### PER EMAIL / MAIL

Dear Mr Marais.

#### **ENVIRONMENTAL AUTHORISATION IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, ACT NO. 107 OF 1998, AS AMENDED: FOR THE CONSTRUCTION OF THE IPP PORTION OF THE 132KV ON-SITE SUBSTATION AND ASSOCIATED INFRASTRUCTURE TO SUPPORT THE ELECTRICAL GRID INFRASTRUCTURE FOR THE SUTHERLAND 2 WIND ENERGY FACILITY (WEF) WITHIN KAROO HOOGLAND LOCAL MUNICIPALITY IN THE NORTHERN CAPE PROVINCE**

The Environmental Authorisation (EA) issued for the above-mentioned application by this Department on 02 February 2018, the first EA amendment dated 03 April 2018 and your second application for amendment of the EA received on 22 September 2021 and the acknowledgement letter dated 27 September 2021, refers.

Based on a review of the reason for requesting an amendment to the above EA, this Department, in terms of Chapter 5, Regulation 27(2)(a) of the Environmental Impact Assessment Regulations, 2014, has decided to amend the EA dated 28 May 2015 as amended, by issuing a new EA.

**The attached EA will replace the EA dated 2 February 2018 as amended.** All further amendments must be lodged on the attached EA with the new reference number.

In terms of the Promotion of Administrative Justice Act, Act No. 3 of 2000, you are entitled to the right to fair, lawful and reasonable administrative action; and to written reasons for administrative action that affects you negatively. Further your attention is drawn to the provisions of the Protection of Personal Information Act, Act No. 4 of 2013 which stipulate that the Department should conduct itself in a responsible manner when collecting, processing, storing and sharing an individual or another entity's personal information by holding the Department accountable should the Department abuse or compromise your personal information in any way.

Your attention is drawn to Chapter 2 of National Environmental Management Act, Act No. 107 of 1998 National Appeal Regulations published under Government Notice R993 in Government Gazette No. 38303 dated 08 December 2014 (National Appeal Regulations, 2014), which prescribes the appeal procedure to be followed. Kindly include a copy of this document (National Appeal Regulations, 2014) with the letter of notification to interested and affected parties in this matter.

VJ

Should any person wish to lodge an appeal against this decision, he/she must submit the appeal to the appeal administrator, and a copy of the appeal to the applicant, any registered interested and affected party, and any organ of state with interest in the matter within 20 days from the date that the notification of the decision was sent to the registered interested and affected parties by the applicant; or the date that the notification of the decision was sent to the applicant by the Department, whichever is applicable.

**Appeals must be submitted in writing in the prescribed form to:**

The Director: Appeals and Legal Review of this Department at the below mentioned addresses.

By email: [appeals@environment.gov.za](mailto:appeals@environment.gov.za),

By hand: Environment House  
473 Steve Biko Road  
Arcadia  
PRETORIA  
0083; or

By post: Private Bag X447  
PRETORIA  
0001

Please note that in terms of Section 43(7) of the National Environmental Management Act, Act No. 107 of 1998, as amended, the lodging of an appeal will suspend the environmental authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged, you may not commence with the activity until such time that the appeal is finalised.

To obtain the prescribed appeal form and for guidance on the submission of appeals, please visit the Department's website at [https://www.environment.gov.za/documents/forms#legal\\_authorisations](https://www.environment.gov.za/documents/forms#legal_authorisations) or request a copy of the documents at [appeals@environment.gov.za](mailto:appeals@environment.gov.za).

Yours faithfully,

Mr Vusi Skosana  
Acting Chief Director: Integrated Environmental Authorisations  
Department of Forestry, Fisheries and the Environment

Department:  
Forestry, Fisheries and the Environment  
REPUBLIC OF SOUTH AFRICA

# Environmental Authorisation

In terms of Regulation 27(2)(a) of the Environmental Impact Assessment Regulations, 2014, as amended

Construction of the IPP Portion of the 132kV on-site substation and associated infrastructure to support the electrical grid infrastructure for the Sutherland 2 Wind Energy Facility (WEF) within Karoo Hoogland Local Municipality in the Northern Cape Province

### Namakwa District Municipality

<b>Authorisation register number:</b>	14/12/16/3/3/1/1814/1
<b>Last amended:</b>	<i>Splitting and Re-Issue</i> <i>First Issue: 2 February 2018</i>
<b>Holder of authorisation:</b>	<i>South Africa Mainstream Renewable Power Developments (Pty) Ltd</i>
<b>Location of activity:</b>	<i>Northern Cape Province: Within Karoo Hoogland Local Municipality</i>

This authorisation does not negate the holder of the authorisation's responsibility to comply with any other statutory requirements that may be applicable to the undertaking of the activity.

