1 INTRODUCTION

Paulputs Wind Energy Facility (RF) (Pty) Ltd ('PWEF'), a wholly owned subsidiary of WKN Windcurrent SA (Pty) Ltd, was granted environmental authorisation for the 300MW (75 turbines) Paulputs Wind Energy Facility (WEF) and its associated 132kV OHPL on 11 December 2019 by the Department of Environment, Forestry and Fisheries (DEFF) (DEFF Reference No. 14/12/16/3/3/2/1120). As part of the original Environmental Impact Assessment (EIA)¹, three alternative OHPL options (A, B and C) and three alternative on-site substation options (A, B and C) were assessed. The Competent Authority (CA), DEFF, chose to only issue a favourable authorisation for the preferred OHPL option 'C' and on-site substation option 'A'.

To comply with the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP) bidding requirements, the abovementioned 300MW Paulputs WEF is being split into the 150MW Paulputs South WEF and the 150MW Paulputs North WEF (being split as part of a separate amendment application). The authorised OHPL option 'C' and on-site substation option 'A' will be used for Paulputs North WEF and a new authorisation for additional electrical infrastructure is now required to connect Paulputs South WEF to the National Grid

In effect of the above, Paulputs South (the Applicant²) intend to apply for Environmental Authorisation for the construction and operation of the proposed development, which includes:

- A 132 kV, double circuit, loop-in/loop-out Grid Connection; and a
- A 4.4 ha substation yard comprising: 1.2 ha on-site substation, 1 ha for offices, 1.2 ha battery energy storage systems (BESS), and 1 ha permanent laydown area.

In terms of Regulation 11 of the NEMA EIA Regulations, 2014 (as amended), the Applicant ('Paulputs South') requested that the Department consider issuing two separate Environmental Authorisations for (1) A OHPL and (2) A Substation yard, including BESS, as the OHPL will eventually be taken over by Eskom. This approach has been approved by the DEFF on 08 September 2020 and one combined Basic Assessment Report and Application has been submitted for consideration.

Arcus Consultancy Services South Africa (Ltd) Pty ('Arcus') has been appointed to act as project manager and to undertake the environmental impact assessment process for Environmental Authorisation under Chapter 4 of the National Environmental Management Act, 1998 (Act 107 of 1998 – NEMA) as amended, for the Proposed Development.

2 THE PUBLIC PARTICIPATION PROCESS

The sharing of information forms the basis of a Public Participation Process (PPP), with an aim to encourage the public to have meaningful input into the decision-making process from the project initiation until the final report is submitted to the Department of Forestry, Fisheries and Environment (DFFE) for a decision. The primary aims of the public participation process are:

- To inform Interested and Affected Parties (I&APs) of the proposed development;
- To identify issues, comments and concerns as raised by I&APs;

¹ The EIA undertaken by Arcus Consultancy Services (Pty) Ltd in 2019, which assessed the Paulputs Wind Energy Facility (WEF) and its associated 132kV grid connection, is hereon referred to as the '**original EIA**'

² Paulputs Wind Energy Facility (RE) (Pty) Ltd has given permission to Paulputs Wind Energy Facility South (RE) (Pty) Ltd to submit an application for the proposed development. Three separate Part II amendment applications are being undertaken in parallel with this application to split and amend the Paulputs WEF EA into Paulputs North WEF and Paulputs South WEF respectively.

- To promote transparency and an understanding of the project and its potential consequences;
- To facilitate open dialogue and liaise with all I&APs;
- To assist in identifying potential environmental (biophysical and socio-economic) impacts associated with the proposed development; and
- To ensure that all I&AP issues and comments are accurately recorded, addressed and documented in a Comments & Response Report.

This Public Participation Report has been compiled as Appendix C to the Amendment Report that has been prepared in support of the above application for Environmental Authorisation. This report has been updated to include all comments received up until submission of the application. This Public Participation Report has been compiled as Appendix C to the Amendment Report.

A public participation plan (PP Plan) was compiled and submitted to the CA on the 26 August 2020. This plan was submitted in compliance with regulation GNR660 published on 05 June 2020 in terms of the Disaster Management Act (57/2002) and titled: Directions Regarding Measures to Address, Prevent and Combat the Spread of COVID-19 Relating to National Environmental Management Permits and Licences. In compliance with Section 5.1 and Annexure 2 of these regulations, a public participation plan must be presented to the competent authority for approval prior to implementation.

