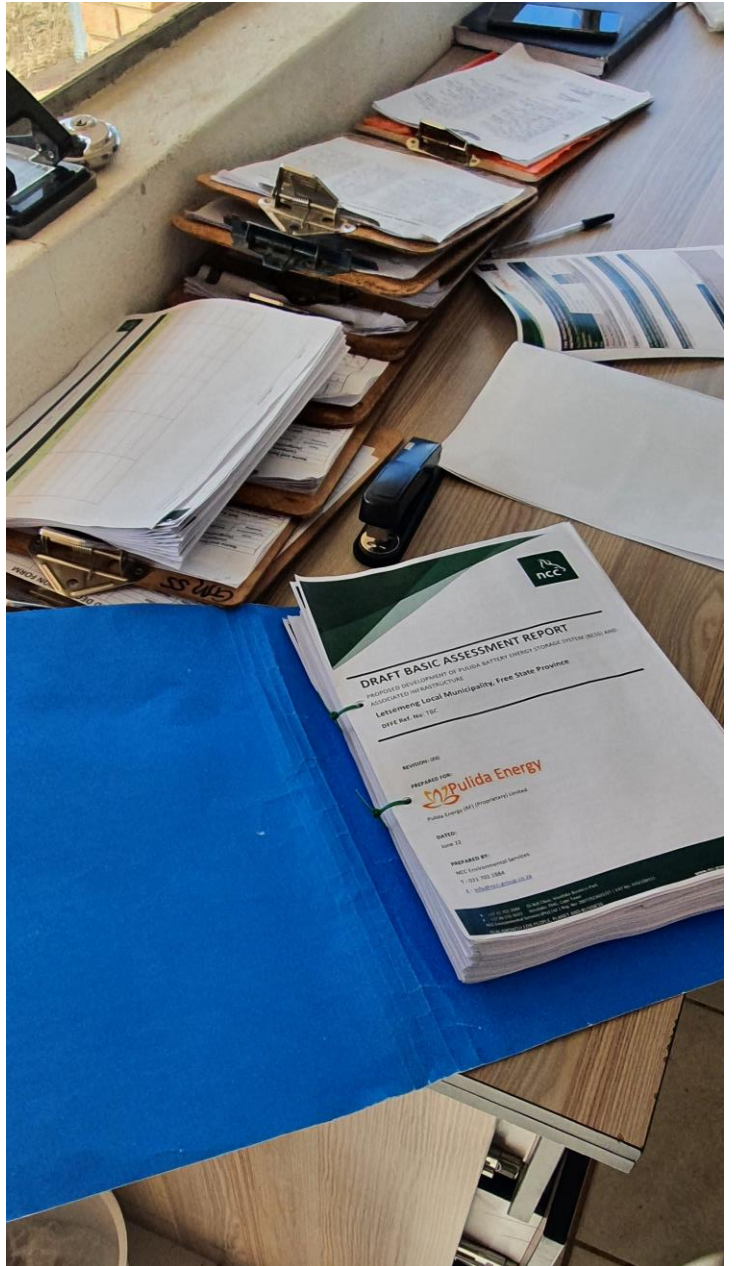

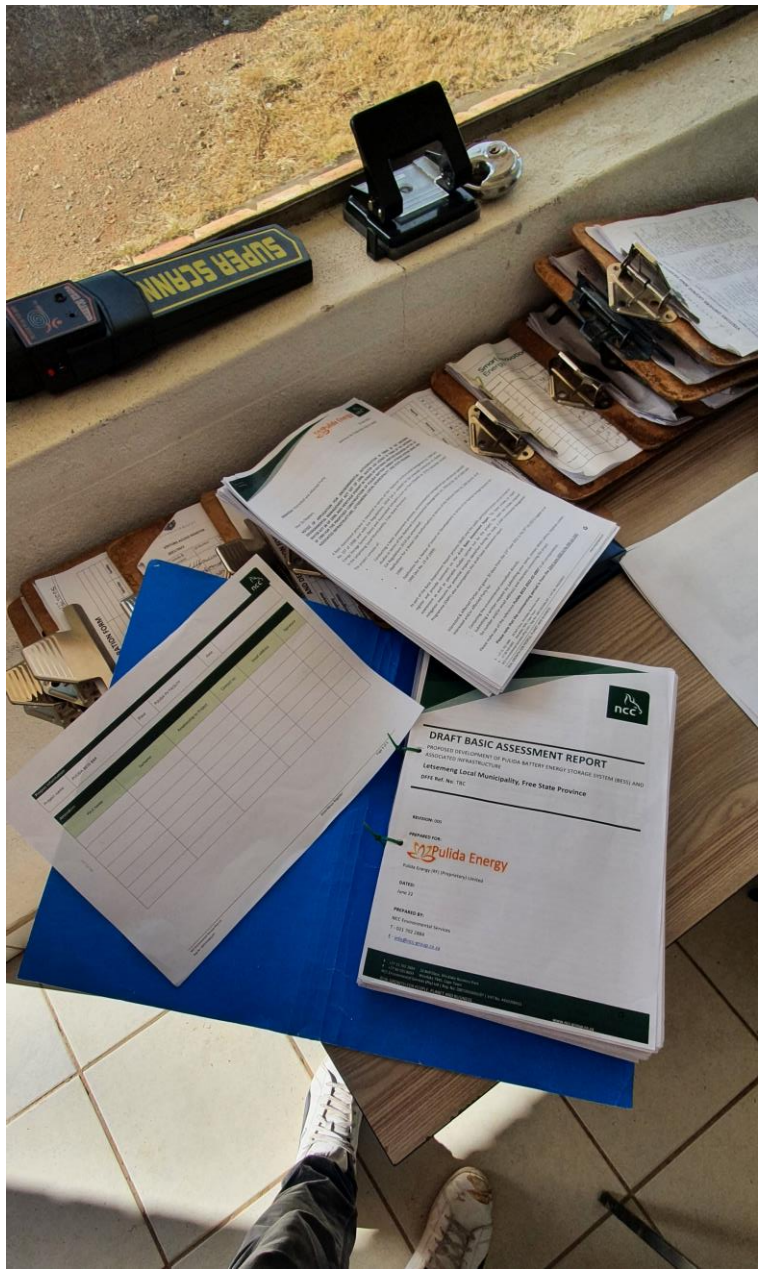

**KONTAK BESONDERHEDE EN VERSLAG BESIKBAARHEID**

'n Afskrif van die eerste konsep-basiese assesseringsverslag sal op aanvraag beskikbaar wees deur die kontakbesonderhede hieronder te gebruik.

## Appendix G4 – Written Letter

24 June 2022

Reference No: 14/12/16/3/3/1/2574

**Attention:** Interested and Affected Party

Dear Sir/Madam,

**NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT 107 OF 1998, WATER USE LICENCE IN TERMS OF THE NATIONAL WATER ACT 36 OF 1998, AND HERITAGE PERMIT IN TERMS OF NATIONAL HERITAGE RESOURCES ACT NO. 25 OF 1999 FOR THE PROPOSED CONSTRUCTION OF PULIDA BATTERY ENERGY STORAGE SYSTEM (BESS) AND ASSOCIATED INFRASTRUCTURE, LETSEMENG LOCAL MUNICIPALITY, FREE STATE PROVINCE**

A Basic Assessment process is required in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) and with EIA Regulations, 2014 (as amended) for the proposed construction of a Battery Energy Storage System (Bess) and Associated Infrastructure on Farm Klipdrift No. 20 Ptn. Remainder, located in the Letsemeng Local Municipality, Free State Province.

The project consists of:

- Conducting a basic assessment process, environmental management plan and relevant specialist studies in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) with EIA Regulations 2014 (as amended).
- Application for a Water Use Authorisation in terms of the National Water Act, 1998 (Act No. 36 of 1998)
- Application for a Notice of Intent to Development in terms of the National Heritage Resource Act 1999 (Act No. 25 of 1999)

As part of the Basic Assessment Report process (BAR) and the public participation process, you are invited to register and provide comment on the draft **Basic Assessment Report**. This report includes an impact assessment as well as specialist studies carried out for the project. The report also includes proposed mitigation measures for potential impacts identified during the study. A draft Environmental Management Programme (EMPr) also accompanies this draft basic assessment report.