## **Decision**

The Department is satisfied, on the basis of information available to it and subject to compliance with the conditions of this Environmental Authorisation, that the applicant should be authorised to undertake the activities specified below.

Non-compliance with a condition of this Environmental Authorisation may result in criminal prosecution or other actions provided for in the National Environmental Management Act, Act No. 107 of 1998, as amended and the EIA Regulations, 2014, as amended.

Details regarding the basis on which the Department reached this decision are set out in Annexure 1.

## **Activities authorised**

By virtue of the powers conferred on it by the National Environmental Management Act, Act No. 107 of 1998, as amended and the Environmental Impact Assessment Regulations, 2014, as amended, the Department hereby authorises –

### **SOUTH AFRICA MAINSTREAM RENEWABLE POWER DEVELOPMENTS (PTY) LTD**

(hereafter referred to as the **holder of the authorisation**)

with the following contact details –

Mr Eugene Marais

South Africa Mainstream Renewable Power Developments (Pty) Ltd

P.O Box 45063

**CLAREMONT**

Tel Number: +27 21 657 4045

Cell number: +27 73 871 5781

Email Address: [eugene.marais@mainstreamrp.com](mailto:eugene.marais@mainstreamrp.com)

- to undertake the following activities (hereafter referred to as "the activity") indicated in Listing Notice 1 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended:

Listed activities	Activity/Project description
<p><b><u>GN R. 327 Activity 11 (i):</u></b>                      The development of facilities or infrastructure for the transmission and distribution of electricity:                      (i) outside urban areas or industrial complexes with a capacity of more than 33 but less than 275 kilovolts.</p>	<p>The proposed project will entail the construction and installation of an on-site IPP substation towards the western end of the line.</p>
<p><b><u>GN R327: Activity 12 (ii)</u></b>                      The development of –                      (ii) infrastructure or structures with a physical footprint of 100 square metres or more;                      (a) within a watercourse;                      (b) in front of a development setback; or                      (c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse;                      excluding:                      (aa) the development of infrastructure or structures within existing ports or harbours that will not increase the development footprint of the port or harbour;                      (bb) where such development activities are related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies;                      (cc) activities listed in activity 14 in Listing Notice 2 of 2014 or activity 14 in Listing Notice 3 of 2014, in which case that activity applies;                      (dd) where such development occurs within an urban area;                      (ee) where such development occurs within existing roads, road reserves or railway line reserves; or                      (ff) the development of temporary infrastructure or structures where such infrastructure or structures will</p>	<p>The installation of an IPP portion of the on-site substation, Battery Energy Storage System (BESS), laydown area and O&amp;M Building towards the western end of the power line.</p>

Listed activities	Activity/Project description
<p>be removed within 6 weeks of the commencement of development and where indigenous vegetation will not be cleared.</p>	
<p><b><u>GN R.327, Activity 19</u></b></p> <p>The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 5 cubic metres from-</p> <p>(l) a watercourse;</p> <p>but excluding where such infilling, depositing, dredging, excavation, removal or moving-</p> <p>(a) will occur behind a development setback;</p> <p>(b) is for maintenance purposes undertaken in accordance with a maintenance management plan;</p> <p>(c) falls within the ambit of activity 21 in this Notice, in which case that activity applies;</p> <p>(d) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or</p> <p>(e) where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies.</p>	<p>The proposed project will entail the excavation, removal and moving of possibly more than 10 m<sup>3</sup> of soil, sand, pebbles or rock from the nearby watercourses. The proposed project will also entail the infilling or depositing of more than 10 m<sup>3</sup> of material into the nearby watercourses.</p>
<p><b><u>GN R.327, Activity 27</u></b></p> <p>The clearance of an area of 1 hectares or more, but less than 20 hectares of Indigenous vegetation, except where such clearance of indigenous vegetation is required for-</p> <p>(l) the undertaking of a linear activity or</p> <p>(ii) maintenance purposes undertaken in accordance with maintenance management plan</p>	<p>The proposed project will entail the construction of the IPP portion of the on-site substation (including a laydown area, O&amp;M Building and Battery Energy Storage System), which will cover an approximate area of less than 20 ha. As a result, more than 1 ha of indigenous vegetation will possibly be removed for the construction of these structures.</p>