The plan was not granted written approval for the following reason:

“Please note that the Department has no mandate to approve the Public Participation Plan during alert level 2 of Covid-19. The direction that required submission of PPP during level 3 is no longer applicable in level 2. However, you are required to ensure that the EIA Regulations 2014 as amended are strictly followed and ensure that the disaster management directions which are still applicable are considered”

Despite the above, Arcus have taken the decision to continue to follow the PP Plan that was submitted on 26 August 2020.

3 METHODOLOGY

The Public Participation Process (PPP) follows the requirements of Section 24 (5) and Chapter 6 (41, 42, 43, and 44) of GN R. 326 of the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) Environmental Impact Assessment (EIA) Regulations, 2014 (as amended), as well as the Public Participation Guidelines in terms of NEMA, 1998 EIA Regulations, 2014.

3.1 Initial Notification Phase

Notification during the initial notification period of the PPP has been undertaken in the following manner:

- A2 Correx board notices have been placed on the boundary of the site as well as in English and Afrikaans from 14 February 2020 (see Appendix C1).
- A4 posters have been placed at ten local public gathering places in the town of Pofadder and Kakamas in February 2020 (see Appendix C1). Posters were in both English and Afrikaans.
- Newspaper Advertisements were placed in the Advertisements were placed in the Gemsbok and Die Burger newspapers on 13 November 2020 (in English and Afrikaans) (see Appendix C2).
- Initial notification e-mails were distributed on 21 July 2021 to all pre-identified key I&APs including landowners, surrounding landowners, government organisations, NGOs, relevant municipalities, ward councillors and other organisations that might be

affected. The notification informed I&APs of the intention of the applicant to apply for Environmental Authorisations for the proposed development (see Appendix C3 and C4). This included a locality map, brief proposed development plan and project description.

- The latest I&AP database of the authorised Paulputs WEF was used as the baseline for the pre-identified key I&APs (see Appendix C5). *This database will be updated throughout the duration of the amendment process and anyone with an interest in the proposed development is encouraged to register.*

The notices and notifications also afforded all pre-identified I&APs the opportunity to submit their issues/queries/concerns, and indicate the contact details of any other potential I&APs that should be contacted and registered. The contact person at Arcus, contact number, email and fax details will be clearly stated on the notifications.

3.2 Submission: Draft Basic Assessment Phase

The draft Basic Assessment Report (BAR) is subjected to a 30 day comment period from **Friday, 30 July 2021 to Monday, 30 August 2021 (both days inclusive)**.

The reports will be made available at the following locations:

Location	Physical Address	Contact person
Hard Copy Location:		
Pofadder Library	108 Water Street, Pofadder	J. Kamies – 054 933 0221

<p>Comments can be submitted to: Arcus Consultancy Services South Africa (Pty) Ltd Office 607 Cube Workspace Icon Building Cnr Long Street and Hans Strijdom Avenue Cape Town 8001 T +27 (0) 21 412 1529 E paulputs@arcusconsulting.co.za</p>		

Written Notification (in English) regarding the availability of the Draft Basic Assessment Report for Public Review and Comment has been sent to all registered I&APs via e-mail (Appendix C6). The written notification also advised I&APs of the following:

- How and where they can access the Draft Basic Assessment Report (electronic and hardcopy);
- The safety measures to consider when accessing the hard copy of the Draft Basic Assessment Report (due to the National COVID-19 Pandemic), such as the precautions to be taken for handling of the document (sanitizing / handwashing / wearing of gloves); and
- It afforded all I&APs the opportunity to submit their issues/queries/concerns/suggestions regarding the proposed development and content of the Draft Basic Assessment Report; and
- Informed the I&APs the duration that the Draft Basic Assessment Report was made available for public comment and the dates in which comments must be submitted.

Comments received during this period have been captured in the Comments and Responses table below.

