

APPENDIX C 6: COMMENT AND RESPONSES TABLE

6.1. Summary of Comments

Initial Notification Phase

The main correspondence received was from I&APs requesting to be registered on the I&AP database or for their details to be amended or removed in the database. These comments have not been included in the responses table, but are contained within Appendix C 5i. Three separate comments were received from Transnet requesting that the EAP provide a KMZ of the proposed development. Eskom also requested KMZs of the facility. Other comment received was from one landowner asking the EAP to confirm that their farm will not be affected. EnviroWorks contacted Arcus on behalf of the existing XiNa SEF. Their comments have been included below.

Draft Amendment Phase

Comments were received from the DFFE: Integrated Environmental Authorisations and Biodiversity Directorate; SAHRA; and EnviroWorks on behalf of the existing XiNa SEF.

All information as per Table 6.1 below and Appendix C 5 is to date.

It must be noted that the comment and responses table has been updated throughout the duration of the basic assessment process. This table has comments collated by thread and not by date.

				that the status of the cases is changed from DRAFT to SUBMITTED. Please ensure that all documents produced as part of the EA process are submitted as part of the application.	
-	Natasha Higgitt SAHRA	04 August 2021 Email	Draft Amendment Phase	Good morning, The cases have been uploaded correctly. Please confirm that the following case was the original EA application for all cases: https://sahris.sahra.org.za/cases/paulputs-wind-energy-facility-northern-cape-province Kind regards,	Confirmed.
-	Natasha Higgitt SAHRA	30 August 2021 SAHRA Portal	Draft Amendment Phase	Enquiries: Natasha Higgitt Date: Monday August 30, 2021 Tel: 021 462 4502 Email: nhiggitt@sahra.org.za Page No: 1 CaseID: 16891 Final Comment In terms of Section 38(4), 38(8) of the National Heritage Resources Act (Act 25 of 1999) Attention: WKN Windcurrent SA (Pty) Ltd P.O. Box 762 Wilderness 6560 Paulputs Wind Energy Facility (RF) (Pty) Ltd ('PWEF'), a wholly owned subsidiary of WKN Windcurrent SA (Pty) Ltd, was granted environmental authorisation for the 300 MW (75 Turbine) Paulputs Wind Energy Facility (WEF) and its associated 132 kV grid connection on 11 December 2019 by the Department of Forestry, Fisheries and Environment (DFFE) (DFFE Reference No. 14/12/16/3/3/2/1120) (Figure 1). PWEF are proposing to give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd	EAP retrieved the Final comment; CaseID: 16891; from the SAHRA Portal. Responses are provided below.

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<p>and Paulputs Wind Energy Facility South (Pty) Ltd to split and amend the Environmental Authorisation (EA) into three amendment applications for EA. The summary of each amendment application is defined below: - Paulputs North Amendment: Paulputs Wind Energy Facility North (RF) (Pty) Ltd ('Paulputs North' – The Applicant) intends to construct and operate a 150MW WEF (Paulputs North WEF) consisting of up to 40 turbines, with a hub height of up to 180m, blade length of up to 110m and a rotor diameter of up to 220m. This authorisation will also include the authorised Paulputs WEF preferred on-site substation and a proposed Battery Energy Storage Facility in the area authorised for temporary laydown. All infrastructure is to be located on the western side of the N14 Highway. This amendment application and report will be referred to as the 'proposed amendment'; - Paulputs North Grid Connection Amendment: PWEF give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd to remove the authorised 132 kV Grid Connection (Option C) from its authorisation in favour of ownership by Paulputs Wind Energy Facility North (RF) (Pty) Ltd ('Paulputs North') for use at the Paulputs North WEF site. The approved grid connection will be taken over by Eskom in the future and thus requires its own Environmental Authorisation; and - Paulputs South Amendment: Paulputs Wind Energy Facility South ('Paulputs South') intends to construct and operate a 150MW WEF (Paulputs South WEF) consisting of up to 35 turbines, with a hub height of up to 180m, blade length of up to 110m and a rotor diameter of up to 220m. The focus of this amendment report is on the Paulputs North WEF Grid Amendment. The majority of the same specialists were</p>	