15

Listed activities	Activity/Project description
<p><b><u>GN R327: Activity 28 (ii)</u></b></p> <p>Residential, mixed, retail, commercial, industrial or institutional developments where such land was used for agriculture, game farming, equestrian purposes, or afforestation on or after 01 April 1998 and where such development:</p> <p>(ii) will occur outside an urban area, where the total land to be developed is bigger than 1 hectare; excluding where such land has already been developed for residential, mixed, retail, commercial, industrial or institutional purposes.</p>	<p>The proposed project will take place outside of an urban area, on several farm portions within the Northern Cape. The land is currently used for agricultural purposes. The proposed project, which is considered to be a commercial or industrial development, will entail the construction of the IPP portion of the on-site substation, laydown area, an O&amp;M Building and Battery Energy Storage Infrastructure. This will constitute infrastructure with a physical footprint of more than 1 ha.</p>
<p><b><u>GNR 324 Activity 12</u></b></p> <p>The clearance of 300 square meters or more of indigenous vegetation except where such clearances of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.</p> <p><b>(g). Northern Cape:</b></p> <p>(ii). Within any critical biodiversity areas as identified in systematic biodiversity plans adopted by the competent authority;</p>	<p>The proposed project will entail the construction of the IPP portion of the on-site substation, laydown area, an O&amp;M Building and Battery Energy Storage Infrastructure. As a result, more than 300 m2 of indigenous vegetation will possibly be removed for the construction of these structures.</p>
<p><b><u>GNR 324 Activity 14</u></b></p> <p>The development of-</p> <p>(ii) infrastructure or structures with a physical footprint of 10 square metres or more; where such development occurs-</p> <p>(a) within a watercourse;</p> <p>(b) if no development setback has been adapted, within 32 metres of a watercourse, measured from the edge of a watercourse.</p> <p><b>g. Northern Cape:</b></p> <p>(ii) outside urban areas:</p>	<p>The proposed project will entail the construction and installation of the IPP portion of the on-site substation towards the western end of the line that will also include a laydown area, O&amp;M Building and Battery Energy Storage Systems (BESS).</p>

Listed activities	Activity/Project description
(bb) National Protected Area Expansion Strategy Focus Areas, (ff) Critical Biodiversity areas or ecosystem service areas as identified in systematic biodiversity plans adopted by the competent authority or in bioregional plans;	

as described in the Basic Assessment Report (BAR) dated October 2017 at:

Project site co-ordinates	Latitude	Longitude
Sutherland 2 IPP Portion of the Onsite Substation alternative 1 (preferred) (100m x 100m)		
Corner 1	32°37'36.05"S	20°44'30.73"E
Corner 2	32°37'35.99"S	20°44'49.87"E
Corner 3	32°37'44.08"S	20°44'49.83"E
Corner 4	32°37'44.01"S	20°44'30.67"E

- for the construction of the IPP Portion of the 132kV on-site substation and associated infrastructure to support the electrical grid infrastructure for the Sutherland 2 Wind Energy Facility (WEF) within Karoo Hoogland Local Municipality in the Northern Cape Province, hereafter referred to as "the property.

The infrastructure associated with this facility includes:

- An IPP portion of the on-site substation (100m x 100m).
- Laydown area.
- O&M Building.
- Fencing of the proposed on-site substation.
- Battery Energy Storage Infrastructure (BESS): Infrastructure will comprise the following:
  - BESS technology: Lithium- Ion.
  - Capacity of BESS:
    - Export capacity of up to 500MWh,
    - Total storage capacity of 100MW, and
    - Storage capacity of up to 5 hours.
  - Access to BESS: BESS will be located within the IPP portion of the onsite substation.

