

Appendix C5:  
Stakeholder Correspondence

13 November 2020

Dear Interested & Affected Party,

**PROPOSED TRANSMISSION INFRASTRUCTURE FOR THE 400MW GAS-TO-POWER LOCATED IN RBIDZ ZONE 1F, KWAZULU-NATAL PROVINCE**

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS  
AND AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT**

Richards Bay Gas Power 2 (Pty) Ltd received Environmental Authorisation in 2016 for a 400MW gas-to-power plant located within Zone 1F of the Richards Bay IDZ. This authorisation included the connection of this facility via a 132kV connection to the Indus Substation bordering the site. Through consultation with Eskom, it has been determined that this connection is no longer feasible.

Therefore, Richards Bay Gas Power 2 (Pty) Ltd proposes the construction and operation of the grid connection infrastructure for the 400MW gas to power project located in Alton, Richards Bay. The development will include an overhead power line and switching station. The power line will be constructed at 132kV or 275kV (and operated at 132kV) and will connect to the Eskom substation via a 132kV switching station to a feasible connection point to the south of the power plant site. The proposed power line is ~8.5km long and includes an assessment corridor of 200m. Two alternative power line corridors are being considered in the EIA process. The assessment of a wider corridor will allow for the optimisation of the power line servitude within the corridor, avoiding environmental sensitivities and addressing any site-specific technical and landowner conditions. Only one feasible location for the switching station has been identified. Where existing roads along the power line servitude and to the switching station sites are not available, new access roads will be required to be constructed.

The proposed grid infrastructure will be located in Alton, Richards Bay. The project site is situated in the City of uMhlathuze Local Municipality which falls within the jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province.

It is the developer's intention to bid the 400MW gas-to-power plant together with the associated grid infrastructure into the procurement process initiated by the Independent Power Producer Office (IPP Office) for the procurement of up to 2000MW of dispatchable generation capacity from a range of technologies. This allocation is in accordance with the new generation capacity required as specified in the Integrated Resource Plan 2019 and accompanying ministerial determination from the Minister for the Department of Mineral Resources and Energy (DMRE) to which the National Energy Regulator of South Africa (NERSA) has concurred. The IPP Office has initiated procurement for the 2000MW of capacity under the Risk Mitigation Independent Power Producer Procurement Programme (RMIPPPP).

The following properties are affected by this proposed project:

Projects	Associated Properties
Corridor Alternative 1 and 2	Erf 1860, Erf 1906, Erf RE/1855, Erf 6724 Portion 6, Erf 1818, Erf 1858, Erf RE/1819, Erf 1813, Erf 16671, Erf 1814, Erf 6720, Erf 1856, Farm Reserve No.6 RE/15825, Farm Reserve No.6 RE/1/15825, Farm Reserve No.6 51/15825, Farm Reserve No.6 65/15825, Farm Reserve No.6 66/15825, Farm Reserve No.6 70/15825, Farm Reserve No.6 RE/12/15825, Erf 1859, Erf 1902, Erf 1903, Erf 1904, Erf 6724 Portion 1, Erf 6724 Portion 4, Erf 8817, Erf 8818, Erf 8825, Erf 9033, Erf 9074, Erf 11376 Portion 1, Erf 11376 Portion 2, Erf 11376 Portion 3, Erf 11376 Portion 4, Erf 11376 Portion 5, Erf 15406, Erf 15410, Erf 1667, Erf 16672, Erf 16875, Erf 16876, Erf 17455, Erf 17456, Erf 1817, Erf 1819 Portion 3, Erf RE/1794, Erf 6724 Portion 7, Erf 16785, Erf 17457, Erf 17458, Erf 1819 Portion 1, Erf 1819 Portion 2, Erf 11375, Erf 5333 Portion 46
Switching station	Erf 11376 Portion 5, Erf 11376 Portion 1, Erf 11375, Erf 6698, Erf 5333 Portion 7, Erf 5333, Erf 397

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

As per the Environmental Impact Assessment Regulations, 2014, as amended, published in terms of Section 24(5) of the National Environmental Management Act (NEMA, Act No 107 of 1998), the proponent will require authorisation from the Department of Environment, Forestry and Fisheries<sup>1</sup> (DEFF) (in consultation with the KZN Department of Economic Development, Tourism and Environmental Affairs (DEDTEA)) for the development of the project. In terms of the EIA Regulations, GNR 982 and 984 of 4 December 2014, as amended, the application for EA is subjected to the completion of an Environmental Impact Assessment (EIA) process.

Desktop assessments have been undertaken during the scoping phase process in order to delineate areas of potential sensitivity within the study area, which will then be fully assessed during the impact phase of the EIA.

## PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

---

<sup>1</sup> Previously the Department of Environmental Affairs (DEA)

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a EIA process. The consultation process for this project has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the DEFF. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation on our stakeholder engagement platform as per the link provided above.