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<p>commissioned for this amendment report, with exception of the Avifaunal study. The original Avifaunal study for the approved Paulputs WEF EIA was undertaken by Andrew Pearson whom is no longer an employee of Arcus. Dr Owen Davies has replaced Andrew and undertook an additional site visit in February 2020 to verify the information contained in the approved Paulputs WEF Avifaunal specialist report. Dr Davies' avifaunal report and site verification report are contained in Volume II of this report.</p> <p>Arcus Consultancy Services South Africa (Pty) Ltd has been appointed by Paulputs Wind Energy Facility North (RF) (Pty) Ltd to conduct an Environmental Authorisation (EA) Amendment Application for the authorised Paulputs Wind Energy Facility, near Rooikoenap, Northern Cape Province (14/12/16/3/3/2/1120).</p> <p>A draft Amendment Assessment Report has been submitted in terms of the National Environmental Management Act, 1998 (NEMA) and the 2017 NEMA EIA Regulations. The proposed amendments include the splitting of the original EA into three EAs (North, South and a separate EA for the grid infrastructure). The amendment to the grid infrastructure includes change from a single circuit to a double circuit, loop-in and loop-out connection.</p> <p>SAHRIS Case ID 13356 has reference (https://sahris.sahra.org.za/cases/paulputs-wind-energy-facility-northern-cape-province). In a Final Comment issued on the 16/08/2019, SAHRA noted no objections to the development and provided conditions (https://sahris.sahra.org.za/node/527055).</p>	

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<p>ASHA Consulting has been appointed to provide heritage specialist input as part of the EA Amendment process as required by section 24(4)b(iii) of NEMA, and in terms of section 38(3) of the National Heritage Resources Act, Act 25 of 1999 (NHRA) as required by section 38(8) of the NHRA.</p> <p><i>Orton, J. 2020. Paulputs Wind Energy Facility Split: Heritage Considerations</i></p> <p>The specialist stated that the powerline was not surveyed during the original HIA, and the line does cross through areas of medium sensitivity. The pre-construction survey must still be conducted.</p>	
				<p>Final Comment The following comments are made as a requirement in terms of section 3(4) of the NEMA Regulations and section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and must be included in the Final Amendment Report and EMPr:</p> <ul style="list-style-type: none"> • 38(4)a – The SAHRA Archaeology, Palaeontology and Meteorites (APM) has no objections to the proposed amendment to the authorised development; • 38(4)b – The recommendations of the specialists are supported and must be adhered to. Further additional specific conditions are provided for the development as follows: • The conditions contained in the Final Comment issued on the 16/08/2019 on SAHRIS Case ID 13356 (https://sahris.sahra.org.za/node/527055) is still valid and must be adhered to; 	<p>The recommendations provided has been considered and has been included in the Final Amendment Report as part of the conditions to be included in the EA and EMPr for consideration and implementation. Unless such conditions are already authorised.</p> <p>The Final Amendment Report and EMPr as well as the decision regarding the EA Amendment Application will be communicated to SAHRA and uploaded to the SAHRIS Case application.</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<ul style="list-style-type: none"> • 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA APM Unit (Natasha Higgitt/Phillip Hine 021 462 5402) must be alerted as per section 35(3) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule; • 38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA Burial Grounds and Graves (BGG) Unit (Thingahangwi Tshivhase/Mimi Seetelo 012 320 8490), must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule; • 38(4)d – See section 51(1) of the NHRA; • 38(4)e – The following conditions apply with regards to the appointment of specialists: • i) If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA; • The Final Amendment Report and EMPr must be submitted to SAHRA for record purposes;