Interested & Affected Parties are given 30 days from the 24<sup>th</sup> June 2022 to the 25<sup>th</sup> July 2022 to register as an Interested and/or Affected Party by:

- Contacting the environmental consultant directly.
- Submitting a written request by submitting your name, contact details (address, telephone number, fax number and/or email address) and interests concerning the project.

Please make use of the reference **14/12/16/3/3/1/2574** in all correspondence.

**Please note that the commenting period is from 24<sup>th</sup> June 2022 to the 25<sup>th</sup> July 2022**

Accompanying this letter are the following:

- Background Information Document (BID)
- Registration and Comments Form

The BID provides a broad overview of the proposed project and the environmental impact assessment process, and the registration and comments form provide a space to registered as a Interested & Affected party and provide comment.

The Registration and Comments Form also provides details where all information can be accessed, and registration/comments forms can be submitted.

Regards

## Vir Aandig: Belanghebbende en geaffekteerde partye

Geagte Meneer/Mevrou,

### **KENNISGEWING VAN AANSOEK OM OMGEWINGSMAGTIGING INGEVOLGE DIE WET OP NASIONALE OMGEWINGSBESTUUR 107 VAN 1998, WATERGEBRUIKSLISENSIE INGEVOLGE DIE NASIONALE WATERWET 36 VAN 1998, EN ERFENISPERMIT INGEVOLGE DIE WET OP NASIONALE ERFENISHULPBRONNE NO. 25 VAN 1999 VIR DIE VOORGESTELDE KONSTRUKSIE VAN PULIDA BATTERYENERGIEBERGINGSTELSEL (BESS) EN GEPAARDGAANDE INFRASTRUKTUUR, LETSEMENG PLAASLIKE MUNISIPALITEIT, VRYSTAAT PROVINSIE**

'n Basiese assesseringsproses word vereis ingevolge die Nasionale Omgewingsbestuurswet, 1998 (Wet No. 107 van 1998) en met OIS-regulasies, 2014 (soos gewysig), vir voorgestelde konstruksie van 'n Battery Energie Stoor Stelsel (Bess) en Geassosieerde Infrastruktuur op Plaas Klipdrift No. 20 Ptn. Restant, geleë in die Letsemeng Plaaslike Munisipaliteit, Vrystaat Provinsie.

