

APPENDIX E: PUBLIC PARTICIPATION PROCESS

ANNEXURE A: Site notice text

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

Notice is given of a Basic Assessment in terms of terms of Chapter 6 of the National Environmental Management Act, 1998 (NEMA) 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2014, of intent to carry out the following activity:

Project name: The Construction of a Christian Community Center for the purposes of Community Upliftment on Plot 34 of the Farm Avontuur 725 JT.

Project description: The Christian Community Center would consist of:

- Orphan Housing
- Mission Guest Housing
- Food Prep, cold storage and general storage
- Sheds
- Tunnel gardens
- Classrooms
- Dorms ablution
- Orchard expansion

Listed activity: GN 983, Listing Notice 1 of 2014 - Activity: 12; 19 & 27
GN 985, Listing Notice 3 of 2014 – Activity 5, 12 and 14

Location: Plot 34 of the Farm Avontuur 725 JT.

Proponent: Friends of Emoyeni

Consultant: Henwood Environmental Solutions
P.O. Box 12340, Steiltes

NELSPRUIT, 1213

Tel: 078 672 3645

E-Mail: shenwood@mweb.co.za

Contact: Steven Henwood

Further information pertaining to this project can be obtained from the contact person above, on request.

In order to ensure that you are identified as an interested and/or affected party, please submit in writing (fax, email, letter) your name, contact information and interest in the matter to the contact person given above within 30 days of date of this advertisement.

ANNEXURE C: Background Information Document (BID) text

BACKGROUND INFORMATION DOCUMENT

For the Construction of a Christian Community Center for the purposes of Community Upliftment on Plot 34 of the Farm Avontuur 725 JT.

PURPOSE OF THIS DOCUMENT

The purpose of this document is to provide background information to the proposed project and to obtain comments and contributions from stakeholders with regards to potential environmental impacts – which includes (but is not limited to): ecological, social, economic, physical, aesthetic, etc.

You are invited to register as an Interested and Affected Party (I&AP) and to assist us in identifying possible impacts of the proposed development on the environment and to make suggestions for mitigation and/or alternatives.

Please complete the enclosed reply sheet and forward it to the address provided below:

Postal Address: P.O. Box 12340, STEILTES, NELSPRUIT, 1213

Fax: 086 719 6216

E-mail: Steven Henwood shenwood@mweb.co.za

For any enquiries or further information contact us at:

Tel: 078 672 3645

APPLICABLE LEGISLATION

The Environmental Impact Assessment (EIA) process is a planning and decision-making tool that is used to identify the potential environmental impacts of a proposed development or project. It is conducted in compliance with Chapter 6 of the National Environmental Management Act, 1998 (NEMA) 1998 (Act No. 107 of 1998), as amended and the Environmental Impact Assessment Regulations, 2014. The regulations identify a list of activities (Government Gazette GN983, GN984 and GN985) for which an EIA must be conducted.

The proposal has the following listed activities:

GN 983, Listing Notice 1 of 2014

Activity: 12

"The development of-

(i) canals exceeding 100 square metres in size;

(ii) channels exceeding 100 square metres in size;

(iii) bridges exceeding 100 square metres in size;

(iv) dams, where the dam, including infrastructure and water surface area, exceeds 100 square metres in size;

(v) weirs, where the weir, including infrastructure and water surface area, exceeds 100 square metres in size;

(vi) bulk storm water outlet structures exceeding 100 square metres in size;

(vii) marinas exceeding 100 square metres in size;

(viii) jetties exceeding 100 square metres in size;

(ix) slipways exceeding 100 square metres in size;

(x) buildings exceeding 100 square metres in size;

Activity: 19

The infilling or depositing of any material of more than 5 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 5 cubic metres from-

(i) a watercourse;

(ii) the seashore; or

(iii) the littoral active zone, an estuary or a distance of 100 metres inland of the high-water mark of the sea or an estuary, whichever distance is the greater but excluding where such infilling, depositing, dredging, excavation, removal or moving-

(a) will occur behind a development setback;

(b) is for maintenance purposes undertaken in accordance with a maintenance management plan; or

(c) falls within the ambit of activity 21 in this Notice, in which case that activity applies.