				<p>1</p> <p>Ensure that all amendments to the EA are applied for and provided in section 6 on page 8 of 13 of the application form (e.g. the inclusion of Battery Energy Storage System in Paulputs North Wind Energy Facility) including the conditions to be removed with reasons for each amendment.</p>	<p>The Application Form has been amended / updated and is being submitted with the final motivational report.</p> <p>A matrix detailing the required amendments as well as reasons for the proposed amendments has been appended to the application form. Refer to Appendix 8 of the Application Form.</p>	<p>Amended / Updated Application Form submitted with the Final Amendment Report.</p>
				<p>2</p> <p>In addition, please ensure that the amendments applied for in the application form are the same as the amendments described in the final Motivation report.</p>	<p>The amendments applied for in the application form (as included in the amended / updated application form and appended matrix) has been updated in the Final Motivation Report.</p>	<p>Amended / Updated Application Form Volume I: Final Amendment Report</p>
				<p>3</p> <p>You are advised to submit separate application forms for each facility (i.e., Paulputs North and South) indicating the proposed amendment i.e. relevant component and its capacity, what has been removed, what has been approved and the amendments as well as reason for each amendment.</p>	<p>The EAP confirmed this request with the relevant case officer and it was confirmed that the submission of separate application forms are not required. A single Amended / Updated application form with separate payments has been submitted with the Final Amendment Report.</p>	<p>Amended / Updated Application Form submitted with the Final Amendment Report.</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<p>4</p> <p>It has been noted that the proposed amendment 3 in the application form on page 8 refer to 132 kV grid connection while on page v of the motivational report, it has been indicated that this component would be removed. Please clarify that and ensure the proposed amendment are the same in both the application form and motivational report.</p>	<p>A single application form has been submitted with three separate Final Amendment Reports. Paulputs Wind Energy Facility (RF) (Pty) Ltd are proposing to give permission to Paulputs Wind Energy Facility North (RF) (Pty) Ltd and Paulputs Wind Energy Facility South (Pty) Ltd to split and amend the Environmental Authorisation (EA) into three amendment applications for EA.</p> <p>Amendment 3 as stated in the Application Form must be read in conjunction with the Motivational (Final Amendment) Report titled: "132 kV Grid Connection for the Paulputs North WEF" and not the Motivational Report titled: "Paulputs North WEF".</p> <p>The approved grid connection will be taken over by Eskom in the future and thus requires its own Environmental Authorisation, hence it has</p> <p>Volume I: Final Amendment Report</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
					been split from the original EA.
				5 The Department has noted that a certified EA or an affidavit that explains the unavailability of a certified EA is not appended to the application form. Therefore, you are required to provide certified EA or an original commissioned Affidavit/Affirmation under oath undertaken by the applicant and must be appended to the application form.	A certified EA has been appended to the Amended / Updated Application Form. Amended / Updated Application Form
				6 Provide a letters of acceptance of responsibilities and obligations of the EA by the new holders of the requested resultant three EAs.	Letters were included in as Appendix 8 in the Application Form submitted with the Draft Amendment Report. These have been included again as Appendix 7 in the Amended / Updated Application Form. Amended / Updated Application Form
				Draft Motivational Report	
				7 You are advised to submit separate final amendment report for each facility (i.e. Paulput North and South) indicating the proposed amendment, potential impacts as a result of the amendments and its assessment, inputs from the specialists and their recommendations, etc.	Separate reports for each facility has been submitted, which includes the proposed amendments, potential impacts as a result of the amendments and its assessment, inputs from the specialists and their recommendations, etc. Separate reports were subjected to a Public Participation Process from 02 August 2021 to 01 Volume I: Final Amendment Report

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
					September 2021 (both days inclusive). These reports have been updated from 'Draft' to 'Final' and the changes from 'Draft' to 'Final' have been reflected on Page ii of each Final Motivational / Amendment Report.
8				It has been mentioned on page 11 of the motivational report for Paulputs North that there is uncertainty regarding the preferred BESS choice and different BESS technology has been considered. You are advised to indicate the preferred BESS technology in the final amendment report as well as the description of the impacts assessment and how such impacts would be mitigated.	The Final Motivational / Amendment Report for Paulputs North WEF has been updated to reflect the preferred BESS technology (Section 3.2.2) and impact assessment of the BESS technology (Section 9 – 11). Amendment 2: Volume I: Final Amendment Report of the Report titled: "Paulputs North WEF"
9				On page 4 of the draft motivation reports (Paulputs North WEF, South WEF and Paulputs North WEF grid connection) it is stated that authorised Paulputs WEF, grid connection and substation was proposed to be located approximately 35km north-east of Pofadder while in the EA it is stated that the site is located 50km from north east of Pofadder. Please note that any change in detail in the EA must be applied for and a motivation for that amendment must be provided. Therefore, you are required to provide the correct details (distance) in the final amendment report taking into	The respective amendment has been added to the Amended / Updated Application Form, and is contained within the Matrix (Appendix 8 of the Application Form). Changes are now reflected in both the Amended / Updated Application form as well as corresponding Final Motivational / Amendment Reports. Amended / Updated Application Form Volume I: Final Amendment Report

