

## Appendix F – Comment and Response Report

# PROPOSED VISSERSPAN SOLAR PV GRID CONNECTION DEVELOPMENT

APPLICANT: Keren Energy Holdings (Pty) Ltd

## PRE-APPLICATION COMMENT AND RESPONSE TRAIL REPORT

(Public participation comment period started 05 August 2021 and ended 05 September 2021)

(DFFE Ref. No: 2021-08-0007)

No.	Comment Date, Comment Format, Organisation/I&AP	Comment	Response from EAPI/Applicant/Specialist/Project Manager
01	<p><b>Date:</b> 10/12/2019  <b>Format:</b> Email with list of I&amp;APs to register for process  <b>I&amp;AP:</b> Mr. Gerhard van Rhyn (temporary co-ordination of registration for various farmers in region)</p>	<p>i. Email received (following telephonic conversations with Mr van Rhyn) with list of interested and affected farmers who must be registered as I&amp;APs.</p>	<p><b>EAP:</b>            i. Email sent on 17/12/2019, confirming receipt of correspondence from I&amp;AP and acknowledging that I&amp;APs have been registered.            ii. All I&amp;APs in the list were already part of the pre-application public participation process and were already included in the list of farmers in I&amp;AP register</p>
02	<p><b>Date:</b> 06/08/2021  <b>Format:</b> Email with attachments  <b>I&amp;AP:</b> Mr. John Geeringh, (Grid Planning), (Land Rights, Eskom Transmission Division)</p>	<p>i. Email received with:            a. list of Eskom general requirements for work in or near Eskom infrastructure and            b. request for kmz file of proposed development footprint</p>	<p><b>EAP:</b>            i.a. Eskom general requirements for work in or near Eskom infrastructure to be included in appendix to Bar and EMPr.            ii. Email with kmz file sent to Mr Geeringh on 26 August 2021.</p>
	END OF TRAIL REPORT

**Subject:** RE: List to register

Dear Gerhard

Thank you for your active involvement in this project and the telephonic conversation we has on 16 August 2021.

You and all the parties on the list you sent with the email below have been registered as interested and affected parties for the Visserspan Solar PV Grid Connection Project.

Thank you,  
Vivienne Thomson

**Attachments:** Maildrop.pdf

Dear Interested and/or Affected Party (I&AP)

EnviroAfrica CC has been appointed by Keren Renewable Energy (Pty) Ltd, to undertake the environmental impact assessment (EIA) application process for the above proposed project. **The proposed Visserspan Grid Connection project will run through the Farms Visserspan No. 40, Mooihoek No. 1547, Vasteveld No. 1548 and Kinderdam No. 1685 near Dealesville, Tokologo Local Municipality, Free State Province.** As part of the application for an environmental authorisation, a basic assessment report (BAR) is required since the proposed development falls within renewable energy development zone 5.

You have been identified as a possible I&AP for the EIA process for this project. Please see the attached notice and locality map for more detail on the proposed grid connection. Similar information was published today on page 5 of the Bloemnuus / Bloem News newspaper.

**Please note:** To confirm that you are an I&AP for this project (or to register as an I&AP) with any comments or queries regarding the project, please notify EnviroAfrica in writing strictly on or before 05 September 2021, at the contact details below or in the maildrops attached.

Please also inform any other I&APs you may know about this process.

Thank you,  
Vivienne Thomson

**Subject:** Visserspan Grid Connection Pre-Application Public Participation Process  
**Attachments:** Maildrop.pdf

Dear Interested and/or Affected Party (I&AP)

EnviroAfrica CC has been appointed by Keren Renewable Energy (Pty) Ltd, to undertake the environmental impact assessment (EIA) application process for the above proposed project. **The proposed Visserspan Grid Connection project will run through the Farms Visserspan No. 40, Mooihoek No. 1547, Vasteveld No. 1548 and Kinderdam No. 1685 near Dealesville, Tokologo Local Municipality, Free State Province.** As part of the application for an environmental authorisation, a basic assessment report (BAR) is required since the proposed development falls within renewable energy development zone 5.