Activity: 27

The clearance of an area of 1 hectares or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for-

(i) the undertaking of a linear activity; or

(ii) maintenance purposes undertaken in accordance with a maintenance management plan."

GN 985 Listing Notice 3 of 2014

Activity: 5

"The development of resorts, lodges, hotels and tourism or hospitality facilities that sleeps less than 15 people."

Activity: 12

"The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.

(a) In Mpumalanga, Eastern Cape, Free State, Gauteng, Limpopo, North West and Western Cape provinces:

i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the

NEMBA or indigenous vegetation is prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;

ii. Within critical biodiversity areas identified in bioregional plans;"

Activity: 14

The development of-

- (i) canals exceeding 10 square metres in size;
 - (ii) channels exceeding 10 square metres in size;
 - (iii) bridges exceeding 10 square metres in size;
 - (iv) dams, where the dam, including infrastructure and water surface area, exceeds 10 square metres in size;
 - (v) weirs, where the weir, including infrastructure and water surface area, exceeds 10 square metres in size;
 - (vi) bulk storm water outlet structures exceeding 10 square metres in size;
 - (vii) marinas exceeding 10 square metres in size;
 - (viii) jetties exceeding 10 square metres in size;
 - (ix) slipways exceeding 10 square metres in size;
 - (x) buildings exceeding 10 square metres in size;**
 - (xi) boardwalks exceeding 10 square metres in size; or
 - (xii) infrastructure or structures with a physical footprint of 10 square metres or more;
- where such development occurs-
- (a) within a watercourse;
 - (b) in front of a development setback; or
 - (c) if no development setback exists, within 32 metres of a watercourse, measured from the edge of a watercourse; -
- excluding-
- (aa) the development of infrastructure or structures within existing ports or harbours that will not increase the development footprint of the port or harbour;
 - (bb) where such development activities are related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies;
 - (cc) activities listed in activity 14 in Listing Notice 2 of 2014 or activity 14 in Listing Notice 3 of 2014, in which case that activity applies;
 - (dd) where such development occurs within an urban area; or
 - (ee) where such development occurs within existing roads or road reserves.

Therefore, a Basic Assessment is required.

When an applicant proposes to undertake a listed activity, an application must be made for environmental authorisation. The application must be supported by a report, which has been compiled as a result of an assessment procedure. After the competent authority has made a decision on the application, an appeal may be made against the decision, or parts thereof.

Henwood Environmental Solutions (HES), as the independent Environmental Consultant, has been appointed by the proponent/applicant to compile the Basic Assessment Report, which will be reviewed by the relevant competent authority (e.g. Department of Agriculture, Rural Development, Land and Environmental Affairs) after a thorough public participation process has been conducted.

This includes the opportunity to review all draft documentation before submission to DARDLEA.

The phases of a Basic Assessment are:

