Dear Tilly

I hereby confirm that I consider the final layout provided to be acceptable (as per the KMZ file provided by email on Thursday, 26 January 2023 07:41, i.e. "20230120_Mulilo De Aar 2 South WEF Layout.kmz").

The updated layout does not result in any changes to my findings nor does it require any further mitigation to what I recommended in my statement/report for the update of the EMPr and Layout Plan Finalisation process (as it was always the understanding that only up to 26 of the assessed potential 28 turbine positions would be constructed).

Kind regards
David