3.3 **Submission: Final Basic Assessment Phase**

Notification regarding the submission of the Final Basic Assessment Report to DFFE for a decision will be sent to all registered I&APs in the following manner:

- Written Notification (English and / or Afrikaans) will be sent to all registered I&APs (pre-identified key I&APs, I&APs registered during the initial and draft report period, as well as affected landowners, surrounding landowners and their occupiers) via e-mail and post (registered mail);
- SMS notifications will be sent to I&APs and / or land occupiers that have supplied mobile phone numbers and who does not have a postal or email addresses; and
- If written notification cannot be sent to an I&AP, notification will be provided telephonically.
- The notification will inform all registered I&APs of the submission of Final Basic Assessment Report to the competent authority for their decision making.

3.4 **Decision and Appeal Phase**

All registered I&APs will be provided with access to the decision and the reasons for such decision. Attention of all registered I&APs will be drawn to the fact that an appeal may be lodged against the decision in terms of the NEMA 1998 National Appeal Regulations, 2014 (as amended).

Notifications regarding the decision made by the DFFE will be provided in the following manner to all registered I&APs:

- Via e-mail, which will include an attachment of the decision, reasons for the decision, and appeal procedure;
- Via SMS, which will be sent to I&APs and / or land occupiers that have supplied mobile phone numbers and who does not have a postal or email addresses. The SMS will advise the I&AP that access to the decision, reasons for the decision, and appeal procedure must be accessed from the Arcus website: <https://arcusconsulting.co.za/projects/>;
- Via registered mail, which will include a complete hard copy of the decision, reasons for the decision and appeals procedure; and
- Courtesy telephone calls will be made to those who cannot receive access by either of the above-mentioned methods to advise them of the decision made by the DFFE and to confirm if and / or how they wish to receive access to the decision, reasons for decision, and appeal procedure.

I&APs will be provided with access to the decision, reasons for the decision by the DFFE and the process for appeals within 14 days of date of receipt of the decision.

INTRODUCTION

Paulputs Wind Energy Facility (RF) (Pty) Ltd ('PWEF'), a wholly owned subsidiary of WKN Windcurrent SA (Pty) Ltd, was granted environmental authorisation for the 300 MW (75 Turbine) Paulputs Wind Energy Facility (WEF) and its associated 132 kV grid connection on 11 December 2019 by the Department of Forestry, Fisheries and Environment (DFFE) (DFFE Reference No. 14/12/16/3/3/2/1120) (Figure 1). PWEF are proposing to give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd and Paulputs Wind Energy Facility South (Pty) Ltd to split and amend the Environmental Authorisation (EA) into three amendment applications for EA.

In addition to the amendments above, the Applicant - Paulputs Wind Energy Facility South (RE) (Pty) Ltd ('Paulputs South'), intends to apply for Environmental Authorisation for the construction and operation of the Paulputs South WEF Grid Connection and associated infrastructure - which includes a substation yard and BESS.

Arcus Consultancy Services South Africa (Pty) Ltd ('Arcus') has been appointed to act as the project manager and independent environmental consulting firm to undertake the necessary Part II EA Amendment Applications and Basic Assessment Process. The Amendment Applications have been undertaken in accordance with Chapter 5 and Regulation 32(1)aa of the NEMA, 1998 EIA regulations, 2014, as amended. The Basic Assessment has been undertaken in terms of Appendix 1 and Chapter 4 of the NEMA, 1998 EIA regulations, 2014, as amended.

This document serves as the **Background Information Document (BID)** for the proposed development.

PROJECT DEVELOPMENT DETAILS: AMENDMENTS

The Paulputs WEF ('PWEF') is authorised for the maximum height to tip of the blade of 230m, with a hub height of up to 140m, a rotor diameter of up to 180m and a blade length of up to 90m. PWEF are proposing to give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd and Paulputs Wind Energy Facility South (Pty) Ltd to split and amend the Environmental Authorisation (EA) into three amendment applications for EA.

The summary of each amendment application is defined below. These amendments will be referred to as 'the projects' going forward in this document.