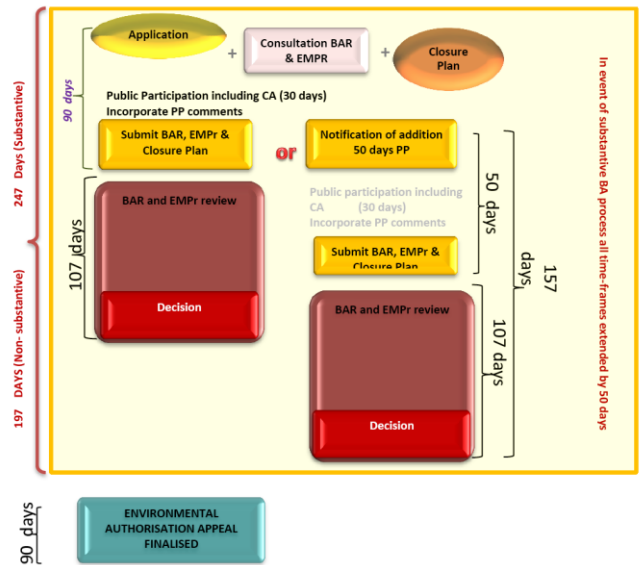

Figure 1

The aim of this report is to ensure that the environmental impacts are taken into consideration, to ensure stakeholder engagement, and to provide decision makers with sufficient information to make an informed decision on the proposed activities.

The Record of Decision (RoD) as to whether the proposed project should proceed will be based on information provided in the Report.

Your comments will form part of the Report.

PUBLIC INVOLVEMENT

The public has the right to be informed about any activity that might have an impact, whether desirable or undesirable, on the environment.

The purpose of the public participation process is to inform, consult, involve, collaborate with, and empower stakeholders in the decision making process.

The objective of informing is to provide balanced and objective information to the public in order to assist with understanding of all existing issues.

Consultation will allow for feedback from stakeholders on alternatives and decisions that can inform the EIA process.

LOCATION

The site is situated on on Plot 34 of the Farm Avontuur 725 JT (see the locality map as attached).

GPS Coordinates:

- 25° 57' 34.2247" S
- 30° 30' 46.7640" E

PROJECT BACKGROUND & MOTIVATION

The Background and Description

The Friends of Emoyeni Children's Village organization has been working in the Albert Luthuli District since 2004. Since then they have built 6 homes for orphans, 3 pre-schools, and a church. They currently run 2 of the pre-schools with about 70 children attending and the other preschool has over 100 children attending. They run 6 kitchens where 22 bomake prepare meals for about 1100 children weekly. They provide school uniforms and blankets, visit the sick in their homes and provide meals for the needy. Friends of Emoyeni provide full time employment for 8 people and part-time employment for 25 people.

Last year the Friends of Emoyeni organisation bought a small farm in the area (Plot 34 of the Farm Avontuur 725 JT) with the view to developing a Christian Community Center, which would in turn:

1. Grow vegetables for the kitchens
2. Grow Macadamias to sustain projects and develop new ones
3. Host kids and Youth camps
4. Host international teams who assist in the projects
5. Host international and local students in Training Programs
6. Conduct Skills development programs
7. Provide housing for orphan and vulnerable children

The Christian Community Center would consist of:

- Orphan Housing
- Mission Guest Housing
- Food Prep, cold storage and general storage
- Sheds
- Tunnel gardens
- Classrooms
- Dorms ablution
- Orchard expansion

There is a dire need for the services intended and the development of the Community Center would realise this.

See proposed layout plan for reference.

DESCRIPTION OF TASKS

An advertisement was placed under the classified section of the Hoedspruit Herald to notify the public of the proposed development:

Notice boards advertising the application have been placed at visible locations on and near the site.

Project information will be forwarded directly to registered interested parties and community leaders for their input.

PRESUMED ISSUES

Environmental issues that may be addressed in the Report could include the following:

- Services
- Ecology
- Hydrology and storm water management

Mitigation measures will also be developed for these issues. Stakeholders are however welcome to comment on these issues and provide additional observations.

Consideration of Alternatives is one of the most critical elements of the EIA process. Its role is to provide a framework for sound decision-making, based on the principle of sustainable development.

Alternatives should be identified as early as possible in the project cycle.

HES not only welcomes stakeholders' input/suggestions, but also urge the public to submit possible alternatives.

It is important to note that an alternative is defined as a possible course of action, in place of another, that would meet the same **purpose** and **need**.

When submitting alternatives, the recommended alternative must be:

- Practicable,
- Feasible,
- Relevant,
- Reasonable and
- Viable.

In order to ensure that you are registered as an interested and/or affected party, please submit your name, contact information and interest in the matter to the contact person given on the first page of this document.

