**Re: Peer review of the Social Input for the Amendment of the Environmental
Authorisation – Sirius Solar PV Project Two, Northern Cape Province**

Having reviewed the above report I am satisfied that it adequately describes the proposed amendments to the project and the potential for change in the significance of the social impacts; as assessed by Tony Barbour Environmental Consulting and Research in November 2013.

I agree with the conclusion that:

“The proposed amendments are considered to be acceptable from a social perspective and can be approved, subject to the implementation of the mitigation and enhancement measures as specified in the SIA (November 2013)”.

Yours sincerely

Neville Bews
