RE: MOTIVATION FOR PORTION 2 & 17 OF ERF 678, 348 FLORIDA ROAD, MORNINING SIDE, DURBAN

As the official Architectural applicant appointed for deviations to the above-mentioned project, my client would like to do require permit for the deviations complete

Mr K Chinniah, my client, has recently completed the renovations as per the approved plan No 217 03 12 attached. He has devated from the plan and requires Amafa KZN Hertiage approval to proced further.

He has been givin a permit from the prevoius drawings. The changes are minor and only affects the south east elevation.

The changes are listed as follows:

- 1 – Existing door removed from south east façade & bricked up.
- 2 - Door moved into internal laundry room wall.
- 3 - Hand wash basin moved to external side

In conclusion, we are very eager to continue to get all documentation in order for personal & council usage. We are adamant that with the support of the Amafa Heritage and local authority we will be able to achieve our goal.

I trust that this application will be viewed favourably by the committee.

Thank you,
Regards,
HB Architects