ANNEXURE J : Comments and responses

Comment:

Johan Bezuidenhout

2. We have no objections. A section of the proposed center will border Farm Avontuur, section 29, which is our property. This might impact us.

Response:

Steven Henwood (EAP)

4. Noted thank you.

Comment:

Teuns Sevenste

5. We confirm having received the documentation (BID). There are a few things that we would like clarification on, like water, sewerage ext.

Response:

Steven Henwood (EAP)

d) Water supply

- Current drinking water comes from a spring which is located on an adjacent property to the west. This source flows constantly year - round.
- There is also a borehole at the top of the property near the camp ground.
- There is an additional water pump in the creek at the north east corner of the property this however is a standby source of water and is not regularly used as there is currently sufficient water being supplied from the neighbouring property.

e) Sanitation and Waste

- Sanitation and waste related activities will be carried out in full compliance with the local legislation. In this regard the following management actions apply and will be implemented:
 - The Integrated Environmental Management (IEM) process must be followed before waste disposal methods are implemented. In this regard household waste will be collected and stored temporarily on site, from where it will be removed to a registered waste disposal site.
 - Production of solid waste should be minimized and recycling maximized. Waste must be split at source, rather than having to be sorted later. Recycling and waste sorting will be implemented on site.
 - Rubbish bins must be regularly emptied and surrounding areas must be tidied up. This will be implemented.
 - If it is realistic to do so, all solid and chemical waste should be removed from the site to an authorized landfill. This will be implemented.
 - A proactive attitude towards waste management will be promoted amongst staff and visitors. This will be implemented.
 - Waste derived from catering facilities can possibly be recycled as pigswill and the use of this should be investigated (although veterinary regulations may prohibit this;
 - Grey water should be kept separate from sewerage and recycled where possible. This will be implemented. See sewerage treatment section for further detail.
 - Staff and contractors will dispose of chemicals in the approved manner. No cleaning of containers will be allowed in and along water courses and wetland

areas. This will be implemented and maintained.

- Spillage of oil and/or fuel from water pumps into the streams must be prevented through adequate construction, operational and maintenance procedures and staff training. This will be implemented and maintained.
- Sewage disposal systems must be located at the legally and environmentally required distance from streams. This will be implemented. See sewerage treatment section for further detail.
- Staff and visitors may not wash themselves or do their laundry in the streams, wetlands and rivers.
- Contractors will dispose of all waste and litter and will clean up building sites to the satisfaction of the ECO. Waste must be properly disposed of. This will be implemented and maintained and monitored.

f) Sewerage Treatment

- The existing infrastructures on Plot 34 are serviced by sewerage systems consisting of septic tanks and French drains. Due to the existing low density of development and the relative infrequent use of these facilities (units are only used at certain times of the year when shareholders utilise the property while on holiday) the septic tanks and soakaways have functioned effectively without any problems over the past 20 years.
- It is proposed that the proponent continue to utilise this sewerage treatment method for the existing structures and where new structures need servicing, that they install new septic tanks and French drains.

Comment:

Rob Winter

4. Your reference: Friends of Emoyeni Children's Village/Stakeholder Notification

A site visit took place last Tuesday 19 July 2016 at Plot 34 Avontuur 725JT by: R A Winter, S E Winter, J J de Villiers, M. D. Winter, C Winter. The intent of the visit was to see and discuss the proposed development as per the notices. All parties mentioned are "Interested and Affected" and represent the following portions namely: Portions Remainder 0; 5; 6; 7; 8; 28; 30; 31; 40; 49 of the Farm Avontuur 725JT as well as Portion 49 Doornpoort 724JT.

This response / feedback is done by consensus as a group but does not waive the right to individual feedback of each person.