You have been identified as a possible I&AP for the EIA process for this project. Please see the attached notice and locality map for more detail on the proposed grid connection. Similar information was published today on page 5 of the Bloemnuus / Bloem News newspaper.

**Please note:** To confirm that you are an I&AP for this project (or to register as an I&AP) with any comments or queries regarding the project, please notify EnviroAfrica in writing strictly on or before 05 September 2021, at the contact details below or in the maildrops attached.

Please also inform any other I&APs you may know about this process.

Thank you,  
Vivienne Thomson

**Attachments:** Maildrop.pdf

Dear Interested and/or Affected Party (I&AP)

EnviroAfrica CC has been appointed by Keren Renewable Energy (Pty) Ltd, to undertake the environmental impact assessment (EIA) application process for the above proposed project. **The proposed Visserspan Grid Connection project will run through the Farms Visserspan No. 40, Mooihoek No. 1547, Vasteveld No. 1548 and Kinderdam No. 1685 near Dealesville, Tokologo Local Municipality, Free State Province.** As part of the application for an environmental authorisation, a basic assessment report (BAR) is required since the proposed development falls within renewable energy development zone 5.

You have been identified as a possible I&AP for the EIA process for this project. Please see the attached notice and locality map for more detail on the proposed grid connection. Similar information was published today on page 5 of the Bloemnuus / Bloem News newspaper.

**Please note:** To confirm that you are an I&AP for this project (or to register as an I&AP) with any comments or queries regarding the project, please notify EnviroAfrica in writing strictly on or before 05 September 2021, at the contact details below or in the maildrops attached.

Please also inform any other I&APs you may know about this process.

Thank you,  
Vivienne Thomson

Dear Interested and/or Affected Party (I&AP)

EnviroAfrica CC has been appointed by Keren Renewable Energy (Pty) Ltd, to undertake the environmental impact assessment (EIA) application process for the above proposed project. **The proposed Visserspan Grid Connection project will run through the Farms Visserspan No. 40, Mooihoek No. 1547, Vasteveld No. 1548 and Kinderdam No. 1685 near Dealesville, Tokologo Local Municipality, Free State Province.** As part of the application for an environmental authorisation, a basic assessment report (BAR) is required since the proposed development falls within renewable energy development zone 5.

You have been identified as a possible I&AP for the EIA process for this project. Please see the attached notice and locality map for more detail on the proposed grid connection. Similar information was published today on page 5 of the Bloemnuus / Bloem News newspaper.

**Please note:** To confirm that you are an I&AP for this project (or to register as an I&AP) with any comments or queries regarding the project, please notify EnviroAfrica in writing strictly on or before 05 September 2021, at the contact details below or in the maildrops attached.

Please also inform any other I&APs you may know about this process.

Thank you,  
Vivienne Thomson

## ENVIRONMENTAL IMPACT ASSESSMENT

## PRE-APPLICATION PUBLIC PARTICIPATION PROCESS

**PROPOSED VISSERSPAN GRID CONNECTION**

(on the Farms Visserspan No. 40, Mooihoek No. 1547, Vasteveld No. 1548 and Kinderdam No. 1685 near Dealesville, Tokologo Local Municipality, Free State Province)

Department of Forestry, Fisheries and the Environment Reference Number: To be provided

Notice is hereby given of the pre-application public participation process in terms of the National Environmental Management Act, No. 107 of 1998 (NEMA) and the Environmental Impact Assessment (EIA) Regulations (2014), as well as the National Water Act, No. 36 of 1998 (NWA). Activities triggered by the proposed development include but are not limited to:

Act/Notice and Activity No.	Activity Description
GN R. 327: EIA Regulations Listing Notice 1 of 2014 (LN 1), Activity 11	Development of facilities/infrastructure for transmission/distribution of electricity of more than 33 but less than 275 kilovolts, outside urban areas or industrial complexes
LN 1, Activity No. 12(xii)(c)	Development of infrastructure/structures of 100m <sup>2</sup> or more where, if no development setback exists, within 32m of a watercourse
LN 1, Activity 27	Clearance of 1ha but less than 20ha of indigenous vegetation, except where such clearance of indigenous vegetation is required for the undertaking of a linear activity
LN 1, Activity 28	Commercial/industrial developments on rural land deemed agricultural on or after 01 April 1998 where the total land to be developed is bigger than 1 hectare
GN R. 325: EIA Regulations Listing Notice 2 of 2014 (LN 2), Activity 9	The development of facilities or infrastructure for the transmission and distribution of electricity with a capacity of 275 kilovolts or more, outside an urban area or industrial complex
LN2, Activity 15	Clearance of an area of 20ha or more of indigenous vegetation
NWA, Section 21(c) & (i)	Impeding or diverting the flow of water in a watercourse and
NWA, Section 21(i)	Altering the bed, banks or characteristics of a watercourse

EnviroAfrica CC has been appointed by Keren Renewable Energy (Pty) Ltd, to undertake the EIA application process for the above proposed project. As part of the application for an environmental authorisation, a basic assessment report (BAR) is required since the proposed development falls within renewable energy development zone 5.

**Project Location and Description:**

The proposed development is primarily a linear development but includes the construction of two substations located at each end of the grid connection line i.e. on Visserspan Farm no. 40 to be located at approximately **28°36'37.82"S, 25°44'50.21"E** (estimated central point) a combined switching station and high voltage (HV) substation will serve as the 'collection' point for electricity evacuated from the Visserspan Solar PV plants. From this single facility, electricity will be fed via overhead power lines to the east, turning north-east to trace the northern boundary of Mooihoek Farm No. 1547 and Vasteveld Farm No. 1548 before turning north-east and running along the southern boundary of Kinderdam Farm No. 1685 connecting to the Kinderdam main transmission substation (MTS) to be located at **28°37'0.82"S, 25°48'14.76"E** (estimated central point). From the Kinderdam MTS, connection will be to the existing Eskom Perseus/Theseus 400kV overhead power line. Estimated total length of the grid connection line is approximately 6km and will be either via 132kV steel monopole or 400kV pylon overhead power lines. As a precautionary approach, the height (40m) and servitude for a 400kV powerline (55m width footprint over approximately 6km) will be used to determine potential development impact. Existing roads will be used (farm access and fence maintenance roads) and clearance of vegetation/land will only occur for substation and pylon/monopole footprints (not the entire servitude corridor).

**Description of Alternatives:**

Due to proximity to the Eskom Perseus substation, there is a possible alternative route for grid connection directly to the south of Visserspan Farm which will be investigated in the Draft Basic Assessment Report (DBAR). The DBAR will include specialist reports and will undergo a further round of public participation.

**Public Participation:**

Interested and Affected Parties are hereby invited to register (in writing) and/or provide initial comments, queries, concerns or opportunities relating to this proposed project, **on or before 05 September 2021** for environmental/NEMA issues and **on or before 07 October 2021** for water/NWA related issues.