Die projek bestaan uit:

- Die uitvoering van 'n basiese assesseringsproses, omgewingsbestuursplan en toepaslike spesialisstudies in terme van die Wet op Nasionale Omgewingsbestuur, 1998 (Wet No. 107 van 1998) met die OIS-regulasies 2014 (soos gewysig).
- Aansoek om 'n Watergebruik magtiging ingevolge die Nasionale Waterwet, 1998 (Wet No. 36 van 1998)
- Aansoek om 'n kennisgewing van voorneme vir ontwikkeling ingevolge die Wet op die Nasionale Erfenishulpbron 1999 (Wet No. 25 van 1999)

As deel van die Basiese Assesseringsverslagproses (BAR) en die openbare deelnameproses, word u uitgenooi om te registreer en kommentaar te lewer op die konsep Basiese Assesseringsverslag. Hierdie verslag sluit 'n impakassessering in, asook spesialisstudies wat vir die projek uitgevoer word. Die verslag sluit ook voorgestelde versagtingsmaatreëls in vir potensiële impakte wat tydens die studie geïdentifiseer is. 'n Konsep Omgewingsbestuursprogram (EMPr) vergesel ook hierdie konsep basiese assesseringsverslag.

Belanghebbende en geaffekteerde partye word 30 dae gegee vanaf die 23ste Junie 2022 to the 25ste Julie 2022 om te registreer as to register as belanghebbende en/of geaffekteerde party deur:

- Die omgewingskonsultant direk te kontak (Kontak besonderhede hieronder).
- Indiening van 'n skriftelike versoek deur u naam, kontakbesonderhede (posadres, telefoon, faksnommer en e-posadres) en belangstelling betreffende die projek in te dien.

Maak in alle korrespondensie gebruik van die **14/12/16/3/3/1/2574**.

**Neem kennis dat die kommentaar periode is vanaf 24ste Junie 2022 tot die 25ste July 2022.**

Saam met hierdie brief is die volgende:

- Agtergrondinligtingsdokument (BID)
- Registrasie- en kommentaarvorm

Die BID bied 'n breë oorsig van die voorgestelde projek en die omgewingsimpakstudieproses en die registrasie- en kommentaarvorm bied 'n ruimte om as 'n Belangstellende en Geaffekteerde party te registreer en kommentaar te lewer. Die Registrasie- en Kommentaarvorm verskaf ook besonderhede waar alle inligting verkry kan word en registrasie/kommentaarvorms ingedien kan word.

Groete

**Nick Gates**

CONTENTS .....	2
1. PUBLIC PARTICIPATION PROCESS .....	3
1.1 Public Participation Process .....	3
<b>Table 1: Statutory Process Comments &amp; Responses.....</b>	<b>5</b>

## 1. PUBLIC PARTICIPATION PROCESS

Two rounds of public participation were undertaken as part of the Environmental Impact Assessment (EIA) process.

The first round was undertaken from Thursday, 23<sup>rd</sup> June 2022 to Monday, 25<sup>th</sup> July 2022 whereby Interested & Affected Parties (I&AP's) were provided with the opportunity to register and provide comment on the draft BAR.

A second round of public participation was undertaken from 26<sup>th</sup> July 2022 to 26<sup>th</sup> August 2022 whereby I&AP's were provided with additional time to register and provide comment

All comments received were review and incorporated in the Basic Assessment Report (BAR) if applicable.

The Public Participation Process (PPP) to date is described in detail below.

### 1.1 Public Participation Process

The PPP for this Basic Assessment process included the following steps:

- On 23<sup>rd</sup> June 2022, an advertisement was placed in the local newspaper (**NoordkaapBulletin**) informing the Public of the proposed application and providing the opportunity to register and provide comment as an Interested & Affected Party.

No request to register or comments were received.

- Interested and affected parties were identified for the PPP. Refer to Appendix G1 for the list of I&APs notified.
- Group emails and SMSs were sent out to all identified I&AP's.
- Letters, drafted in English and Afrikaans, were provided to the I&APs' including any Community Liaison Officers (CLO's) who are dedicated to the project.
- Site notices were placed informing the public of the proposed development.

These were placed at the existing Pulida Solar PV Facility and an additional notice was dropped at the local Magistrate in Jacobsdal to be placed on the public notice board.

The notices were placed on 23<sup>rd</sup> June 2022

Proof that the site notices were placed on site is included under Appendix G3 of the draft BAR.