- **Paulputs North Amendment: (Figure 2)** Paulputs Wind Energy Facility North (RF) (Pty) Ltd ('Paulputs North') intends to construct and operate a 150MW WEF (Paulputs North WEF) consisting of up to 40 turbines, with a hub height of up to 180m, blade length of up to 110m and a rotor diameter of up to 220m. This authorisation will also include the authorised Paulputs WEF preferred on-site substation and a proposed Battery Energy Storage Facility in the area authorised for temporary laydown. All infrastructure is to be located on the north west of the N14 Highway. This amendment application and report will be referred to as the 'proposed amendment';
- **Paulputs North Grid Connection Amendment: (Figure 2)** PWEF give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd ('Paulputs North') to remove the authorised 132 kV Grid Connection (Option C) from its authorisation in favour of ownership by Paulputs Wind Energy Facility North (RF) (Pty) Ltd ('Paulputs North') for use at the Paulputs North WEF site. The approved grid connection will be taken over by Eskom in the future and thus requires its own Environmental Authorisation. This amendment application and report will be referred to as the 'proposed amendment'; and
- **Paulputs South Amendment: (Figure 3)** Paulputs Wind Energy Facility South ('Paulputs South') intends to construct and operate a 150MW WEF (Paulputs South WEF) consisting of up to 35 turbines, with a hub height of up to 180m, blade length of up to 110m and a rotor diameter of up to 220m

The three applications will be submitted to the Department of Forestry, Fisheries and Environment acting as the Competent Authority.

The authorised Paulputs WEF, grid connection and substation was proposed to be located approximately 35 km north-east of Pofadder and approximately 85 km north-west of Kakamas in the Northern Cape Province. The authorised Paulputs WEF was proposed to be situated in two district municipalities, the Namakwa District Municipality and the ZF Mgcawu District Municipality, and within the Khâi-Ma Local Municipality and the Kai !Garib Local Municipality.

PROJECT DEVELOPMENT DETAILS: BASIC ASSESSMENT

Paulputs Wind Energy Facility (RF) (Pty) Ltd ('PWEF'), a wholly owned subsidiary of WKN Windcurrent SA (Pty) Ltd, was granted environmental authorisation for the 300MW (75 turbines) Paulputs Wind Energy Facility (WEF) and its associated 132kV OHPL on 11 December 2019 by the Department of Environment, Forestry and Fisheries (DEFF) (DEFF Reference No. 14/12/16/3/3/2/1120). As part of the original Environmental Impact Assessment (EIA), three alternative OHPL options (A, B and C) and three alternative on-site substation options (A, B and C) were assessed. The Competent Authority (CA), DEFF, chose to only issue a favourable authorisation for the preferred OHPL option 'C' and on-site substation option 'A' (Figure 1).

To comply with the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP) bidding requirements, the abovementioned 300MW Paulputs WEF is being split into the 150MW Paulputs South WEF and the 150MW Paulputs North WEF (being split as part of a separate amendment application). The authorised OHPL option 'C' and on-site substation option 'A' will be used for Paulputs North WEF and a new authorisation for additional electrical infrastructure is now required to connect Paulputs South WEF to the National Grid.

As a result of the decision above, WKN Windcurrent SA (Pty) Ltd, under the Special Purpose Vehicle (SPV) Paulputs Wind Energy Facility South (RE) (Pty) Ltd ('Paulputs South'), is seeking Environmental Authorisation for the alternatives not approved in the original EIA. Paulputs South intends to construct and operate the Paulputs South WEF OHPL and Substation yard (the 'proposed development') (**Figure 4**) which, as read above, is vital for connecting Paulputs South WEF to the National Eskom Grid and for ensuring the Paulputs South WEF's successful contribution to the REIPPPP.

Both the OHPL and substation above were assessed as part of the approved Paulputs WEF (Reference No. 14/12/16/3/3/2/1120), and as such, the BAR assessment will serve to validate the information contained within the approved EIA report (Arcus, 2019) for the Paulputs WEF such that:

- The proposed OHPL route was originally referred to as the OHPL Option A; and
- The Proposed On-site Substation area was originally referred to as the Substation Option C.

The proposed development is located approximately 35 km north-east of Pofadder and approximately 80 km west of Kakamas and is situated in two district municipalities, the Namakwa District Municipality and the ZF Mgqawu District Municipality, and within the Khâi-Ma Local Municipality and the Kai !Garib Local Municipality, Northern Cape Province.

