Good day,

The Department acknowledges receipt of a Pre-Application Water Use Enquiry.

Please provide a summarised background for the application (including background, location and possible water uses) for further assistance.

Regards

Khutjo Sekwaila

Hi Andrew

For your records below, the application request has been submitted, with application ref number - WU18778. The application as it stands includes water uses 21a (12 000m3 BH abstraction), and 21 c & i for towers within alluvial riverbeds or within 500m of a wetland boundary, based on the current tower positions received.

I will give Khutjo listed below a day or so to have a look and then make contact with regard the way forward / information requirements from his / DWS side.

He is working on many RMIPPPP applications, so understands the pressures/deadlines for these submissions

Thanks and regards

Brian