- The **draft BAR** and **Environmental Management Programme (EMPr)** was made available on the website, [www.ncc-group.co.za](http://www.ncc-group.co.za) for the 30-day commenting period.
- A hardcopies of draft BAR and Environmental Management Programme (EMPr) were left at the Pulida Solar PV Facility along with a register.

- All comments received during the 30-day comment period are included under **Appendix G6** of the Final BAR. All comments received were responded to under Section 2 of this Comments and Response Report (Appendix G6).

Refer to Table 1 & 2 for the Comments and Response on the final draft BAR.

**Table 1: Statutory commenting period**

Commenting Period – 23 <sup>rd</sup> June 2022 to 25 <sup>th</sup> July 2022						
No.	Name	Form	Date	Comment	Response	Respondent
1.	Ms. Tsholofelo Sekonko Biodiversity Mainstreaming EIA Department of Forestry, Fisheries and the Environment	Email	12/07/2022	Dear Sir/Madam  DFFE Directorate: Biodiversity Conservation hereby acknowledge receipt of the invitation to review and comment on the Final Basic Assessment Report, Environmental Management Programme (EMPr) and associated documents, for the proposed construction of Battery Energy Storage System (BESS) and associated infrastructure located on Farm Klipdrift No 20 Remainder, Letsemeng local municipality, Free State province. Kindly note that the project has been allocated to Mrs Makitla and Ms Mudau (Both copied on this email).  Please note: All Public Participation Process documents related to Biodiversity EIA review and any other Biodiversity EIA queries will be submitted to the Directorate: Biodiversity Conservation at Email: BCAdmin@environment.gov.za for attention of Mr Seoka Lekota	No response. Noted	EAP
2.	Lydia Kutu Integrated Environmental Authorisations: Priority Infrastructure Developments	Email	18/07/2022	Good day. Please find herein the attached letter for the above mentioned. I hope you find all in order.		
				<p><b>(a) Listed Activities</b></p> <ul style="list-style-type: none"> <li>(i) Table of listed activities in the draft BAR must be amended to include the project description of listed activity 11 of listing notice 1.</li> <li>(ii) Please ensure that the description provided for all listed activities can be linked to activity applied for. For example, the description provided for activity 19 must specify whether the substation will be within watercourse or within 32 meters of watercourse.</li> <li>(iii) Activities in the application form and activities applied for in the BAR are not the same. Activities in the application form are not specific as you failed to select the applicable sub-activity of a listed activity. You are therefore required to resubmit the amended application form. Please ensure that listed activities in the application form are the same with listed activities in the BAR.</li> </ul>	<ul style="list-style-type: none"> <li>(i) The Listed Activities table in the final BAR is revised to include the project description of listed activity 11.</li> <li>(ii) All descriptions for all listed activities have been linked to the activity applied for. For example, activity 19 description has been revised to reflect “The access road and powerlines will potentially encroach on an identified water course.”</li> <li>(iii) Listed activities in the Application form and BAR are revised. An amended application form is submitted with the Final BAR.</li> <li>(iv) Activity 24, at the request of the Applicant has been added to both the Application and final BAR.</li> </ul>	EAP
				<p><b>(b) Alternatives</b></p> <ul style="list-style-type: none"> <li>(i) Description of site alternatives presented in the BAR must be amended. Two alternatives’ sites were assessed for the proposed project, and you make reference to preferred alternative and alternative 1 whereas specialists conducted make reference to alternative 1 and alternative 2. Most of specialist prefers alternative 2. The way the EAP and Specialist have made reference to alternatives makes confusion to the Department, as it is not clear whether the preferred alternative by the EAP is the same alternative preferred by the specialist.</li> <li>(ii) You are therefore requested to make amendments to sections of Bar that deals with alternatives and make reference to site alternatives assessed as alternative 1 and alternative 2, then you indicate which one is preferred between the two. This will assist the Department to determine the preferred site alternative.</li> </ul>	<ul style="list-style-type: none"> <li>(i) The description of the site alternatives are amended in the BAR and are consistent with what the specialists have presented. In essence, two alternatives’ sites were assessed, i.e., <b>Alternative 1</b> and <b>Alternative 2</b>. The <b>preferred alternative</b> (which refers to the most viable site chosen by the EAP and Specialists) is <b>Alternative 2</b>.</li> <li>(ii) Amendments to the relevant sections of the BAR referring to alternatives have been amended whereby Alternative 2 is the preferred site alternative.</li> </ul>	EAP
				<p><b>(c) Coordinates</b></p> <ul style="list-style-type: none"> <li>(i) You are requested to provide coordinates of the proposed project site including associated infrastructures associated with the project (such as substations, Battery Energy Storage Facility, access road and powerline etc) in degrees, minute, and seconds.</li> <li>(ii) You must also provide the start, middle and end point coordinates of the linear activities such as roads and powerline</li> </ul>	<ul style="list-style-type: none"> <li>(i) Coordinates of the proposed project site are included and tabulated in <b>Table 9</b> of the BAR</li> </ul> <p>The start, middle and end point coordinates of the linear activities has been included in <b>Tables 10</b> and <b>11</b></p>	EAP
<p><b>(d) Public Participation Process</b></p> <ul style="list-style-type: none"> <li>(i) The following information must be submitted with the final BAR: <ul style="list-style-type: none"> <li>a. A list of registered interested and affected parties as per Regulation 42 of the NEMA EIA Regulations, 2014, as amended.</li> <li>b. Copies of all comments received during the DRAFT BAR comment period; and</li> <li>c. A comment and response report which contains all comments received and responses provided to all comments and issues raised during the public participation process for the DRAFT BAR. Please note that comments received from this Department must also form part of the comment and response report.</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>(i) The following have been attached to the Final BAR: <ul style="list-style-type: none"> <li>a. A list of the registered interested and affected parties is attached as <i>Appendix G1 - Stakeholders</i>.</li> <li>b. Copies of all comments received during the DRAFT BAR comment period have been attached as <i>Appendix G7 – Stakeholder Engagement</i>.</li> <li>c. The Comments and Response Report (CRR) has been attached to the Final BAR as <i>Appendix G6 – Comments &amp; Response Report</i></li> </ul> </li> </ul>	EAP				