A site tour was conducted by Darryl who represented the owners of the property. A full and comprehensive tour took place with Darryl highlighted the scope of the Project and the Intent of the development that would take place on Portion 34 Avontuur. It was noted that some minor changes would be made to the original scope of works which would have no impact on the overall plan. A few questions arose by some while on the tour, which were all answered by Darryl in accordance with the Christian Community Center framework. The tour ended with the group being satisfied having all answers dealt with and a complete visual inspection and an understanding of the proposed future development.

Conclusion: The group supports the development and compliment "Friends of Emoyeni" for tackling this project / initiative for the betterment of the Community through improving the quality of life and social development within the Greater Badplaas Area. We have no objections. A section of the proposed center will border Farm Avontuur, section 29, which is our property. This might impact us.

Response:

Steven Henwood (EAP)

6. Your support of the project is noted. Thank you.

Subject: The Construction of a Christian Community Center for the purposes of Community Upliftment on Plot 34 of the Farm Avontuur 725 JT

Our Ref: Friends of Emoyeni Children's Village/Stakeholder Notification

Your Ref: The Construction of a Christian Community Center for the purposes of Community Upliftment on Plot 34 of the Farm Avontuur 725 JT.

13 June 2016

NOTIFICATION OF INTENT TO CONSTRUCT A CHRISTIAN COMMUNITY CENTER FOR THE PURPOSES OF COMMUNITY UPLIFTMENT ON PLOT 34 OF THE FARM AVONTUUR 725 JT.

Henwood Environmental Solutions (HES) has been appointed by Friends of Emoyeni to conduct the Environmental Impact Assessment (EIA) process in terms of the National Environmental Management Act (Act 107 of 1998) (NEMA) (as amended) and the Environmental Impact Assessment Regulations, 2014 for the proposed activity.

The Christian Community Center would consist of:

- * Orphan Housing
- * Mission Guest Housing
- * Food Prep, cold storage and general storage
- * Sheds
- * Tunnel gardens
- * Classrooms
- * Dorms ablution
- * Orchard expansion

GPS Coordinates:

- * 25° 57' 34.2247" S
- * 30° 30' 46.7640" E

See attached locality map as per BID attached.

Details of the applicant:

Project applicant: Friends of Emoyeni Children's Village.

Contact person: Darryl Mather-Pike

Email: darryl@emoyenisa.com

Telephone: 079 497 6512

Fax: 086 515 6476

In accordance with Regulation 16 of Government Notice 982, HES; on behalf of the applicant; hereby wishes to inform you of the proposed development and to obtain permission to continue with the Environmental impact Assessment.

We trust that you will find the above in order. Please do not hesitate to contact us should there be any queries.

Regards

Importance: High

Hi Steven

Your reference: Friends of Emoyeni Children's Village/Stakeholder Notification

A site visit took place last Tuesday 19 July 2016 at Plot 34 Avontuur 725JT by: R A Winter, S E Winter, J J de Villiers, M. D. Winter, C Winter. The intent of the visit was to see and discuss the proposed development as per the notices. All parties mentioned are "Interested and Affected" and represent the following portions namely: Portions Remainder 0; 5; 6; 7; 8; 28; 30; 31; 40; 49 of the Farm Avontuur 725JT as well as Portion 49 Doornpoort 724JT.

This response / feedback is done by consensus as a group but does not waive the right to individual feedback of each person.

A site tour was conducted by Darryl who represented the owners of the property. A full and comprehensive tour took place with Darryl highlighted the scope of the Project and the Intent of the development that would take place on Portion 34 Avontuur. It was noted that some minor changes would be made to the original scope of works which would have no impact on the overall plan. A few questions arose by some while on the tour, which were all answered by Darryl in accordance with the Christian Community Center framework. The tour ended with the group being satisfied having all answers dealt with and a complete visual inspection and an understanding of the proposed future development.

Conclusion : The group supports the development and compliment "Friends of Emoyeni" for tackling this project / initiative for the betterment of the Community through improving the quality of life and social development within the Greater Badplaas Area.

Yours faithfully

Rob Winter