As part of the environmental studies, Interested and Affected Parties (I&APs) will be actively involved through the public involvement process being undertaken by Savannah Environmental. You and/or the organisation, which you represent, has been identified as an I&AP for the proposed projects as described above. A Background Information Document (BID), which provides further information on the EIA process as well as the nature and extent of the proposed Grid Connection Infrastructure for the 400MW Gas-to-Power project, is attached to this letter and is also available for download from the Savannah Environmental stakeholder engagement platform at <https://www.savannahsa.com/public-documents/grid-infrastructure/richards-bay-400mw-grid/>.

Where I&APs do not have the applicable facilities or access to internet, provision has been made to include these I&APs in the consultation process through direct consultation or by consulting with the Ward Councillor, the ward committee members, community representatives and local community forum members.

#### **AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT**

As an Interested and Affected Party (I&AP), you are hereby notified that the Scoping Report (SR) is available for your review and comment from **Friday, 13 November 2020** until **Monday, 14 December 2020**. The report is available for downloading from our stakeholder engagement platform at <https://www.savannahsa.com/public-documents/grid-infrastructure/richards-bay-400mw-grid/>.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the SR available at public places such as libraries and municipal offices. As per our approved public participation plan submitted to the Department of Environment, Forestry and Fisheries (DEFF), you can also request that an electronic copy of the BAR be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the BAR by **Monday, 14 December 2020** via our public participation portal (link provided above) or:

- » Telephone: 011 656 3237
- » Mobile: 060 978 8396
- » Fax: 086 684 0547
- » Post: PO Box 148, Sunninghill, 2157
- » E-mail: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

All comments can be addressed to Nicolene Venter of Savannah Environmental.

All comments received during the 30-day review and comment period will be recorded and included in the Final Scoping Report for submission to the DEFF in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

A handwritten signature in black ink, appearing to read 'Nicolene Venter', written in a cursive style.

## Richards Bay Gas-to-Power 132kV Grid Connection

### Establishment of Grid Connection Infrastructure for the 400MW Gas-to-Power located in RBIDZ Zone 1F, KwaZulu-Natal Province

**Applicant:** Richards Bay Gas Power 2 (Pty) Ltd

**Proposed Activity:** The development of an overhead power line and switching station to connect the authorised RBGP2 400MW gas-to-power facility to the national grid. The power line will be constructed at 132kV or 275kV (and operated at 132kV) and will connect to the Eskom substation via a 132kV switching station to a feasible connection point to the south of the power plant site. Two alternative power line corridors are being considered in the EIA process, each approximately 8.5km in length. Both alternatives include an assessment corridor of 200m. Only one feasible location for the switching station has been identified. Where existing roads along the power line servitude and to the switching station sites are not available, new access roads will be required to be constructed.

**Location:** The proposed grid infrastructure will be located in Alton, Richards Bay. The project site is situated in the City of uMhlatuze Local Municipality which falls within the jurisdiction of the King Cetshwayo District Municipality, KwaZulu-Natal Province. The following properties are affected by this proposed project:

#### Associated Properties

Corridor Alternative 1 and 2	Erf 1860, Erf 1906, Erf RE/1855, Erf 6724 Portion 6, Erf 1818, Erf 1858, Erf RE/1819, Erf 1813, Erf 16671, Erf 1814, Erf 6720, Erf 1856, Farm Reserve No.6 RE/15825, Farm Reserve No.6 RE/1/15825, Farm Reserve No.6 51/15825, Farm Reserve No.6 65/15825, Farm Reserve No.6 66/15825, Farm Reserve No.6 70/15825, Farm Reserve No.6 RE/12/15825, Erf 1859, Erf 1902, Erf 1903, Erf 1904, Erf 6724 Portion 1, Erf 6724 Portion 4, Erf 8817, Erf 8818, Erf 8825, Erf 9033, Erf 9074, Erf 11376 Portion 1, Erf 11376 Portion 2, Erf 11376 Portion 3, Erf 11376 Portion 4, Erf 11376 Portion 5, Erf 15406, Erf 15410, Erf 1667, Erf 16672, Erf 16875, Erf 16876, Erf 17455, Erf 17456, Erf 1817, Erf 1819 Portion 3, Erf RE/1794, Erf 6724 Portion 7, Erf 16785, Erf 17457, Erf 17458, Erf 1819 Portion 1, Erf 1819 Portion 2, Erf 11375, Erf 5333 Portion 46
Switching station	Erf 11376 Portion 5, Erf 11376 Portion 1, Erf 11375, Erf 6698, Erf 5333 Portion 7, Erf 5333, Erf 397

**Impact Assessment Process:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a Scoping & EIA process is required to be undertaken in support of the application for the Environmental Authorisation of this project. Savannah Environmental is undertaking the required EIA and public participation process for the project.

**Scoping Report Available for Review:** A Scoping Report is available for review and comment. The report can be viewed at <https://www.savannahsa.com/public-documents/grid-infrastructure/> from **13 November 2020 – 14 December 2020**. The due date for written comment is **14 December 2020**.