			<p>(ii) Please ensure that all issues raised, and comments received during the circulation of the DRAFT BAR from registered I&amp;APs and organs of state which have jurisdiction (including this Department's Biodiversity Section) in respect of the proposed activity are adequately addressed in the final BAR.</p> <p>(iii) Proof of correspondence with the various stakeholders must be included in the final BAR. Should you be unable to obtain comments, proof should be submitted to the Department of the attempts that were made to obtain comments. The Public Participation Process must be conducted in terms of Regulation 39, 40, 41, 42, 43 &amp; 44 of the EIA Regulations 2014, as amended.</p>	<p>(ii) All issues raised and comments received during the Draft BAR period have been addressed and recorded in the CCR attached to the Final BAR as Appendix 6 - Comments &amp; Response Report. Where required</p> <p>(iii) Proof of correspondences with the various stakeholders is included in the final BAR and attached as Appendix G2 – Newspaper Advertisement, Appendix G3 – Site Notice, G4- Written Letter, and Appendix G7 – Stakeholder Engagement.</p>	
			<p><b>(e) Cumulative Assessment:</b></p> <p>(i) Should there be any other similar projects within a 30km radius of the proposed development site, the cumulative impact assessment for all identified and assessed impacts must be refined to indicate the following :</p> <ol style="list-style-type: none"> <li>Identified cumulative impacts must be clearly defined, and where possible the size of the identified impact must be quantified and indicated, i.e. hectares of cumulatively transformed land.</li> <li>Detailed process flow and proof must be provided, to indicate how the specialist's recommendations, mitigation measures and conclusions from the various similar developments in the area were taken into consideration in the assessment of cumulative impacts and when the conclusion and mitigation measures were drafted for this project.</li> <li>The cumulative impacts significance rating must also inform the need and desirability of the proposed development.</li> <li>A cumulative impact environmental statement on whether the proposed development must proceed.</li> </ol>	<p>(i) In consultation with the Pulida Solar Facility, there are no similar project (Battery Energy Storage Systems) located within a 30km radius of the proposed site</p> <ol style="list-style-type: none"> <li>The facility will be located and retrofitting to the existing PV facility on the where vegetation was previous cleared, however as the proposed BESS will clear roughly 4ha of area this is minimal in comparison to the 193ha cleared for the PV facility, it represents 2.07% of the size of the facility and 0.33% of the entire property which is 1195ha. The vast majority of the property is degraded due to anthropological activities such as livestock grazing and crop farming.</li> <li>As previously indicated, there are no other BESS project proposed within a 30km radius, the specialist however did consider the previous specialist studies which were conducted for the Pulida PV facility which the BESS will be located adjacent to subsequently be form part of the system.</li> <li>Even though no BESS projects are located within a 30km radius of the proposed project cumulative impacts were considered by the specialists and EAP and were include in the Final BAR under Section 9.4. Section 5 addressed <i>Needs &amp; Desirability</i></li> <li>Cumulative impacts are addressed in Section 9.4 of the Final BAR. Both the Ecological and Freshwater Specialist address cumulative impacts within the respective reports. See reports in Appendix E1 and E2</li> </ol>	EAP
			<p><b>(f) Layout &amp; Sensitivity Maps:</b></p> <p>(i) The Maps submitted together with the BAR only shows the location of the proposed project site. You are therefore requested to include a layout map which indicates the following:</p> <ul style="list-style-type: none"> <li>All supporting onsite infrastructure such as laydown area, guard house and control room, powerline, substation, and access road etc.</li> <li>All necessary details regarding all possible locations and sizes of the proposed satellite substation and the main substation.</li> <li>The location of sensitive environmental features on site e.g. CBAs, heritage sites, wetlands, drainage lines etc. that will be affected;</li> <li>Buffer areas; and</li> <li>All "no-go" areas.</li> </ul> <p>(ii) A copy of the final preferred route layout map. All available biodiversity information must be used in the finalisation of the layout map. Existing infrastructure must be used as far as possible e.g., roads. The layout map must indicate the following:</p> <ul style="list-style-type: none"> <li>Permanent laydown area footprint</li> </ul>	<p>(i) A revised layout map is attached reflecting all the listed components. Plan is attached as Appendix B.</p> <p>(ii) A revised final preferred route layout map is attached reflecting all the listed components. Map is attached as Appendix B.</p> <p>(iii) A revised environmental sensitivity map indicating the environmental sensitive areas and features is attached as Appendix D</p> <p>(iv) A revised map combining the final layout map superimposing on the environmental sensitivity map is attached as Appendix D.</p>	EAP