In terms of Regulation 11 of the NEMA EIA Regulations, 2014 (as amended), the Applicant ('Paulputs South') requested that the Department consider issuing two separate Environmental Authorisations for (1) A OHPL and (2) A Substation yard, including BESS, as the OHPL will eventually be taken over by Eskom. This approach has been approved by the DEFF on 08 September 2020 and one combined Basic Assessment Report and Application has been submitted for consideration.

APPENDIX C3: DRAFT AMENDMENT REPORT NOTIFICATION

APPENDIX C4: STAKEHOLDER CORRESPONDENCE

- 4.1. Initial Notification**
- 4.2. Draft Amendment Phase**

21 July 2021

Dear Interested & Affected Party,

INITIAL NOTIFICATION

**THE PROPOSED AMENDMENT AND SPLIT OF THE PAULPUTS WIND ENERGY FACILITY
AND ASSOCIATED GRID CONNECTION INFRASTRUCTURE**

&

**THE PROPOSED BASIC ASSESSMENT FOR THE PAULPUTS WIND ENERGY FACILITY
SOUTH (PTY) LTD ASSOCIATED SUBSTATION AND GRID CONNECTION**

Paulputs Wind Energy Facility (RF) (Pty) Ltd ('PWEF'), a wholly owned subsidiary of WKN-WindCurrent (Pty) Ltd, are proposing to give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd and Paulputs Wind Energy Facility South (RF) (Pty) Ltd to split and amend the Environmental Authorisation (EA), received 11 December 2019 (DFFE Reference No. 14/12/16/3/3/2/1120), into three amendment applications for EA:

- 150MW Paulputs WEF North and Associated Infrastructure – *Amendment Application 1*
- 132kV Grid Connection for Paulputs WEF North – *Amendment Application 2*
- 150 MW Paulputs WEF South and Associated Infrastructure - *Amendment Application 3*

A Separate Basic Assessment process and Environmental Authorisation will be undertaken to authorise a 132kV Grid connection, On-site substation and Battery Energy Storage as part of the Paulputs South WEF. Both the grid connection and substation were assessed as part of the approved Paulputs WEF (Reference No. 14/12/16/3/3/2/1160).

Arcus Consultancy Services South Africa (Pty) Ltd ('Arcus') has been appointed to provide an independent environmental service, which includes undertaking the necessary applications in terms of Chapter 4 and Chapter 5 of the National Environmental Management Act, 1998 (Act 107 of 1998 – NEMA) as amended.

Three EA Amendment Applications and One Basic Assessment Report and Application will be submitted to the Department of Forestry, Fisheries and Environment (DFFE).

You are receiving this initial notification because you were pre-identified as an Interested & Affected Party (I&AP). Public Participation is an important part of the environmental authorisation process. It offers I&APs the opportunity to obtain information, comment, raise issues of concern and collaborate in the authorization process. Comments, suggestions and inputs from the public, along with specialists assessments of the various environmental impacts of the project will assist the DFFE in their decision making process.

Should you have any comments, questions, queries, concerns or wish to receive more information about the proposed applications at any stage, please contact Arcus through the following ways:

AANVANKLIKE KENNISGEWING

**DIE VOORGESTELDE WYSIGING EN SPLIT VAN PAULPUTS WIND ENERGIE
FASILITEIT EN GEPAARDGAANDE NETWERKINFRASTRUKTUUR**

EN

**DIE VOORGESTELDE BASIESE ASSESSERING VIR DIE PAULPUTS WIND ENERGIE
FASILITEIT SUID (RF) (EDMS.) BPK. GEASSOSIEERDE SUBSTASIE EN
NETVERBINDING**

Paulputs Wind Energy Faciliteit (RF) (Edms.) Bpk. ('PWEF') 'n volfiliaal van WKN-WindCurrent (Edms.) Bpk., stel voor om toestemming te verleen aan Paulputs Wind Energy Faciliteit Noord (Edms.) Bpk. en Paulputs Wind Energy Faciliteit Suid (Edms.) Bpk. om die Omgewingsmagtiging (EA), wat op 11 Desember 2019 ontvang is, te verdeel en te wysig (DFFE Verwysingsnr. 14/12/16/3/3/2/1120), in drie wysigingsaansoeke vir EA:

- 150MW Paulputs WEF Noord en Geassosieerde infrastruktuur– *Wysigingsaansoek 1*
- 132kV Netverbinding vir Paulputs WEF Noord – *Wysigingsaansoek 2*
- 150 MW Paulputs WEF Suid en Geassosieerde infrastruktuur - *Wysigingsaansoek 3*

'n Basiese assesseringsproses en omgewingsmagtiging sal onderneem word om 'n 132kV-netverbinding, substasie op die terrein en berging van battery-energie te magtig as deel van die Paulputs Suid WEF. Beide die netaansluiting en substasie is beoordeel as deel van die goedgekeurde Paulputs WEF (verwysingsnr. 14/12/16/3/3/2/1160).