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				consideration the information in the EA and the FEIAr. In addition, amendment of such must be included in the amendment application if the information is incorrect.	Reasons for the changes to the distance as were indicated in the draft motivation reports (Paulputs North WEF, South WEF and Paulputs North WEF Grid Connection) is that the approved EIA and subsequent EA incorrectly represented the true distance of the facility (300 MW Paulputs Wind Energy Facility) to Pofadder at being 50 km away. This has been corrected to be more specific (35 km) in terms of the distance from the town of Pofadder to the facility, in the draft motivation reports (Paulputs North WEF, South WEF and Paulputs North WEF Grid Connection), and carried through to the Final Motivational / Amendment Reports.
			10	You are required to provide all the details of the original EA that relates to each of the splits and ensure that correct details of the EA are provided in the relevant splits.	The Amended / Updated Application Form has been amended/updated and is being submitted with the final motivational reports. Separate matrix letters detailing the required amendments as well as reasons for the proposed amendments has been Amended / Updated Application Form Volume I: Final Amendment Report

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
					<p>appended to the Amended / Updated Application Form. Refer to Appendix 8 of the Amended / Updated Application Form.</p> <p>Changes are now reflected in both the Amended / Updated Application form as well as corresponding Final Motivational / Amendment Reports.</p>
				11 Furthermore, ensure that the total area of the development sites of the three splits tallies with the area of the development site as authorised in the EA.	<p>These changes are now reflected in both the Amended / Updated Application form as well as corresponding Final Motivational / Amendment Reports.</p> <p>Amended / Updated Application Form</p> <p>Volume I: Final Amendment Report</p>
				12 Ensure that all the properties affected by the authorised development are reflected correctly in relation to amendment 2 on page 6 of the Paulputs North WEF grid connection amendment report and page 7 of both Paulputs South and North WEF reports.	<p>All the properties affected by the authorised development are reflected correctly in relation to each proposed amendment.</p> <p>Properties as contained in the Application Form submitted with the Draft motivational report and Draft Motivational / Amendment Reports remain unchanged in the Amended / Updated Application and Final Motivational / Amendment Reports.</p> <p>Amended / Updated Application Form</p> <p>Volume I: Final Amendment Report</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<p>13</p> <p>It is indicated on page 9 of the draft motivation report (Paulputs North WEF) that the BESS will occupy temporary lay down area of 1,5ha whereas in the EA the laydown area is 1ha, please explain this discrepancy. The motivational report on page 1 indicated that the BESS will be located in the area authorised for temporary laydown. Therefore, you are advised to amend this and ensure the BESS located is shown on the final layout for this facility in relation to the approved laydown area location.</p>	<p>This was a typographical error of the EAP. The authorised area of 1 Ha for temporary storage will be occupied by the BESS. This change has been reflected in both the Amended / Updated Application form as well as corresponding Final Motivational / Amendment Report.</p> <p>The location of the BESS is shown on Updated Figure 3.</p> <p>Amended / Updated Application Form</p> <p>Amendment 2: Volume I: Final Amendment Report of the Report titled: "Paulputs North WEF"</p>
				<p>14</p> <p>You are required to confirm whether or not the double circuit 132 kV loop in loop out grid connection was assessed in the original EIA and is located within the assessed 300m corridor. Furthermore, you are required to indicate if there would be additional impacts as a result of this.</p>	<p>A single circuit 132 kV grid connection was assessed as part of the approved EIA/EMPr. This grid connection was assessed by specialists for a 300m wide corridor (150 m on either side of the overhead powerline).</p> <p>The proposed amendment to a 132 kV Double Circuit loop in loop out grid connection has been assessed by the specialists and EAP. This line does not deviate from that which was approved and will be contained within the 300 m corridor previously assessed by specialists. No additional impacts are expected. By</p> <p>Volume I: Final Amendment Report</p> <p>Volume II: Proposed Amendment Specialist Studies</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
					making this change from single circuit to double circuit, does not change the capacity of the connection, nor does it require any additional footprint. Therefore, the change does not trigger any listed activity nor does it trigger any additional impacts.