			<ul style="list-style-type: none"> <li>• Internal roads indicating width (construction period width and operation period width) and with numbered sections between the other site elements which they serve (to make commenting on sections possible)</li> <li>• Wetlands, drainage lines, rivers, stream and water crossing of roads and cables indicating the type of bridging structures that will be used</li> <li>• The location of sensitive environmental features on site e.g., CBAs, heritage sites, wetlands, drainage lines etc. that will be affected by the facility and its associated infrastructure</li> <li>• Substation(s) and/or transformer(s) sites including their entire footprint</li> <li>• Location of access and service roads</li> <li>• All existing infrastructure on the site, especially railway lines and roads</li> <li>• Buffer areas</li> <li>• Buildings, including accommodation; and</li> <li>• All “no-go” areas.</li> </ul> <p>(iii) An environmental sensitivity map indicating environmental sensitive areas and features identified during the assessment process.</p> <p>(iv) A map combining the final layout map superimposed (overlain) on the environmental sensitivity map.</p>		
			<p><b>(g) Environmental Management Programme</b></p> <p>(i) It is drawn to your attention that for substation infrastructure and overhead electricity transmission and distribution infrastructure, when such facilities trigger activity 11 or 47 of the Environmental Impact Assessment Regulations Listing Notice 1 of 2014, as amended, and any other listed and specified activities necessary for the realisation of such facilities, the generic Environmental Management Programme (EMPr), contemplated in Regulations 19(4) must be used and submitted with the final report over and above the EMPr for the PV facility. Please ensure that any specific mitigation measures identified in the BAR and specialist reports for the on-site substations are incorporated into the generic EMPr.</p> <p>(ii) Please ensure that the mitigation measures specified in the BAR and specialist reports are also incorporated into the EMPr. In addition, ensure that the EMPr complies with the content of the EMPr in terms of Appendix 4 of the Environmental Impact Assessment Regulations, 2014, as amended.</p>	<p>(i) Mitigation measures identified in the BAR and specialist reports for the entire project, including the substation, is incorporated into the project Specific EMPr attached as <i>Appendix F – EMPr</i>. The Generic EMPr is appended to the Project EMPr.</p> <p>(ii) Mitigation measures specified in the BAR and specialist reports are also incorporated throughout the EMPr. The EMPr complies with the content of EMPr in terms of Appendix 4 of the Environmental Impact Assessment Regulations, 2014, as amended.</p>	<p>EAP</p>
			<p><b>(h) Validity period and auditing frequency</b></p> <p>(iii) Please ensure that the final BAR includes the period for which the Environmental Authorisation (EA) is required, the date on which the activity will be concluded, and the post construction monitoring requirements finalised, as per Appendix 1(3)(1)(q) of the NEMA EIA Regulations, 2014, as amended.</p>	<p>(i) The EA is required for a period of up to 10 years. The activity will be concluded within a maximum of 2 years from the start of construction. The post monitoring requirements will be finalised within 6-12 months, one month after construction is finalised, this has been included in <b>Section 3, Project Description</b>.</p>	<p>EAP</p>
			<p><b>(i) Specialist Assessments</b></p> <p>(i) Please ensure that specialist studies conducted provide a detailed description of their methodology, as well as all other associated infrastructures that they have assessed and are recommending for the authorisation.</p> <p>(ii) The specialist studies must also provide a detailed description of all limitations to their studies.</p> <p>(iii) If the specialists specify contradicting recommendations, the EAP must clearly indicate the most reasonable recommendation and substantiate this with defensible reasons; and were necessary, include further expertise advice.</p> <p>(iv) Please ensure that the final BAR also includes a table, which summarises the specialist studies required by the Department’s Screening Tool, a column indicating whether these studies are to be conducted or not, and a column with motivation for any studies not to be undertaken. Please note that if any of the specialists’ studies and requirements/protocols recommended in the Department’s Screening Tool are not commissioned, motivation for such must be provided in the report per the requirements of the Protocols (which requires site sensitivity verification and compliance statements, where applicable).</p> <p>(v) Please ensure that Specialist Declaration of Interest forms for all specialist conducted as well as for the Specialist statements obtained is attached to the final BAR.</p> <p>(vi) It is brought to your attention that Procedures for the Assessment and Minimum Criteria for Reporting on identified Environmental Themes in terms of Sections 24(5)(a) and (h) and 44 of the National Environmental Management Act, 1998, when applying for Environmental Authorisation, which were promulgated in Government Notice No. 320 of 20 March 2020 (i.e. “the Protocols”),</p>	<p>(i) Specialist studies have been revised to reflect a detailed description of their methodology as well as the associated infrastructure and are indeed recommending the authorisation</p> <ul style="list-style-type: none"> <li>- Ecological Assessment: refer to <b>Section 3 “Methodology”</b> on Page 27 Final recommendations are detailed in section 7.</li> <li>- Freshwater Assessment: refer to <b>Section 7 on Page 17</b> and recommendations are detailed in section 13.</li> <li>- Heritage Report: A Phase 1 report was conducted whereby nothing of Heritage significance was identified therefore no methodology was put forward.</li> </ul> <p>(ii) All specialist studies have included a section detailing the description of all limitations, refer:</p> <ul style="list-style-type: none"> <li>- Ecological Assessment: <b>Section 4 “Assumptions and Gaps”</b> on Page 37</li> <li>- Freshwater Assessment: <b>Section 6 “Limitations and Assumptions”</b> on Page 17</li> <li>- Heritage Assessment: <b>*Section 5 “Restrictions”</b> on Page 23</li> </ul>	<p>EAP</p>