Arcus Consultancy Services South Africa (Edms.) Bpk. ('Arcus') is aangestel om 'n onafhanklike omgewingsdiens te lewer, wat insluit die onderneem van die nodige aansoeke ingevolge Hoofstuk 4 en Hoofstuk 5 van die Nasionale Omgewingsbestuurswet, 1998 (Wet 107 van 1998 – NEMA) soos gewysig.

Drie EA-wysigingsaansoeke en een basiese assesseringsverslag en -aansoek sal by die Departement van Bosbou, Visserye en Omgewing (DFFE), vir 'n besluit voorgelê word.

U ontvang hierdie aanvanklike kennisgewing omdat u vooraf geïdentifiseer is as 'n Belanghebbende en Geaffekteerde Party (B&GP). Openbare deelname is 'n belangrike deel van die omgewingsmagtigingsproses. Dit bied B&GP's die geleentheid om inligting te verkry, kommentaar te lewer, kwessies wat kommer wek te opper en saam te werk aan die magtigingsproses. Kommentaar, voorstelle en insette van die publiek, saam met spesialiste se assesserings van die verskillende omgewingsimpakte van die projek, sal die Departement van Bosbou, Visserye en Omgewing (DFFE) met hul besluitnemingsproses help.

Indien u enige kommentaar, vrae, navrae, bekommernisse of meer inligting oor die voorgestelde aansoeke wil ontvang, kontak Arcus asseblief op die volgende maniere:

Subject: Request for a Pre-Application Meeting for 2 Amendments and a Basic Assessment for the Paulputs WEF

For Attention:

Chief Director: Integrated Environmental Authorisations

Kindly see below and attached for your consideration.

WKN-WindCurrent ('WKN') under the SPV, Paulputs WEF (RF) (Pty) Ltd, received environmental

authorisation for the Paulputs Wind Energy Facility (WEF) on 11 December 2019, DEFF Reference No. 14/12/16/3/3/2/1160.

Paulputs WEF is currently authorised for a maximum of 75 wind turbines with a total generation capacity of 300 MW, each with a maximum hub height of 140 m (rotor diameter height 180 m), one on-site substation (Option A) and an Overhead Power Line (grid connection) (Option C). Paulputs Wind Energy Facility (RE) (Pty) Ltd are proposing **to amend and split** the authorised Paulputs WEF into Paulputs North WEF and Paulputs South WEF.

Two EA amendment applications will be submitted to the DEFF (the Competent Authority). The Applicants (Paulputs North WEF (Pty) Ltd and Paulputs South WEF (Pty) Ltd) will request that the Department consider issuing three separate Environmental Authorisations for the amendments.

A Separate Basic Assessment process and Environmental Authorisation Application will be undertaken to authorise (1) a grid connection Option and (2) an on-site substation option for Paulputs South WEF. Paulputs South WEF (Pty) Ltd will request that the Department consider issuing two separate Environmental Authorisations for the Basic Assessment.

In this instance, and in accordance with any Application for authorisation in terms of the National Environmental Management Act, Act No. 107 of 1998, as amended and the Environmental Impact Assessment (EIA) Regulations, 2014, as amended (the Regulations), Arcus Consulting Services (Pty) Ltd, wishes to propose a virtual/online pre-application meeting with the Department of Environment, Forestry and Fisheries, as the Competent Authority.

We look forward to further communication.

Kind Regards

Dear Ashleigh

Please note that the Department has no mandate to approve the Public Participation Plan during alert level 2 of Covid-19. The direction that required submission of PPP during level 3 is no longer applicable in level 2. However, you are required to ensure that the EIA Regulations 2014 as amended are strictly followed and ensure that the disaster management directions which are still applicable are considered.