## Conditions of this Environmental Authorisation

### Scope of authorisation

1. The construction of the IPP Portion of the 132kV on-site substation and associated infrastructure to support the electrical grid infrastructure for the Sutherland 2 Wind Energy Facility (WEF) within Karoo Hoogland Local Municipality in the Northern Cape Province is **authorised as** per the geographic coordinates.
2. Authorisation of the activity is subject to the conditions contained in this authorisation, which form part of the environmental authorisation and are binding on the holder of the authorisation.
3. The holder of the authorisation is responsible for ensuring compliance with the conditions contained in this environmental authorisation. This includes any person acting on the holder's behalf, including but not limited to servant, contractor, sub-contractor, employee, consultant or person rendering a service to the holder of the authorisation.
4. The activities authorised must only be carried out at the property as described above.
5. Any changes to, or deviations from, the project description set out in this authorisation must be approved, in writing, by the Department before such changes or deviations may be effected. In assessing whether to grant such approval or not, the Department may request such information as it deems necessary to evaluate the significance and impacts of such changes or deviations and it may be necessary for the holder of the authorisation to apply for further authorisation in terms of the regulations.
6. The Department is aware that the environment changes constantly, as a result it might be significantly different from the one that existed at the time of the issuing of the **original EA on 2 February 2018**, hence the validity of the EA cannot exceed a maximum period of 10 years. The EA is valid till **02 February 2028**. Failure to commence with construction activities within the maximum 10-year period, your EA will be deemed to have lapsed and a new application for EA will have to be lodged.
7. Commencement with one activity listed in terms of this authorisation constitutes commencement of all authorised activities.
8. The holder of an environmental authorisation must apply for an amendment of environmental authorisation with the competent authority for any alienation, transfer or change of ownership rights in the property on which the activity is to take place.

**Notification of authorisation and right to appeal**

9. The holder of the authorisation must notify every registered interested and affected party, in writing and within 14 (fourteen) calendar days of the date of this Environmental Authorisation, of the decision to authorise the activity.
10. The notification referred to must –
  - 10.1. specify the date on which the authorisation was issued;
  - 10.2. inform the interested and affected party of the appeal procedure provided for in the National Appeal Regulations, 2014;
  - 10.3. advise the interested and affected party that a copy of the authorisation will be furnished on request; and
  - 10.4. give the reasons of the Competent Authority for the decision.

**Commencement of the activity**

11. The authorised activity must not commence until the period for the submission of appeals has lapsed as per the National Appeal Regulations, 2014, and no appeal has been lodged against the decision. In terms of Section 43(7), an appeal under Section 43 of the National Environmental Management Act, Act No. 107 of 1998, as amended will suspend the Environmental Authorisation or any provision or condition attached thereto. In the instance where an appeal is lodged you may not commence with the activity until such time that the appeal has been finalised.

**Management of the activity**

12. The Environmental Management Programme (EMPr) submitted as part of the Application for EA is hereby approved, the EMPr must be implemented and strictly adhered to.

**Frequency and process of updating the EMPr**

13. The EMPr must be updated wherever the findings of the environmental audit reports, contemplated in Condition 22 below, indicate insufficient mitigation of environmental impacts associated with the undertaking of the activity, or insufficient levels of compliance with the environmental authorisation or EMPr.

14. The updated EMPr must contain recommendations to rectify the shortcomings identified in the environmental audit report.
15. The updated EMPr must be submitted to the Department for approval together with the environmental audit report, as per Regulation 34 of the EIA Regulations, 2014 as amended. The updated EMPr must have been subjected to a public participation process, which process has been agreed to by the Department, prior to submission of the updated EMPr to the Department for approval.
16. In assessing whether to grant approval of an EMPr which has been updated as a result of an audit, the Department will consider the processes prescribed in Regulation 35 of the EIA Regulations, 2014 as amended. Prior to approving an amended EMPr, the Department may request such amendments to the EMPr as it deems appropriate to ensure that the EMPr sufficiently provides for avoidance, management and mitigation of environmental impacts associated with the undertaking of the activity.
17. The holder of the authorisation must apply for an amendment of an EMPr, if such amendment is required before an audit is required. The amendment process is prescribed in Regulation 37 of the EIA Regulations, 2014, as amended. The holder of the authorisation must request comments on the proposed amendments to the impact management outcomes of the EMPr or amendments to the closure objectives of the closure plan from potentially interested and affected parties, including the competent authority, by using any of the methods provided for in the Act for a period of at least 30 days.

### **Monitoring**

18. The holder of the authorisation must appoint an experienced Environmental Control Officer (ECO) for the construction phase of the development that will have the responsibility to ensure that the mitigation/rehabilitation measures and recommendations referred to in this environmental authorisation are implemented and to ensure compliance with the provisions of the approved EMPr.
  - 18.1. The ECO must be appointed before commencement of any authorised activities.
  - 18.2. Once appointed, the name and contact details of the ECO must be submitted to the *Director: Compliance Monitoring* of the Department.
  - 18.3. The ECO must keep record of all activities on site, problems identified, transgressions noted and a task schedule of tasks undertaken by the ECO.
  - 18.4. The ECO must remain employed until all rehabilitation measures, as required for implementation due to construction damage, are completed and the site is ready for operation.