**Public Participation Process:** Savannah Environmental (Pty) Ltd has been appointed as the independent environmental consultant responsible for undertaking the EIA and Public Participation process in support of this application for EA. To obtain further information on the project and to register on the project database, please submit your name, contact information and interest in the project as per the details below.

**Consultation Meetings:** Consultation meetings will be held with relevant I&APs and stakeholders via an appropriate forum during the review period. Should you wish to be included in these meetings or receive further information on the project please contact us as per the details below

Dear Interested & Affected Party,

Richards Bay Gas Power 2 (Pty) Ltd received Environmental Authorisation in 2016 for a 400MW gas-to-power plant located within Zone 1F of the Richards Bay IDZ. This authorisation included the connection of this facility via a 132kV connection to the Indus Substation bordering the site. Through consultation with Eskom, it has been determined that this connection is no longer feasible.

This notification serves to inform you, as an Interested and Affected Party (I&AP), that the Scoping Report is available for a 30-day review and comments from **Friday, 13 November 2020** until **Monday, 14 December 2020**. The Scoping Report can be downloaded from Savannah Environmental's stakeholder engagement platform at <https://www.savannahsa.com/public-documents/grid-infrastructure/richards-bay-400mw-grid/>

Please find attached the following documents which will provide you with information regarding this project:

- Notification of EIA and Public Participation process and availability of the Scoping Report;
- Background Information Document; and
- Registration and Comment Form.

Please do not hesitate to contact us should you require any additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

Dear Interested & Affected Party,

Richards Bay Gas Power 2 (Pty) Ltd received Environmental Authorisation in 2016 for a 400MW gas-to-power plant located within Zone 1F of the Richards Bay IDZ. This authorisation included the connection of this facility via a 132kV connection to the Indus Substation bordering the site. Through consultation with Eskom, it has been determined that this connection is no longer feasible.

This notification serves to inform you, as an Interested and Affected Party (I&AP), that the Scoping Report is available for a 30-day review and comments from **Friday, 13 November 2020** until **Monday, 14 December 2020**. The Scoping Report can be downloaded from Savannah Environmental's stakeholder engagement platform at <https://www.savannahsa.com/public-documents/grid-infrastructure/richards-bay-400mw-grid/>

Please find attached the following documents which will provide you with information regarding this project:

- Notification of EIA and Public Participation process and availability of the Scoping Report;
- Background Information Document; and
- Registration and Comment Form.

Please do not hesitate to contact us should you require any additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards,

**Subject:** 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors

Dear Vuledzani,

Thank you for taking my call this afternoon enquiring whether you, on behalf of Eskom, will be submitting written comments on the Scoping Report and the proposed two corridors, i.e. whether it will impact on Eskom's proposed corridors and/or infrastructures.

Please do not hesitate to contact us should you require any information.

Kind regards,

## Nicolene Venter

**Subject:** RE: 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors

Hi Nicolene,

I have requested my team to submit comments to you tomorrow (I am already on leave). From my side, please note that the power lines will intersect the rail line for 1F at this GPS point: 28°44'19.80"S, 32°1'9.24"E (also see map below).

Regards,  
Percy

**Subject:** 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors

Dear Percy,

As always, thank you for taking my call this afternoon.

As mentioned, I am enquiring whether you, on behalf of the Richard's Bay IDZ, will be submitting written comments on the content of the Scoping Report and/or the proposed corridors.

The commenting period is ending on Monday, 14 December 2020.

For ease of reference, please find attached the locality map and the .KMZ files for the proposed two corridors.

Kind regards,

Dear Tobile,

Please receive herewith our acknowledgement of Eskom's comments below.

These comments will be included in the comments and responses report which will be submitted with the final Scoping Report to the DEFF.

Kind regards,

---

**Subject:** RE: 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors  
**Importance:** High

Good afternoon Nicolene, Jo-Anne,  
Eskom had overlaid the proposed lines against the Eskom plant site, and they traverse the site (*as shown in attachment*). Eskom would object to these lines running the site, and recommends deviations that avoid the site ([also see communication from Koogendran, below](#)).  
Eskom remains available for meetings to discuss the challenges and agree on amicable infrastructure co-existence.  
Kind regards,  
Tobile

**Subject:** RE: 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors

Good day

@Gerhard, thanks for the information

@Tobile, we would have to object as it is over our site.

Regards,  
Koogendran

**Subject:** RE: 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors

Hi

Please see the attached as requested. Let me know if there is any changes you would like.

Both lines cross the planned plant.

Regards

Gerhard Brits

**Subject:** 400MW TRANSMISSION INFRASTRUCTURE: Comments on Scoping Report & Corridors

Dear Tobile,

Hope you are keeping well!

Tobile, we would like to enquire whether Eskom will submit any additional comments regarding the possible impact, if any, that the proposed corridors might have on Eskom's proposed power station site.

The comment period is ending today and we are finalising the comments and responses report and will be submitting the final Scoping Report to the DEFF today.

Looking forward hearing from you.

Kind regards,

**Nicolene Venter**