				15 On page 9 of the grid connection amendment report, you have included a 300m corridor. Please confirm whether the original EIA assessment assessed 300m corridor and refer to the relevant pages in the initial reports. Ensure that any change in the detail of the original EA is applied for and a motivation is provided for that change and an indication of the assessment of such. If not assessed, you are advised to verify if the changes would not trigger a listed activity in order to obtain authorisation through the correct process.	<p>The original EIA assessed a 300 m wide corridor (Reference: Final EIAR, Arcus, August 2019, Page ii; 10; 16; 106; and 114).</p> <p>An extract from the original EIA reads: "<i>Internal reticulation between onsite substation Option A and Option C is approximately 6.5 km of overhead powerlines, assessed as a 300 m wide corridor by the specialists.</i>"</p> <p>In conclusion, this 300 m corridor was assessed during the original EIA and Amendment process and no Listed Activities are triggered.</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				16 Ensure that amendment 3 on page 8 of the amendment report (Paulputs North WEF) is stated correctly.	<p>The amendment details for Amendment 3 were removed from the Paulputs North WEF amendment report.</p> <p>The Amended / Updated Application Form and Final Amendment Report for the Paulputs WEF North Grid Connection states the Amendment details correctly.</p> <p>Volume I: Final Amendment Report</p> <p>Amendment 2: Volume I: Final Amendment Report of the Report titled: "Paulputs North WEF"</p> <p>Amended / Updated Application Form</p>
				17 It has been noted on page 48-49 of the reports (Paulputs North WEF and South WEF) that you have recommended inclusion of conditions to the EAs, you are required to provide a motivation for inclusion of these conditions to the EA.	<p>A motivation for the inclusion of these conditions into the EA has been included in the respective Final Motivational / Amendment Reports.</p> <p>Volume I: Final Amendment Report</p>
				18 The Department has noted on page 16 of the reports (Paulputs North and South WEF) that you are requesting condition 13 of the EA to be retained in the resultant splits (Paulputs North WEF and South WEF) but condition 14 and 15 to be removed from the EA. Please note that the three conditions are linked, therefore all three conditions must be complied with prior to the approval of the EMPr.	<p>The EAP is in agreement with the DFFE. The EAP has thus amended the Final Amendment Report(s) to reflect that Condition 13, 14 and 15 be retained as is in the new EA/s (see Section 3, Table 3-3 in the respective Final Amendment Reports).</p> <p>In addition, the Application Form has been amended/updated and is being submitted with the final motivational reports. A</p> <p>Volume I: Final Amendment Report</p> <p>Amended / Updated Application Form</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
					matrix detailing the required amendments as well as reasons for the proposed amendments has been appended to the application form for each amendment. Refer to Appendix 8 of the Amended / Updated Application Form.
19				You have requested the deletion of condition 19-20, please confirm whether an audit report has been compiled for this development as these conditions require a compilation of an audit report and condition 21 22 and 23 are linked to the two aforementioned conditions. In addition, it must be noted that if the audit was undertaken, it was for facility prior the splitting, therefore, this should be communicated and agreed with the relevant authority undertaking the audit of the development prior removing such conditions.	<p>The EAP confirms that no audit report has been conducted. The EAP has thus amended the Final Amendment Report(s) to reflect that Condition 19 - 23 be retained as is in the new EA/s (see Section 3, Table 3-3 in the respective Final Amendment Reports).</p> <p>In addition, the Application Form has been amended/updated and is being submitted with the final motivational reports. A matrix detailing the required amendments as well as reasons for the proposed amendments has been appended to the application form for each amendment. Refer to Appendix 8 of the Amended / Updated Application Form.</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response	
				20 In the grid connection draft motivation report, you have requested the deletion of condition 14 of the EA and indicated that a generic EMPr will be submitted for approval instead. Please note that the generic EMPr is required for new applications for EA that trigger activity 11 of Listing Notice 1 and activity 09 of Listing Notice 2 not for an amendment application.	<p>The generic EMPr has been removed and will not be submitted with the final Paulputs North WEF Grid Connection Report.</p> <p>It must be noted that the EMPr appended to the Final Motivation Report derived from the Paulputs North WEF (separate report) EMPr which was made available for public comment and review during this amendment application process.</p>	Volume I: Final Amendment Report - Appendix B: EMPr.
				21 Additionally, a generic EMPr is not required for the (Paulputs North WEF grid connection) rather an EMPr that is derived from the original EMPr taking into consideration the proposed amendments.	<p>The generic EMPr has been removed and will not be submitted with the final Paulputs North WEF Grid Connection Report.</p> <p>It must be noted that the EMPr appended to the Final Motivation Report derived from the Paulputs North WEF (separate report) EMPr which was made available for public comment and review during this amendment application process.</p>	Volume I: Final Amendment Report - Appendix B: EMPr.
				22 Furthermore, generic EMPrs have been appended to the reports (Paulput North	The Generic EMPr has been removed from the Final	Amendment 2: Volume I: Final Amendment Report of