### **Recording and reporting to the Department**

19. All documentation e.g. audit/monitoring/compliance reports and notifications, required to be submitted to the Department in terms of this environmental authorisation, must be submitted to the *Director: Compliance Monitoring* of the Department.
20. The holder of the environmental authorisation must, for the period during which the environmental authorisation and EMPr remain valid, ensure that project compliance with the conditions of the environmental authorisation and the EMPr are audited, and that the audit reports are submitted to the *Director: Compliance Monitoring* of the Department.
21. The frequency of auditing and of submission of the environmental audit reports must be as per the frequency indicated in the EMPr, taking into account the processes for such auditing as prescribed in Regulation 34 of the EIA Regulations, 2014 as amended.
22. The holder of the authorisation must, in addition, submit environmental audit reports to the Department within 30 days of completion of the construction phase (i.e. within 30 days of site handover) and a final environmental audit report within 30 days of completion of rehabilitation activities.
23. The environmental audit reports must be compiled in accordance with Appendix 7 of the EIA Regulations, 2014 as amended and must indicate the date of the audit, the name of the auditor and the outcome of the audit in terms of compliance with the environmental authorisation conditions as well as the requirements of the approved EMPr.
24. Records relating to monitoring and auditing must be kept on site and made available for inspection to any relevant and competent authority in respect of this development.

### **Notification to authorities**

25. A written notification of commencement must be given to the Department no later than fourteen (14) days prior to the commencement of the activity. Commencement for the purposes of this condition includes site preparation. The notice must include a date on which it is anticipated that the activity will commence, as well as a reference number.

### **Operation of the activity**

26. A written notification of operation must be given to the Department no later than fourteen (14) days prior to the commencement of the activity operational phase.

### **Site closure and decommissioning**

27. Should the activity ever cease or become redundant, the holder of the authorisation must undertake the required actions as prescribed by legislation at the time and comply with all relevant legal requirements administered by any relevant and Competent Authority at that time.

### **Specific conditions**

28. No activities must encroach water bodies without a Water Use License Authorisation and General Authorisation.
29. A 32m buffer from any water bodies must be implemented.
30. No stockpile must be stored next to the river bank or any waterbodies.
31. A 30m buffer must be implemented around any archaeological artefacts and permit from SAHRA must be obtained prior to commencement of construction activities.
32. The applicant must cease the construction should any archaeological artefacts be found during construction and the responsible heritage resource agency must be informed immediately for the finds to be investigated to enable proper mitigation measures to be implemented.
33. Anti-collision devices such as bird flappers must be installed where power lines cross avifaunal corridors, as recommended by the Avifauna specialist.
34. A walk-through must be conducted by the avifauna specialist after final layout plan of the pylons positions have been determined to define sections of the power line that will need Bird Flight Diverters.
35. The input of an avifaunal specialist must be obtained for the fitting of the anti-collision devices onto specific sections of the line once the exact positions of the towers have been surveyed and pegged.
36. Only indigenous plants of the area must be utilised for rehabilitation purposes.
37. No protected species, if any found on the site must be removed without a permit from the Department that has jurisdiction on the proposed project.
38. You are required to comply with the recommendations provided by the followings authorities on the BAR dated October 2017: Cape Nature, Western Cape Department of Environmental affairs and Development Planning, Heritage Western Cape, Catchment Management Agency, Department of Water and Sanitation, Department of Nature and Conservation (DENC) and SAHRA.

**General**

39. A copy of this Environmental Authorisation, the audit and compliance monitoring reports, and the approved EMPr, must be made available for inspection and copying-
- 39.1. at the site of the authorised activity;
  - 39.2. to anyone on request; and
  - 39.3. where the holder of the Environmental Authorisation has a website, on such publicly accessible website.
40. National government, provincial government, local authorities or committees appointed in terms of the conditions of this authorisation or any other public authority shall not be held responsible for any damages or losses suffered by the holder of the authorisation or his/her successor in title in any instance where construction or operation subsequent to construction be temporarily or permanently stopped for reasons of non-compliance by the holder of the authorisation with the conditions of authorisation as set out in this document or any other subsequent document emanating from these conditions of authorisation.