**To register as an I&AP or for more information contact EnviroAfrica at:** EnviroAfrica (Visserspan Grid Connection)

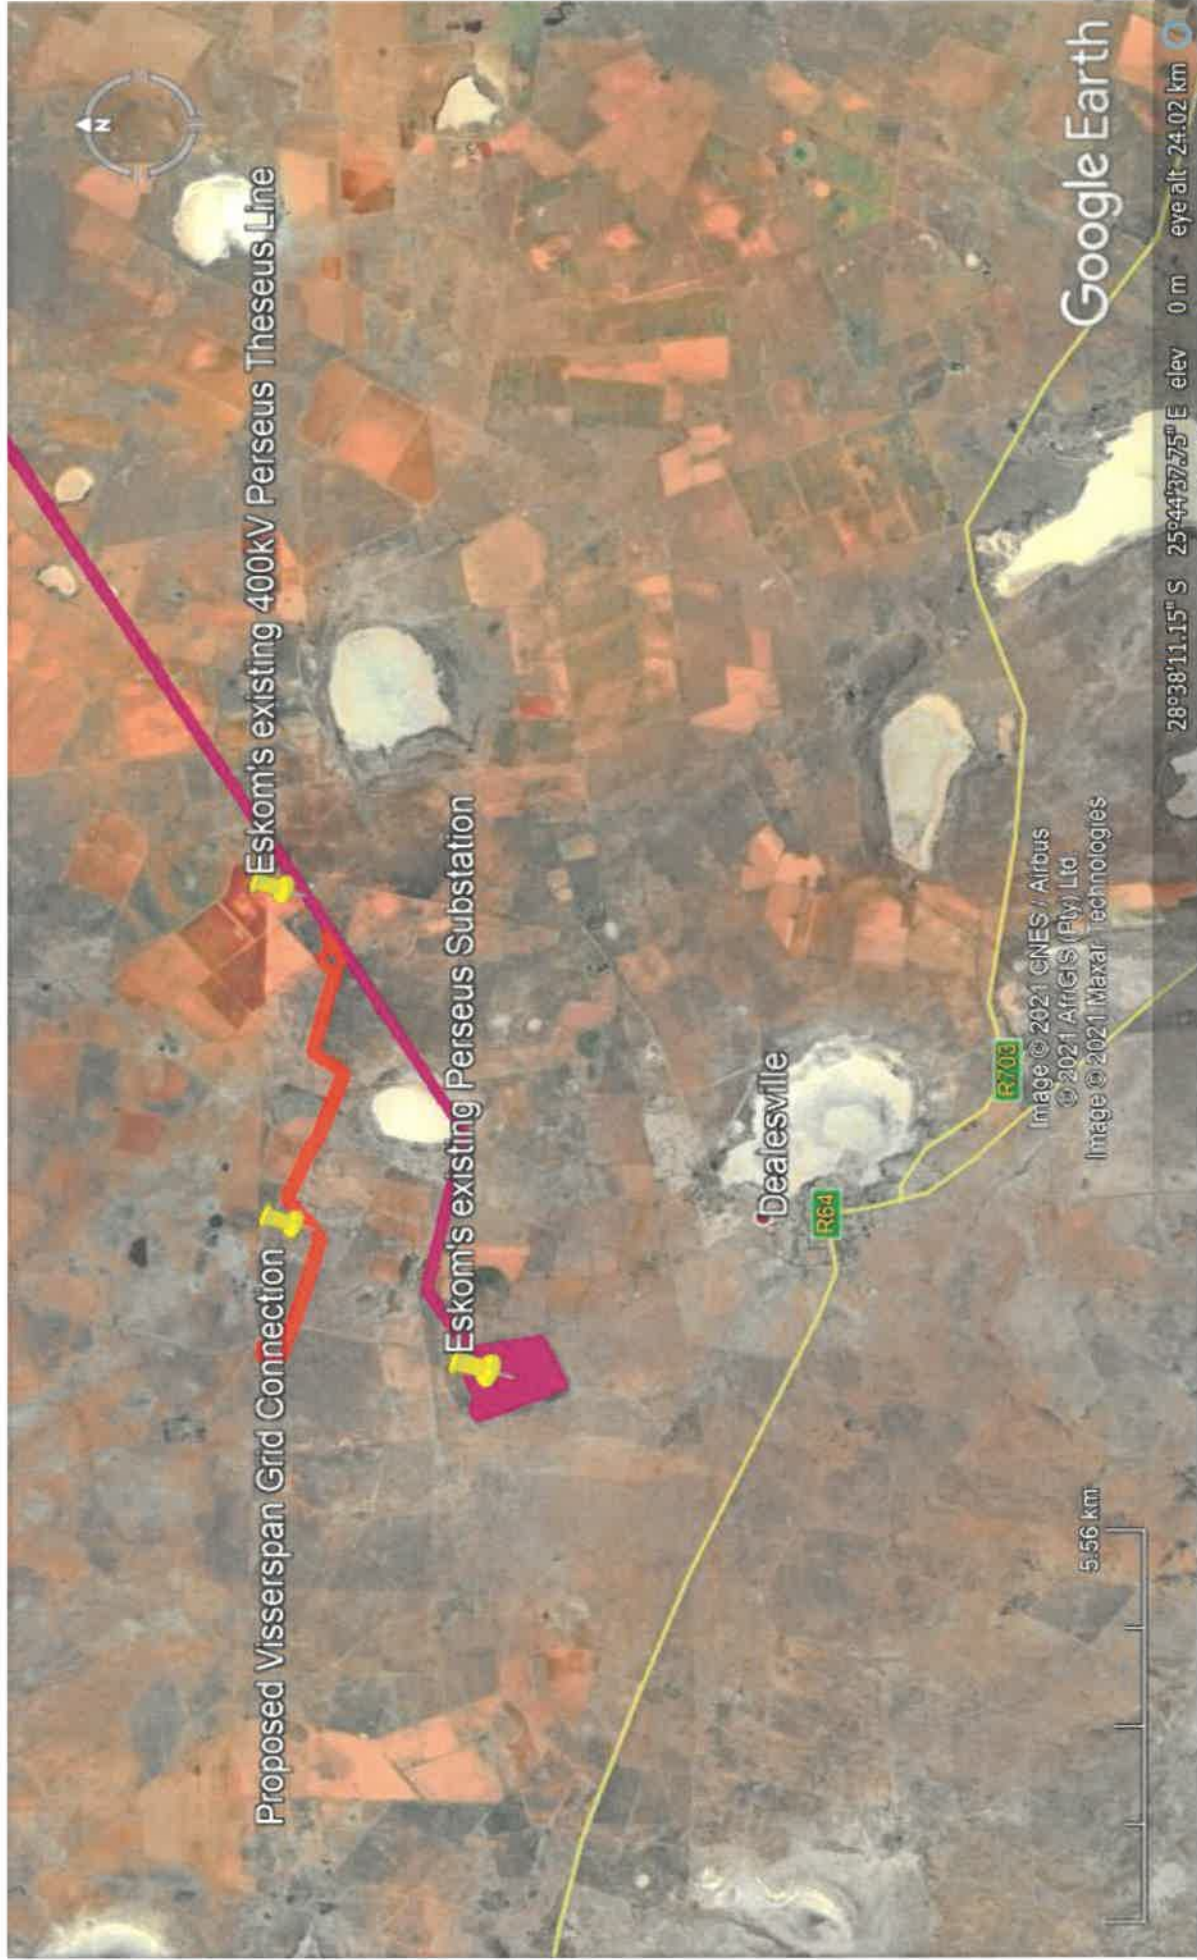

P.O. Box 5367, HELDERBERG, 7135

Fax: 086 512 0154

# Straat kry lewe met kleurrike projek

**Lientjie Mentz**  
lientjie.mentz@media24.com

'n Treffende verfprojek wat vroeër vanjaar in Bloemfontein begin is, het Vrydag (30/07) nog 'n lagie gekry.

Wilhelm van Zyl van die onderneming Iqvia sê hy is mal oor kuns en wou graag iets aanpak waarmee hy en sy kollegas 'n verskil in Bloemfontein kon maak.

Hy het eendag die kunstenaar Marius Jansen van Vuuren raakge-loop, wat hom vertel het van die projek waaraan hy en straatkunste-

naar Junior Mentz 'n rukkige vantevore gewerk het.