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				<p>Good Day Ashleigh</p> <p>I trust you are well.</p> <p>Apologies for my delayed response, it been crazy on our side.</p> <p>I had a discussion with XiNa Solar One as well as KaXu Solar One, and their main concerns are as follow:</p> <p>We have given it some consideration and would like to raise the following, key concerns being soiling and shading.</p>	<p>Thank you for your comments. I just want to confirm which comments pertain to the WEF amendments, and which comments (if any) pertain to the BAR?</p> <p>If you could please just separate these if they are related to the different applications so that we can best answer you? I need to ensure that your comments are correctly captured across the different applications.</p> <p>Thank you, Ashleigh von der Heyden</p>
				<p>Shading: Will the developer complete a shading study to ensure that morning solar radiation is not obstructed to the nearby IPP solar facilities.</p>	<p><i>It is not clear which application each of these questions applies to:</i></p> <ol style="list-style-type: none"> 1. <i>The Amendments for the wind farms (to split into two EAs and increase the turbine sizes)</i> 2. <i>The Amendment to split off the EA for the already authorised powerline route,</i> 3. <i>The BAR for a powerline route directly to Paulputs Substation.</i> <p><i>Therefore, answers are provided on behalf of all applications for each question wherever applicable.</i></p> <p><i>In addition, it is assumed that "IPP solar facilities" refer to the preferred bidders KaXu CSP, XiNa CSP, Konkoosies 1 PV and Konkoosies 2 PV.</i></p> <p>The wind farms and existing powerline route are approximately 8 km from any of the 'IPP solar facilities'. A shading study should not be necessary.</p> <p>The powerline route directly to Paulputs Substation (the BAR) would travel between XiNa and Konkoosies 2 close to the fence dividing the farm portions, and be over from either facility. The pylons would not be taller than 30m, and be spaced 200-400m apart, and therefore not result in shading for the IPP solar facilities either.</p>

Ref	Name and Organisation	Date and Method	Phase of PPP	Comment	Response
				Soiling: Will the developer conduct a dust study during construction as well as conduct continuous mitigation and dust monitoring activities so as to not induce soiling on the nearby solar facilities.	Yes, the applicant will implement dust mitigation and minimisation wherever practical to ensure that the development has minimal impact on the nearby solar facilities. Dust suppression and erosion management must be an integrated component of the construction approach as per the EMPr. Please refer to Section 5, 6, 7 and 13.6 of the EMPr (Appendix B).
				Downstream Wind Impacts: The exact setbacks are unclear from the map but will these be clearly defined and will the developer complete a study on the downstream impact of wind and wake effects on the nearby solar facilities to ensure that abnormal wind loading is not induced on the existing solar facility as a result of newly developed wind project. This concern is raised not only for solar collectors but also to understand the impact on Air Cooled Condenser efficiency, if in close proximity.	The closest wind turbine will be approximately 8 km to the closest IPP solar facility (XiNa CSP). With the nearest turbine being approximately 8 km away, any turbulence caused by wake effects will have long subsided.
				Tx Connection: Will the connection of the nearby solar facility's be interrupted at any point for the connection of the new substation and lines.	No, the connection of the current IPP solar facilities would not be interrupted, with the connection of the new substation and lines.
				Road Access: Will the additional traffic during construction impact on normal road use and plant access to the nearby solar facilities. Can you please acknowledge receipt of this email? If you have any questions please feel free to contact me. I hope you have a blessed week. Kind Regards/Vriendelike Groete Christoff (Doepie) du Plessis 051 436 0793	No, the access to the wind farms will be from the N14, and so the development should not impact the roads that lead to the nearby solar facilities. Receipt of e-mail was acknowledged, no response from the I&AP was received i.t.o. confirmation on which comment related to which application. The responses provided by the developer / EAP relates to All Applications as applicable to the comment received.