Date of Environmental Authorisation: 20 October 2021

**M Vusi Skosana**

**Acting Chief Director: Integrated Environmental Authorisations  
Department of Forestry, Fisheries and the Environment**

## **Annexure 1: Reasons for Decision**

### **1. Information considered in making the decision**

In reaching its decision, the Department took, *inter alia*, the following into consideration –

- a) The information contained in the BAR dated October 2017;
- b) The comments received from Cape Nature, Western Cape Department of Environmental affairs and Development Planning, Heritage Western Cape, Catchment Management Agency, Department of Water and Sanitation, Department of Nature and Conservation (DENC), SAHRA and interested and affected parties as included in the BAR dated October 2017;
- c) Mitigation measures as proposed in the BAR dated October 2017 and the EMP;
- d) The information contained in the specialist studies contained within Appendix D of the BAR; and
- e) The objectives and requirements of relevant legislation, policies and guidelines, including section 2 of the National Environmental Management Act, 1998 (Act No.107 of 1998).

### **2. Key factors considered in making the decision**

All information presented to the Department was taken into account in the Department's consideration of the application. A summary of the issues which, in the Department's view, were of the most significance is set out below.

- a) The findings of all the specialist studies conducted and their recommended mitigation measures.
- b) The need for the proposed IPP Portion of the 132kV on-site substation and associated infrastructure is to support the electrical grid infrastructure for the Sutherland 2 Wind Energy Facility (WEF).
- c) The BAR dated October 2017 identified all legislation and guidelines that have been considered in the preparation of the BAR dated October 2017.
- d) The methodology used in assessing the potential impacts identified in the BAR dated October 2017 and the specialist studies have been adequately indicated.
- e) A sufficient public participation process was undertaken and the applicant has satisfied the minimum requirements as prescribed in the EIA Regulations, 2017 for public involvement.

### **3. Findings**

After consideration of the information and factors listed above, the Department made the following findings -

- a) The identification and assessment of impacts are detailed in the BAR dated October 2017 and sufficient assessment of the key identified issues and impacts have been completed.
- b) The procedure followed for impact assessment is adequate for the decision-making process.
- c) The proposed mitigation of impacts identified and assessed adequately curtails the identified impacts.
- d) The information contained in the BAR dated October 2017 is accurate and credible.
- e) EMPr measures for the pre-construction, construction and rehabilitation phases of the development were proposed and included in the BAR and will be implemented to manage the identified environmental impacts during the construction phase.

In view of the above, the Department is satisfied that, subject to compliance with the conditions contained in the environmental authorisation, the authorised activities will not conflict with the general objectives of integrated environmental management laid down in Chapter 5 of the National Environmental Management Act, 1998 and that any potentially detrimental environmental impacts resulting from the authorised activities can be mitigated to acceptable levels. The environmental authorisation is accordingly granted.

Mr. Vusi Skosana  
Director: Strategic co-ordination planning and support

Dear Mr. Vusi Skosana

**APPOINTMENT AS ACTING CHIEF DIRECTOR: INTEGRATED ENVIRONMENTAL AUTHORISATIONS FOR THE PERIOD 20 OCTOBER 2021 UNTIL 22 OCTOBER 2021.**

This serves to confirm your appointment as Acting Chief Director: integrated environmental authorisations, from 20 October 2021 until 22 October 2021, whilst Mr Sabelo Malaza is on Sick Leave.

You will act in this capacity with the full responsibilities and duties attached to the post, including the activities entrusted to the Acting Chief Director: integrated environmental authorisations by or in terms of the Acts administered by the Department.

Your appointment in the above acting position remains subject to the provisions of the Public Service Act, 1994 (Proclamation No. 103 of 1994), as amended, the Government Employees Pension Fund Act, 1996 (Proclamation No. 21 of 1998), the regulations promulgated under these Acts and relevant circulars.

In the execution of your duties and the exercising of the powers delegated to you, you will furthermore be subjected to the provisions of the Public Finance Management Act, compliance with the promotion of Access to Information Act, Promotion of Administrative Justice Act, the Minimum Information Security Standards, Departmental Policies and other applicable legislations with the Republic of South Africa. You are therefore advised to make yourself familiar with the provisions of the legislations and policies and the amendments thereof. (Copies of departmental policies can be obtained from the Human Resource Office).

Yours Sincerely

Devinagle Bendeman  
Deputy Director-General: RCSM (Regulatory Compliance and Sector Monitoring)

Date: 19/10/2021