				and in Government Notice No. 1150 of 30 October 2020 (i.e. protocols for terrestrial plant and animal species), have come into effect. Please ensure that the specialist assessments conducted comply with these protocols.	<p>(iii) The EAP has provided expertise advice and final reasonable recommendations in the Final BAR in <b>Section 11, Environmental Impact Statement.</b></p> <p>(iv) A summary of the proposed specialist studies as per the DEEF Screening tool is tabulated in <b>Section 2.4, DFFE Screening Tool</b> of the final BAR.</p> <p>(v) Specialist Declaration of Interest forms are included in the final specialist reports and attached separately as Appendix *.</p> <p>(vi) Both the Ecological Assessment and Freshwater Ecological reports comply with the protocols are per the Government Notice No. 320 of 20 March 2020 (i.e. “the Protocols”) and Government Notice No. 1150 of 30 October 2020. Refer to final Specialist reports attached to the final BAR as <b>Appendix E</b></p>	
3.	Ms. Mashienyane Portia Makitla CBO: Biodiversity Mainstreaming & EIA Department of Forestry, Fisheries, and the Environment	Email	25/07/2022	<p>The Directorate: Biodiversity Conservation has reviewed and evaluated the report.</p> <p>Based on the information in the report and specialist assessment, the Directorate Biodiversity Conservation is of the view that with stringent mitigation measures the development impacts can be mitigated to acceptable level. Therefore, the Directorate does not have any objection to the proposed development.</p> <p>In conclusion, the Public Participation Process documents related to Biodiversity EIA for review and queries should be submitted to the Directorate: Biodiversity Conservation at email: <a href="mailto:BCAdmin@dffe.gov.za">BCAdmin@dffe.gov.za</a> for attention of Mr. Seoka Lekota</p>	Noted	<b>EAP</b>
4	Lourens Leeuwner Wildlife and Energy Programme Manager Endangered Wildlife Trust	Email	27/07/2022	Going forward, please send all IAAP correspondence to <a href="mailto:eia@ewt.org.za">eia@ewt.org.za</a>	Noted	<b>EAP</b>
5	Ms. Tsholofelo Sekonko Biodiversity Mainstreaming EIA Department of Forestry, Fisheries and the Environment	Email	27/07/2022	<p>Dear Sir/Madam</p> <p>DFFE Directorate: Biodiversity Conservation hereby acknowledge receipt of the invitation to review and comment on the Final Basic Assessment Report (FBAR), Environmental Management Programme (EMPr) and associated infrastructure for the proposed construction of the Pulida Battery Energy Storage System (BESS) and Associated Infrastructure located on Farm Klipdrift No 20 Remainder, Letsemeng local municipality, Free State province. Kindly note that the project has been allocated to Mrs Makitla and Ms Mudau (Both copied on this email).</p> <p>Please note: All Public Participation Process documents related to Biodiversity EIA review and any other Biodiversity EIA queries will be submitted to the Directorate: Biodiversity Conservation at Email: <a href="mailto:BCAdmin@environment.gov.za">BCAdmin@environment.gov.za</a> for attention of Mr Seoka Lekota</p>	<p>Good afternoon,</p> <p>Please note we have received comment from this Department on 25th July for this project.</p> <p>This round of PPP is an extension of the already 30 days which have been undertaken, in order to provide extra time for I&amp;APs which have not registered or provided commented and wish to do so.</p> <p><b>RESPONSE (Ms. Tsholofelo Sekonko, 27/07/2022)</b> Okay. Noted</p>	<b>EAP</b>