Kind regards

**MOTIVATION AS PER REGULATION 11 OF THE NEMA EIA REGULATIONS (AS AMENDED)
TO COMBINE THE BASIC ASSESSMENT APPLICATION FOR THE PAULPUTS WIND ENERGY
FACILITY SOUTH SUBSTATION AND ITS ASSOCIATED GRID CONNECTION**

REQUEST TO ISSUE TWO SEPARATE ENVIRONMENTAL AUTHORISATIONS AS PART OF
ONE BASIC ASSESSMENT REPORT AND APPLICATION.

WKN-WindCurrent ('WKN') under the SPV, Paulputs WEF (RF) (Pty) Ltd, received environmental authorisation for the Paulputs Wind Energy Facility (WEF) on 11 December 2019, DEFF Reference No. 14/12/16/3/3/2/1160. Paulputs WEF is currently authorised for a maximum of 75 wind turbines with a total generation capacity of 300 MW, each with a maximum hub height of 140 m (rotor diameter height 180 m), one on-site substation (Option A) and an Overhead Power Line (grid connection) (Option C).

Two separate Part II Amendment Application is being undertaken to split the authorised Paulputs WEF into (1) Paulputs WEF North and (2) Paulputs WEF South - divided by the N14 National Highway. This letter addresses the Basic Assessment undertaken in respect of a 132 kV on-site substation and 132 kV Grid Connection for the Paulputs WEF South.

Paulputs Wind Energy Facility South (Pty) Ltd ('Paulputs WEF South') are proposing the construction and operation of:

- Paulputs WEF South 132 kV, double circuit, loop-in/loop-out Grid Connection
- Paulputs WEF South 4 Ha on-site substation and battery storage.

Both the 132 kV grid connection and on-site substation were assessed as part of the approved Paulputs WEF (Reference No. 14/12/16/3/3/2/1160), however the DEA:DEFF only considered the preferred alternative for the approval of the EA. The Applicant appeals to the DEA:DEFF to consider allowing for a combined Environmental Authorisation (EA) Application and Basic Assessment report to be submitted in terms of Regulation 11 (3) and Regulation 11 (4).

Regarding Regulation 11 (3 and 4) Motivation: The Applicant intends to undertake activities triggered in respect of the on-site substation, as well as activities triggered in respect of the grid connection, within the same development, of which both are located on the Paulputs WEF South site. The grid connection will terminate at the Paulputs Eskom Substation. The proposed development of the on-site substation and grid connection are interrelated - the development of one may not proceed without the other. Combining the on-site substation and grid connection into a single basic assessment report will be preferable to simplify the EA Application process.

Following the above motivation, the Applicant would require the receipt of separate EA's, as the Grid Connection EA is expected to be transferred to Eskom after construction of the overhead powerline.

Impacts (including cumulative impacts) in respect of the on-site substation and grid connection have already been assessed as part of the Approved Paulputs WEF. For the submission of this basic assessment application, the original assessments undertaken by independent specialists (August 2019) have been revisited and verified. Verification letters will be submitted, alongside the original assessments, with this basic assessment report.

Conclusion:

In conclusion, the Department can expect the submission of one basic assessment EA application, for which two separate Environmental Authorisations is requested.

It would be duly appreciated if the above can be considered and allowed for by the DEA:DEFF. If there is any further information requested please do not hesitate to contact:

Dear Mr Dick

REQUEST TO SUBMIT A COMBINED APPLICATION FOR THE BASIC ASSESSMENT REPORT FOR THE PROPOSED PAULPUTS WIND ENERGY FACILITY SOUTH 132kV DOUBLE CIRCUIT LOOP-IN/LOOP-OUT GRID CONNECTION AND PAULPUTS WIND ENERGY FACILITY SOUTH 4HA ON-SITE SUBSTATION AS WELL AS THE BATTERY ENERGY STORAGE SYSTEM

The motivation letter requesting permission to submit a combined application for the Basic Assessment Report for the proposed Paulputs Wind Energy Facility South 132kV double circuit loop-in/loop-out grid connection and Paulputs Wind Energy Facility South 4ha on-site substation as well as the battery energy storage system (BESS) as received by this Department on 26 August 2020 as well as the additional information received on 02 September 2020, refer.

