**Subject:** RE: Umsinde Emoyeni wind farms- Contact Confirmation

Dear Sir /Madam

We would like to place on record the response given to us by the Department Environmental Appeals Directorate when appealing this unscrupulous development. The Director stated that “.....political motivations override all other considerations and facts in appeal decisions.” Additionally its was said by the Departments Appeals Directorate “.....“all” of the EAP’s conducting the EIA’s are biased.”

Due to the obvious impacts such a development will have in a area which has the highest levels of breeding Black Eagle sites in the country it is our intention to enact criminal proceedings for the intentional killing of protected species should a single protected species be killed by this ridiculous development

Sincerely  
KNG