Die twee het muurkuns geskep op die perseel waar Lerato Mbhele die afgelope tyd sy wegneemestalletjie Plated by the Side Walk op die hoek van Kellnerstraat en Eerstelaan in Westdene bedryf.

Dié kunstewerk was deel van 'n nasionale kunstprojek. Mentz sê die Vrystaat het uitgeblyk in die projek, wat van Maart tot Mei geduur het, met 21 kunstewerke wat oor die provinsie heen geskep is.

Iqvia het besluit om betrokke te raak en Mentz het spesiaal hier-

voor nog twee kunstewerke geskep, wat Vrydag onder sy kuratorskap weerskante van die oorspronklike kunstewerk aangebring is.

Charmaine Thompson, 'n direkteur by Iqvia, sê sowat 70 van dié onderneming se personeel het deur die loop van Vrydag 'n draai kom maak en saam geveerf.

"Ons werk meestal nog van die huis af en sien ons kollegas net op spesiale geleenthede soos hierdie," sê sy.

Thompson sê dit is lekker om by so 'n projek betrokke te raak. Iqvia het die verf gekoop en personeel

en van hul kinders het saam geveerf.

Van Zyl is baie opgewonde oor die projek.

"Dit was vir ons lekker om deel te neem aan so 'n mooimaakprojek. Mense glo nog in Bloemfontein en wil graag 'n bydrae maak," meen hy.

Die oorspronklike kunstewerk, wat onder kuratorskap van Jansen van Vuuren en Mentz geskep is, bestaan uit 'n kleurvolle toneel met twee luiperds weerskante van 'n vrou in 'n groen rok wat op 'n stoel sit.

Mentz sê met die muurkuns wil hulle 'n dieretuin van kultuur uitbeeld.

"Ons wou iets *delightful* skep. Die nuwe werke is 'n sebra aan een kant en 'n nguni-bees aan die ander kant. Altwee is in swart en wit geskilder en trek jou oog na die veelkleurige kunstewerk in die middel."

Mbhele is verheug oor die kuns wat by sy stalletjie geskep is. Hy sê benewens die wegneemkos wat weksdae hier beskikbaar is, gaan daar binnekort ook 'n karwas-onderneming op die perseel wees.

# Knieskomberse maak harte warm

**Lientjie Mentz**  
lientjie.mentz@media24.com

Min dinge is so welkom soos 'n snoesige kombers om die winterkoue te verdryf.

Daarom het die diakens van die Nederduitsch Hervormde Kerk in Langenhovenpark op Maandag 26 Julie aan elkeen van die Siesta-afreeoord se inwoners 'n warm knieskombers oorhandig.

Hanna Geysler, bestuur-

der van die oord, sê dit was wonderlik van ds. Jaco Dreyer en sy dogter, Sumarie Barnard, om tyd af te staan om die kombers self te oorhandig en tyd saam met die inwoners deur te bring.

Volgens Dreyer onderneem die diakens elke jaar 'n gemeenskapsprojek. In die verlede is sop ook uitgedeel.

Vanjaar se projek is deur die diakens se voorsitter, Santie Spiess, gedryf.

"Weens die pandemie is bejaardes die afgelope tyd baie afgesonder, maar gelukkig kon ons hulle besoek nadat die inperking na viak 3 geskuif het," sê Dreyer.

"Ons help graag gemeentelede, maar dit is ook belangrik om na behoeftes in die gemeenskap om te sien.

"Ons weet Siesta het die afgelope jaar swaargeky, en ons wou graag iets vir die inwoners doen."

Ds. Jaco Dreyer en sy dogter, Sumarie Barnard, verras tannie Anna Goosen (bo), tannie Nellie Williamson (links) en tannie Ann de Villiers (regs) met 'n kombers. Foto's: Lientjie Mentz