The Department has considered the information submitted in support of this request and has decided to grant WKN Wind Current SA (Pty) Ltd permission to submit one application for the abovementioned projects, in terms of Regulation 11(3) and 11(4) of the EIA Regulations, 2014 as amended, which states that:

- *"If a proponent or applicant intends undertaking more than one activity as part of the same development within the area of jurisdiction of a competent authority, a single application must be submitted for such development and the assessment of impacts, including cumulative impacts, where applicable, and consideration of the application, undertaken in terms of these Regulations, will include an assessment of all such activities forming part of the development"*

and

- *"If one or more proponents intend undertaking interrelated activities at the same or different locations within the area of jurisdiction of a competent authority, the competent authority may, in writing, agree that the proponent or proponents submit a single application in respect of all of those activities and to conduct a consolidated assessment process but the potential environmental impacts of each activity, including its cumulative impacts, must be considered in terms of the location where the activity is to be undertaken"*

Furthermore; the applicant must comply with Regulation 11(5) of the EIA Regulations, 2014 as amended, which states that:

- "Where a combined application is submitted as contemplated in these Regulations, the proponent must, prior to submission of the application, confirm with the competent authority the fee payable in terms of the applicable regulations for such combined application"

To comply with the aforementioned regulation 11(5) of the EIA Regulations as amended, the applicant must contact the Department at EIAAdmin@environment.gov.za for guidance.

The applicant is required to attach this approval letter on the application form on submission to the Department.

Should you have any queries or wish to discuss the points raised above, please do not hesitate to contact this Department on the contact details provided above

Yours faithfully

Good Afternoon Mike,

Apologies for such a late response.

At present the project is on hold. We anticipate submitting the Application for this project in May. As such, we are only in the beginning stages of Environmental Authorisation and do not foresee this project impacting on your proposed works for later this year/early next.

Should the status of this change, I will keep you informed.

Have a great day.

Good day Jackie

I am enquiring about the proposed Paulputs wind farm, our project is located in the North West corner of the map below.

Figure 2. Satellite image map of the project layout.

We would like some information about the status of the project and planned commencement dates, we are planning some works at a high level for late 2021 and 2022 would like to know if the proposed project can potentially impact our planning regarding:

- Road accessibility
- Substation outage
- Dust fall out for construction during months with high winds (August)

Dear Claudia,

This e-mail is to confirm your e-mail addresses as received telephonically this morning.

DEFF Reference Numbers: To Be Confirmed

Older DEFF Reference Number: 14/12/16/3/3/2/1120

Nature and Location of Activity: The authorised Paulputs Wind Energy Facility (WEF) and Grid Connection is located approximately 50 km north-east of Pofadder and approximately 80 km north-west of Kakamas, in the Northern Cape Province. Paulputs North Wind Energy Facility (RF) (Pty) Ltd intend to follow two Part II Amendment Processes and Paulputs South Wind Energy Facility (RF) (Pty) Ltd intend to follow a Part II Amendment and Basic Assessment Process.

Your details will be added to the Interested and Affected Party Database for this Project and you will receive all correspondence once the Public Participation Process to be undertaken in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended, commences.

Good morning,

Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <http://sahra.org.za/sahris/>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.

Please create an application on SAHRIS for each EA application and upload all documents pertaining

to the Environmental Authorisation Application Process. As per section 24(4)b(iii) of NEMA and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA.

Once all documents including all appendices are uploaded to the case applications, please ensure that the status of the cases is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application.

APPENDIX C7: COMMENT AND RESPONSES TABLE

7.1. Summary of Comments

Initial Notification Phase

The main correspondence received was from I&APs requesting to be registered on the I&AP database or for their details to be amended or removed in the database. These comments have not been included in the responses table, but are contained within Appendix 6. Three separate comments were received from Transnet requesting that the EAP provide a KMZ of the proposed development.

Comment was received from the DFFE in response to the EAPS request that the DFFE issue two separate EAs, assessed in one basic assessment report. A comment from a stakeholder was for clarity on the proposed development proposed project start date.

This comments and responses table will be updated throughout the duration of the basic assessment process. This table has comments collated by thread and not by date.