**Table 2: Second round of commenting period**

Second Round of Commenting Period – 26 <sup>th</sup> July 2022 to 26 <sup>th</sup> August 2022						
No.	Name	Form	Date	Comment	Response	Respondent
1.	Andrea van Gensen Environmental Manager Land Development & Environment Northern Cape Operating Unit Eskom Holdings SOS Limited	Email	28/07/2022	Interested in scope of project	Noted	<b>EAP</b>
2.	John Geeringh Senior Consultant Environmental Management Grid Planning: Land and Rights Eskom Transmission Division	Email	28/07/2022	Please send me a KMZ file of the affected property and proposed development footprint. Please find attached Eskom requirements for works at or near Eskom servitudes and infrastructure	(2 <sup>nd</sup> August 2022) Hi John, We are just in the process of converting the finalize development footprint file from DWG to KMZ. In the meantime, I have attached a file for the property. The proposed facility is located to adjacent to the facility to the North. We will send through as soon as it is done KMZ sent on 30 <sup>th</sup> August 2022	<b>EAP</b>
3.	Deen Shade	Email	01/09/2022	Good day,  My name is Deen Shade, an environmentally concerned citizen residing in Cape Town. I have seen the proposed Development of Pulida Bess Facility and Associated Infrastructure Situated on the Farm Klipdrift No.20 Rem in the Letseming Local Municipality, Xhariep District, Free State Province and would like to register as an interested and affected party (I&AP) for this proposed project.  DFFE REFERENCE NO: 14/12/16/3/3/1/2574	Included on register	<b>EAP</b>
4.	Kathryn Winstanley Environmental Intern G7 Renewable Energies (Pty) Ltd	Email	07/09/2022	Dear Nicholas,  I trust you are well.  Could I please request that Caryn Clarke with e-mail address eia@g7energies.com be registered as an I&AP for the proposed Pulida Battery Energy Storage System and Associated Infrastructure. Could I also ask that any relevant documents be sent through, if there are any available.  Could you please reply with confirmation of registration.  Thank you very much, with kind regards	Hi Kathryn,  Thanks for getting in touch.  We will add Caryn to the I&AP list.  Please not that we have run two sets of 30-day commenting periods from June to July and then again from July to August.  We will be submitting the final Draft BAR later this week for the authority's decision.  Documents such as the draft BAR, EMPr, Specialist Reports, etc. can we found on the NCC Website.  Please do not hesitate to contact me if you require anything further	<b>EAP</b>

Dear I&AP,

Please take note a formal application for an environmental authorisation was submitted to the Department of Forestry, Fisheries and the Environment (DFFE). All registered I&APs are formally invited to comment on Draft Basic Assessment Report (FBAR), Environmental Management Programme (EMPr) and associated documents, for the proposed construction of Battery Energy Storage System (BESS) and Associated Infrastructure located on Farm Klipdrift No 20 Remainder, Letsemeng local municipality, Free State province which will be available for comment for a 30-day period from Monday 24th June 2022 to Monday 25th July 2022.

Please see link below for viewing of BAR, EMPr and appendices.  
<https://ncc-group.co.za/public-participation-overview>

**COMMENTS MUST REACH THE EAP ON OR BEFORE 25th JULY 2022.**

Registration and/or comments must be submitted in writing using any one of the following contact details:

- Email: [ppp@ncc-group.co.za](mailto:ppp@ncc-group.co.za)
- Fax: 086 555 0693
- Post: PO Box 30223, Tokai, 7966

Kindly reference the DFFE reference number when submitting your comment.

- Ref. No.: 14/12/16/3/3/1/2574

Regards

## Nick Gates

Dear I&AP,

The legislated 30-day commenting period for the above proposed project ended on **25<sup>th</sup> July 2022** where I&APs were invited to register as and I&AP and comment on Draft Basic Assessment Report (FBAR), Environmental Management Programme (EMPr) and associated documents, for the proposed construction of the Pulida Battery Energy Storage System (BESS) and Associated Infrastructure located on Farm Klipdrift No 20 Remainder, Letsemeng local municipality, Free State province.

The Applicant wishes to extend the commenting period by a further 30 days to further ensure further opportunity for all to comment. This commenting period will commence on the Tuesday 26<sup>th</sup> July 2022 to Friday 26<sup>th</sup> August 2022.

Please see link below for viewing of BAR, EMPr and appendices.  
<https://ncc-group.co.za/public-participation-overview>

**COMMENTS MUST REACH THE EAP ON OR BEFORE 26<sup>th</sup> AUGUST 2022**

**Please ignore any dates included in the attached documentation as the date**

- Registration and/or comments must be submitted in writing using any one of the following contact details:
- Email:** [ppp@ncc-group.co.za](mailto:ppp@ncc-group.co.za)
  - Fax:** 086 555 0693
  - Post:** PO Box 30223, Tokai, 7966

Kindly reference the DFFE reference number when submitting your comment.

- Ref. No.:** 14/12/16/3/3/1/2574
